SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Benefit Rights and Experience Report, Form ETA-218, information collection. In order for an individual to be eligible for a State unemployment compensation program, the claimant must meet certain requirements that demonstrate attachment to the labor force. The vast majority of states use past wages for this purpose, however, a few States use actual weeks of work. A State reports information relative to this first test of eligibility—known as monetary eligibility—on Form ETA-218, which includes counts on number of individuals who were and were not monetarily eligible, those eligible for the maximum benefits, the number of newly eligible claimants categorized by potential duration, and the number of persons who exhausted benefits categorized by their actual duration. This information collection has been classified as a revision, because the Extended Unemployment Compensation program has ended; therefore, maintaining the related information collection requirements no longer has practical utility. Social Security Act section 303(a)(6) authorizes this information collection. See 42 U.S.C. 503(a)(6).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205-0177. The current approval is scheduled to expire on May 31, 2016; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on September 28, 2015 (80 FR 58299).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of

publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205-0177. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
