Certain Biaxial Integral Geogrid Products From China

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of certain biaxial integral geogrid products from China, provided for in subheading 3926.90.99 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value ("LTFV") and that are allegedly subsidized by the government of China.

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce ("Commerce") of affirmative preliminary determinations in the investigations under sections 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under sections 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service

list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Background

On January 13, 2016, Tensar Corporation, Morrow, Georgia filed a petition with the Commission and Commerce, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV and subsidized imports of certain biaxial integral geogrid products from China. Accordingly, effective January 13, 2016, the Commission, pursuant to sections 703(a) and 733(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a) and 1673b(a)), instituted countervailing duty investigation No. 701-TA-554 and antidumping duty investigation No. 731-TA-1309 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of January 20, 2016 (81 FR 3157). The conference was held in Washington, DC, on February 3, 2016, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made these determinations pursuant to sections 703(a) and 733(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a) and 1673b(a)). It completed and filed its determinations in these investigations on February 29, 2016. BILLING CODE 7020-02-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On February 26, 2016, the Department of Justice lodged a proposed consent decree with the United States District Court for the Northern District of California in the lawsuit entitled *United States and North Coast Unified Air*

Quality Management District v. Blue Lake Power, LLC, Civil Action No. 3:16-cv-00961.

The United States and the North Coast Unified Air Quality Management District ("District") filed this lawsuit under the Clean Air Act. The complaint seeks injunctive relief and civil penalties for violations of the Clean Air Act's Prevention of Significant Deterioration provisions, 42 U.S.C. 7470-92, and the North Coast Unified Air Quality Management District Rules at Defendant Blue Lake Power, LLC's biomass-fired electric generating plant in Blue Lake, California. Specifically, the complaint alleges that, when defendant restarted the plant in 2010, it failed to obtain appropriate permits and failed to install and operate required pollution control devices to reduce emissions of carbon monoxide (CO), oxides of nitrogen (NO_x), and/or particulate matter with a diameter of 10 microns (PM₁₀) at its facility.

The proposed consent decree requires the defendant to perform injunctive relief and pay a \$5,000 civil penalty to be shared between the United States and the District. The defendant is required to install and operate pollution control equipment at its facility, meet emission limitations for CO, NO_x, and PM₁₀, and adopt operational procedures to reduce additional emissions of particulate matter from the facility. In addition, Blue Lake Power will contribute \$10,000 to the District's wood stove replacement program in order to mitigate the adverse effects of past particulate matter emissions from the facility.

The publication of this notice opens a period for public comment on the proposed consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States and North Coast Unified Air Quality Management District v. Blue Lake Power LLC*, D.J. Ref. No. 90-5-2-1-11038. All comments must be submitted no later than thirty (30) days after the publication date of this notice.
