SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is issuing a revision to an existing guide in the NRC's “Regulatory Guide” series. This series was developed to describe and make available to the public information regarding methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the NRC staff uses in evaluating specific issues or postulated events, and data that the NRC staff needs in its review of applications for permits and licenses.

Revision 2 of RG 1.127 was issued with a temporary identification as Draft Regulatory Guide, DG–1245. The RG is being updated to provide licensees and applicants with the most current guidance and to help ensure that applicants and licensees are able to demonstrate compliance with the applicable regulations.
