SUPPLEMENTARY INFORMATION: In accordance with the requirements of the Federal Advisory Committee Act, 5 U.S.C. App., we announce that the Trinity River Adaptive Management Working Group will hold a meeting.

Background

The TAMWG affords stakeholders the opportunity to give policy, management, and technical input concerning Trinity River (California) restoration efforts to the TMC. The TMC interprets and

recommends policy, coordinates and reviews management actions, and provides organizational budget oversight.

Meeting Agenda

The TAMWG will hold a concurrent meeting with the Trinity River Science Symposium/Decision Support System workshop. The goal workshop is to advance the development and use of a decision support system for the Trinity River Restoration Program (TRRP).

The workshop will consist of oral presentations and panel discussions related to four key elements:

- (1) Providing background on DSS and example applications,
- (2) Communicating the status of DSS development for the TRRP and how it can be used in the near term to support decision making,
- (3) Identifying and initiating an approach to resolve key organization and administrative challenges to DSS development, and
- (4) Initiating next steps recommended by the Science Advisory Board for implementation of a DSS, such as a workplan, schedule, and identification of task leaders.

A detailed addendum will be posted on the TAMWG Web site (<http://www.fws.gov/arcata/fisheries/tamwg.html>) when it is finalized.
