Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Amendments to the Reef Fish, Spiny Lobster, Queen Conch, and Corals and Reef Associated Plants and Invertebrates Fishery Management Plans of Puerto Rico and the U.S. Virgin Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes to implement measures described in Amendment 7 to the Fishery Management Plan (FMP) for the Reef Fish Fishery of Puerto Rico and the U.S. Virgin Islands (USVI) (Reef Fish FMP), Amendment 6 to the FMP for the Spiny Lobster Fishery of Puerto Rico and the USVI (Spiny Lobster FMP), Amendment 5 to the FMP for Corals and Reef Associated Plants and Invertebrates of Puerto Rico and the USVI (Coral FMP), and Amendment 4 to the FMP for the Queen Conch Resources of Puerto Rico and the USVI (Queen Conch FMP), as prepared by the Caribbean Fishery Management Council (Council). In combination, these amendments represent the Application of Accountability Measures (AM) Amendment (AM Application Amendment). If implemented, the AM Application Amendment would resolve an existing inconsistency between language in the FMPs and the regulations implementing the application of AMs in the U.S. Caribbean exclusive economic zone (EEZ). The purpose of the AM Application Amendment is to ensure the authorizing FMPs are consistent with the regulations governing AMs in the Caribbean EEZ. Additionally, this proposed rule would clarify the AM closure provisions, the application of the spiny lobster ACL in the Puerto Rico management area of the Caribbean EEZ, and the minimum size limit for queen conch in the Caribbean EEZ.

DATES: Written comments must be received on or before March 28, 2016.

ADDRESSES: You may submit comments on the proposed rule identified by

“NOAA–NMFS–2015–0124” by any of the following methods:

- **Electronic Submissions:** Submit all electronic public comments via the Federal e-Rulemaking Portal: <http://www.regulations.gov>. Go to www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2015-0124, click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to María del Mar López, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (*e.g.*, name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

Electronic copies of the AM Application Amendment, which includes an environmental assessment, a Regulatory Flexibility Act (RFA) analysis, and a regulatory impact review may be obtained from the Southeast Regional Office Web site at http://sero.nmfs.noaa.gov/sustainable_fisheries/caribbean/index.html.

FOR FURTHER INFORMATION CONTACT:

María del Mar López, telephone: 727–824–5305; email: maria.lopez@noaa.gov.

SUPPLEMENTARY INFORMATION: In the Caribbean EEZ, the reef fish, spiny lobster, queen conch, and corals and reef associated plants and invertebrates fisheries are managed under their respective FMPs. The FMPs were prepared by the Council and are implemented through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

Background

The final rule implementing Amendment 2 to the Queen Conch FMP and Amendment 5 to the Reef Fish FMP (2010 Caribbean Annual Catch Limit (ACL) Amendment) established ACLs and AMs for species/species groups that were at the time experiencing overfishing (*i.e.*, parrotfish, snapper, grouper, queen conch) (76 FR 82404,
