

are similarly situated to KHTV-CD, the station in the same category that it already had accorded such protection. Because the Commission addressed the specific issue that was presented by the 2014 Petitions, the suggestion that the Commission exercised “unbounded discretion” on reconsideration lacks merit.

20. Finally, Petitioners complain that the Commission “[w]ithout any explanation” included WDYB-CD on the June 30, 2015 list of eligible stations although, like Petitioners, WDYB-CD’s current licensee, Latina, did not file an application for a license to cover a Class A facility until after February 22, 2012 or advocate for protection of its station until after adoption of the *Incentive Auction R&O*. WDYB-CD was included on the June 30, 2015 list in light of our decision to protect stations that “hold a Class A license today and that had an application for a Class A construction permit pending or granted as of February 22, 2012.” Further examination of the record reveals, however, that WDYB-CD did not have an application for a Class A authorization pending or granted as of February 22, 2012. WDYB-CD’s prior licensee obtained a Class A construction permit prior to that date, but the permit expired in December 2011. Instead of constructing the Class A station, Latina filed an application for an LPTV construction permit for WDYB-CD in February 2011, which superseded the Class A construction permit. The LPTV application did not require a certification that WDYB-CD was and would continue to meet all of the full power and Class A regulatory requirements that are applicable to Class A stations. WDYB-CD was constructed and operated as an LPTV station until November 2012. Thus, Latina was not pursuing Class A status before the Commission as of February 22, 2012.

21. We disagree with Latina that WDYB-CD properly was included in the eligible stations list simply because it had a Class A authorization prior to February 22, 2012, regardless of its status as of that date. Latina’s argument that our authority on reconsideration is limited to granting or denying the relief requested by Petitioners fails for the same reasons as Petitioners’ arguments regarding our authority to act on reconsideration. We also find unpersuasive Latina’s recent estoppel and notice arguments. Latina maintains that it relied on the standard the Commission announced in the *Second Order on Reconsideration*, its inclusion in eligibility notices beginning in June 2015, and the Commission’s statements regarding WDYB-CD in litigation.

Latina’s reliance on the *Second Order on Reconsideration* was misplaced: As Petitioners point out, the Commission specifically rejected Latina’s argument that it was entitled to protection because it was similarly situated to Petitioners, and Latina never argued that it was entitled to protection on any other basis until filing its *1/22 Ex Parte Letter*. The eligibility notices that Latina cites emphasized that they were neither final nor intended to decide eligibility issues. For example, the June 9, 2015 public notice stated that it was “not intended to pre-judge [the] outcome” of pending reconsideration petitions regarding the scope of protection, a June 30, 2015 public notice emphasized that “the list of stations included in the baseline data released today is not the final list of stations eligible for repacking protection,” and the most recent public notice listing eligible stations noted the possibility of revisions to the baseline data. Finally, before the D.C. Circuit, the Commission merely pointed out that, unlike Petitioners’ stations, Class A construction permits had been obtained for WDYB-CD prior to February 22, 2012, without stating that this factual distinction entitled WDYB-CD to protection under the standard in the *Second Order on Reconsideration*. We therefore conclude that WDYB-CD is not entitled to discretionary repacking protection or eligible to participate in the reverse auction.

22. In the Incentive Auction Report and Order, and again in the Second Reconsideration Order, the Commission determined that if a Class A station obtains a license after February 22, 2012, but is displaced by the auction repacking process, it will be eligible to file for a new channel in one of the first two filing opportunities for alternate channels. WDYB-CD would be eligible to file such a displacement application. Previously, we delegated authority to the Media Bureau to determine whether such stations should be allowed to file during the first or the second filing opportunity. We now direct the Media Bureau to allow such stations to file during the first filing opportunity. In the event of mutual exclusivity with an application from a full power or Class A station entitled to repacking protection the application of the full power or Class A station will prevail.

23. This document does not contain new or modified information collection requirements subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104-13. In addition, therefore, it does not contain any new or modified information collection burden for small business concerns with fewer than 25 employees, pursuant to the Small

Business Paperwork Relief Act of 2002, Public Law 107-198, *see* 44 U.S.C. 3506(c)(4).

24. The Commission will not send a copy of this Order pursuant to the Congressional Review Act, *see* 5 U.S.C. 801(a)(1)(A) because no rules are being adopted by the Commission.

IV. Ordering Clauses

25. *It is ordered* that, pursuant to section 405 of the Communications Act of 1934, as amended, 47 U.S.C. 405, and section 1.429 of the Commission’s rules, 47 CFR 1.429, the Petition for Reconsideration filed by The Videohouse, Inc., Abacus Television, WMTM, LLC, and KMYA, LLC is *dismissed and/or denied* to the extent described herein.

26. *It is further ordered* that WDYB-CD, Daytona Beach, Florida, which is licensed to Latina Broadcasters of Daytona Beach, LLC, is not entitled to discretionary repacking protection or eligible to participate in the reverse auction.

27. *It is further ordered* that this Order on Reconsideration *shall be effective* upon release.

Federal Communications Commission.

[Docket No. EP 712]

Improving Regulation and Regulatory Review

AGENCY: Surface Transportation Board.

ACTION: Final rules.

SUMMARY: The Surface Transportation Board (Board) is revising, correcting, and updating its regulations. These modifications include replacing obsolete statutory references, updating office and address references, and correcting spelling, grammatical, terminology, explanatory, and typographical errors. The Board is also making changes to certain authority citations and to certain regulations related to reporting requirements.

