Abstract: The Office of Enforcement and Compliance Assurance (OECA) is responsible for administrative, civil and criminal enforcement of the environmental laws that EPA administers. EPA's criminal enforcement and civil enforcement programs are dependent on tips and complaints from concerned citizens and members of the regulated community. The OECA Tips & Complaints Web page provides a convenient means by which these individuals can voluntarily submit tips and complaints regarding suspected violations of environmental law. Tips or complaints received are used by civil and/or criminal enforcement personnel at EPA to determine whether an investigation is warranted into the suspected or alleged misconduct. In some cases, EPA may decide to refer tips or complaints for investigation to other federal agencies or to State or local authorities within whose jurisdiction the matter may appropriately fall. The OECA Tips and Complaints Web page does not replace or otherwise supplant other means of providing tips or complaints to EPA; it merely provides a convenient means by which to supply these tips or complaints. As with complaints provided by phone, fax, or electronic mail, we expect that tipsters or complainants are already in the possession of information that leads them to suspect a violation of environmental law when they contact EPA to report the matter. Accordingly, EPA believes that the burden associated with the reporting is merely that arising from the need to read the instructions and type or select information into the appropriate fields.

Form Numbers: None.

Respondents/affected entities:

Anyone wishing to file a tip or complaint.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 10,286 (total).

Frequency of response: Occasionally.

Total estimated burden: 5,143 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$102,242 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 542 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase reflects that tips and complaints are being filed at a higher rate, which is a strong indication of the success of this program.

Courtney Kerwin,

Acting Director, Collection Strategies Division.

Abstract: The affected entities are subject to the General Provisions of the NSPS (40 CFR part 60, subpart A) and any changes, or additions to the Provisions are specified at 40 CFR part 60, subpart TTT. Owners or operators of the affected facilities must make an initial notification report, performance tests, periodic reports, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are also required semiannually.

Form Numbers: None.

Respondents/affected entities: Facilities that perform industrial surface coating on plastic parts for business machines.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart TTT).

Estimated number of respondents: 10 (total).

Frequency of response: Initially, quarterly and semiannually.

Total estimated burden: 992 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$99,700 (per year). There are no annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the respondent burden from the most recently approved ICR. The increase in respondent labor hour is caused by a change in assumption; in this ICR, we assume all existing sources will take some time each year to re-familiarize themselves with the rule requirements.
