SUPPLEMENTARY INFORMATION: In 2015, NIOSH and the DOL Office of Workers'

Compensation Programs (OWCP) entered into a Memorandum of Understanding (MOU)¹ designed to establish a joint quality assurance program for the assessment of classifications of chest radiographic images performed by physicians in Black Lung Benefits proceedings who are "B Readers" certified by NIOSH. The B Reader Certification Program was established by NIOSH pursuant to the Federal Mine Safety and Health Act of 1977, 30 U.S.C. 843. NIOSH B Readers are physicians who have demonstrated proficiency in the use of the International Labour Organization (ILO) Classification of Radiographs of Pneumoconioses by passing a proficiency examination offered by NIOSH, as specified in 42 CFR 37.51. B Readers may submit classifications as part of OWCP's process of evaluating claims for compensation under the federal Black Lung Benefits Act, 30 U.S.C. 901 to 944.

To implement the MOU, NIOSH has developed a draft quality assurance review procedure entitled, *NIOSH Quality Assurance Review of B Readers' Classifications Submitted in the Department of Labor (DOL) Black Lung Benefits Program*, to provide a mechanism to assess the quality of classifications of certain chest radiographs performed by B Readers. NIOSH quality assurance review will focus on the classification of the presence or absence of large opacities as described in the ILO classification system in chest radiographs, because coal miners with large opacities are irrefutably presumed to be totally disabled, or to have died, from pneumoconiosis, pursuant to 30 U.S.C. 921(c)(3). Thus, determinations of large opacities have a significant impact on awarding benefits under the Black Lung Benefits Act.

NIOSH seeks comment from B Readers and other interested parties on the draft procedure. All comments submitted will be considered; the final version of this procedure will be published on the NIOSH Web site.

Dated: February 8, 2016.

John Howard,

Director, National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention.
