Medicare Program; Comprehensive Care for Joint Replacement Payment Model for Acute Care Hospitals Furnishing Lower Extremity Joint Replacement Services; Corrections and Correcting Amendments

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Final rule; correction and correcting amendments.

SUMMARY: In the November 24, 2015 *Federal Register* (80 FR 73274), we published a final rule to implement a new Medicare Part A and B payment model under section 1115A of the Social Security Act, called the Comprehensive Care for Joint Replacement (CJR) model, in which acute care hospitals in certain selected geographic areas will receive retrospective bundled payments for episodes of care for lower extremity joint replacement (LEJR) or reattachment of a lower extremity. The effective date was January 15, 2016. This correcting amendment corrects a limited number of technical and typographical errors identified in the November 24, 2015 final rule.

DATES: This correcting amendment is effective March 4, 2016.

FOR FURTHER INFORMATION CONTACT: Claire Schreiber, *cjr@cms.hhs.gov*, (410) 786–8939.

SUPPLEMENTARY INFORMATION:

I. Background

In FR Doc. 2015–29438 of November 24, 2015 (80 FR 73274), the final rule

entitled “Comprehensive Care for Joint Replacement Payment Model for Acute Care Hospitals Furnishing Lower Extremity Joint Replacement Services” there were a number of technical and typographical errors that are identified and corrected in this correcting amendment. The provisions in this correcting amendment are effective as if they had been included in the final rule appearing in the November 24, 2015 **Federal Register**.

II. Summary of Errors

A. Summary of Errors in the Preamble

On pages 73274 and 73282, we made an error in identifying the acronym “MS-DRG”.

On pages 73289, 73335, 73412, 73526, and 73528, we made inadvertent typographical errors which included the omission and addition of words, symbols, and lines of text.

On pages 73324, 73381, and 73535, we made typographical errors in the Medicare Severity Diagnosis Related Group (MS-DRG) and National Quality Forum (NQF) numbers.

On page 73324, we made typographical and grammatical errors when specifying several regulatory citations.

On pages 73338, 73355, 73357, and 73358, in our discussion of the “Episode Price Setting Methodology”, we implied that the calculation of prospective target prices will incorporate the effective discount percentage determined by quality performance under the model. We clarify that target prices will be determined prospectively using a 3 percent discount percentage, and hospitals may experience a different effective discount percentage at reconciliation due to quality.

On page 73362, in our discussion of the “Methodology To Determine Performance on the Quality Measures”, we made an error in the data submission requirements for the percentage of the eligible elective primary THA/TKA patients needed.

B. Summary of Errors in the Regulations Text

On page 73543, in the regulations text for § 510.300, we erroneously included a paragraph regarding adjustments for quality performance (paragraph (a)(4)). We note that as specified in the final rule, target prices will be determined prospectively using a 3 percent discount percentage, and hospitals may experience a different effective discount percentage at reconciliation due to quality. To correct this error, we have removed paragraph (a)(4) and renumbered the subsequent paragraph (that is, the current paragraph (a)(5)).

On page 73544, in the regulation text at § 510.300(c)(2) (Determination of episode target prices) we inadvertently omitted the discount factor for repayment amounts in program years (PYs) 4 and 5. To correct this error, we have added a paragraph (c)(2)(iii).

On page 73549, in the regulation text at § 510.305, we made a cross-referencing error.

The corrections to the errors summarized in this section appear in the regulations text of this correcting amendment.

III. Waiver of Proposed Rulemaking, 60-Day Comment Period, and Delay in Effective Date

Under 5 U.S.C. 553(b) of the Administrative Procedure Act (APA), the agency is required to publish a notice of the proposed rule in the **Federal Register** before the provisions of a rule take effect. Similarly, section 1871(b)(1) of the Act requires the Secretary to provide for notice of the proposed rule in the **Federal Register** and provide a period of not less than 60 days for public comment. In addition, section 553(d) of the APA, and section 1871(e)(1)(B)(i) of the Act mandate a 30-day delay in effective date after issuance or publication of a rule. Sections 553(b)(B) and 553(d)(3) of the APA provide for exceptions from the notice and comment and delay in effective date APA requirements; in cases in which these exceptions apply, sections 1871(b)(2)(C) and 1871(e)(1)(B)(ii) of the Act provide exceptions from the notice and 60-day comment period and delay in effective date requirements of the Act as well. Section 553(b)(B) of the APA and section 1871(b)(2)(C) of the Act authorize an agency to dispense with normal rulemaking requirements for good cause if the agency makes a finding that the notice and comment process are impracticable, unnecessary, or contrary to the public interest. In addition, both section 553(d)(3) of the APA and section 1871(e)(1)(B)(ii) of the Act allow the agency to avoid the 30-day delay in effective date where such delay is contrary to the public interest and the agency includes a statement of support.

We believe that this document does not constitute a rulemaking that would be subject to these requirements. This document corrects technical and typographic errors in the preamble and regulation text included in the Medicare Program; Comprehensive Care for Joint Replacement Payment Model for Acute Care Hospitals Furnishing Lower Extremity Joint Replacement Services (80 FR 73274). The corrections contained in this document are

consistent with, and do not make substantive changes to, the policies that were adopted subject to notice and comment procedures in the final rule. As a result, the corrections made through this document are intended to ensure that the Medicare Program; Comprehensive Care for Joint Replacement Payment Model for Acute Care Hospitals Furnishing Lower Extremity Joint Replacement Services final rule accurately reflects the policies adopted in that rule. In addition, even if this were a rulemaking to which the notice and comment procedures and delayed effective date requirements applied, we find that there is good cause to waive such requirements. Undertaking further notice and comment procedures to incorporate the corrections in this document into the final rule or delaying the effective date would be contrary to the public interest because it is in the public’s interest for the CJR model final rule to accurately reflect our policies as of the date they take effect and are applicable. Furthermore, such procedures would be unnecessary, as we are not altering our policies; rather, we are simply implementing correctly the policies that we previously proposed, received comment on, and subsequently finalized. This correcting document is intended solely to ensure that the Medicare Program; Comprehensive Care for Joint Replacement Payment Model for Acute Care Hospitals Furnishing Lower Extremity Joint Replacement Services final rule accurately reflects these policies. Therefore, we believe we have good cause to waive the notice and comment and effective date requirements.

IV. Correction of Errors in the Preamble