DATES: Effective March 25, 2016.

SUPPLEMENTARY INFORMATION:

In accordance with Executive Order 13563, "Improving Regulation and Regulatory Review," and Executive Order 13579, "Regulation and Independent Regulatory Agencies," the Board began this proceeding on October 12, 2011, to review its existing regulations and sought public comments on whether any of its regulations may be outmoded, ineffective, insufficient, or excessively burdensome, and how to modify, streamline, expand, or repeal them, as appropriate. *See* Exec. Order No. 13563, 76 FR 3821 (Jan. 21, 2011); Exec. Order No. 13579, 76 FR 41587 (Jul. 14, 2011). In this decision, we are revising, correcting, and updating our regulations in 49 CFR Chapter X, pursuant to the comments received and the Board's own internal review of its regulations.

The changes made by this decision generally fall into the following categories: Eliminating or changing obsolete agency/office titles (*e.g.*, 49 CFR 1007.6(a)(8)); making spelling, grammatical, terminology, explanatory, and typographical changes (*e.g.*, 49 CFR 1016.105(a)); correcting references to United States Code or Code of Federal Regulations sections that have been moved or are otherwise incorrect (*e.g.*, 49 CFR 1013.2(d), 49 CFR 1018.6(a));¹ and amending rules of agency organization, procedure, or practice (*e.g.*, 49 CFR 1011.7(a), 49 CFR 1111.1(a)). Additionally, this decision makes certain nonsubstantive updates related to the Board's reporting requirements, including adding the option of electronic submissions and eliminating language requiring the filing of duplicate copies (*e.g.*, 49 CFR 1243.1), and updating form titles (*e.g.*, 49 CFR 1245.2).²

Because these changes either remove obsolete regulations, make revisions that are not substantive, or update rules to reflect current agency practice, we find good cause to dispense with notice and comment under the Administrative Procedure Act (APA). 5 U.S.C. 553(b)(3)(A) and (B). These changes are not intended to be a comprehensive

¹ We recognize that the recently enacted Surface Transportation Board Reauthorization Act of 2015, Pub. L. 114-110, recodifies provisions of title 49, United States Code. To the extent those provisions are referenced in our regulations, the Board will address those and other changes to the Code of Federal Regulations stemming from that Act at a later date.

² These changes were proposed in *Accelerating Reporting Requirements for Class I Railroads*, EP 701 (STB served July 8, 2015).

response to the comments received in this docket; the Board will continue to evaluate those comments and review its regulations, and may promulgate additional revisions at a later date.

The Regulatory Flexibility Act (RFA), as amended by the Small Business Regulatory Enforcement Fairness Act of 1996, 5 U.S.C. 601-612, generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements, unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Because the Board has determined that notice and comment are not required under the APA for this rulemaking, the requirements of the RFA do not apply.

These final rules do not contain a new or amended information collection requirement subject to the Paperwork Reduction Act of 1995, 44 U.S.C. 3501-3549.

It is ordered:

1. The rule modifications set forth below are adopted as final rules.
2. This decision is effective March 25, 2016.

Note: The following comment will not appear in the Code of Federal Regulations.

COMMISSIONER BEGEMAN,
commenting:

It is disappointing that today's decision is all we can muster up more than four years after receiving public comments on whether any of the Board's regulations are “ineffective, insufficient, or excessively burdensome, and how to modify, streamline, expand, or repeal them. . . .” I certainly don't object to replacing obsolete references and correcting spelling and other errors, but we should be doing so as a matter of course. Today's decision is simply not responsive to what we set out to do in 2011. Nor does it meet the spirit—let alone achieve the purpose—of the President's two Executive Orders.

Fisheries Off West Coast States; Coastal Pelagic Species Fisheries; Annual Specifications

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues this final rule to implement annual management measures and harvest specifications to establish the allowable catch levels (*i.e.* annual catch limit (ACL)/harvest guideline (HG)) for Pacific mackerel in the U.S. exclusive economic zone (EEZ) off the Pacific Coast for the fishing season of July 1, 2015, through June 30, 2016. This rule is implemented pursuant to the Coastal Pelagic Species (CPS) Fishery Management Plan (FMP). The 2015–2016 HG for Pacific mackerel is 21,469 metric tons (mt). This is the total commercial fishing target level. This action also implements an annual catch target (ACT), of 20,469 mt. If the fishery attains the ACT, the directed fishery will close, reserving the difference between the HG (21,469 mt) and ACT as a 1,000 mt set-aside for incidental landings in other CPS fisheries and other sources of mortality. This final rule is intended to conserve and manage the Pacific mackerel stock off the U.S. West Coast.

DATES: Effective March 24, 2016 through June 30, 2016.

FOR FURTHER INFORMATION CONTACT: Joshua Lindsay, West Coast Region, NMFS, (562) 980-4034 Joshua.Lindsay@noaa.gov.

SUPPLEMENTARY INFORMATION: During public meetings each year, the estimated biomass for Pacific mackerel is presented to the Pacific Fishery Management Council's (Council) CPS Management Team (Team), the Council's CPS Advisory Subpanel (Subpanel) and the Council's Scientific and Statistical Committee (SSC), and the biomass and the status of the fishery are reviewed and discussed. The biomass estimate is then presented to the Council along with the recommended overfishing limit (OFL) and acceptable biological catch (ABC) calculations from the SSC, along with the calculated ACL, HG and ACT recommendations, and
