SUPPLEMENTARY INFORMATION:

Title: 7 CFR Part 210, National School Lunch Program.

Form: FNS-640.

OMB Control Number: 0584-0006.

Expiration Date: March 31, 2016.

Type of Request: Revision of a currently approved collection.

Abstract: The Richard B. Russell National School Lunch Act (NSLA), as amended, authorizes the National School Lunch Program (NSLP) to safeguard the health and well-being of the nation's children and provide free or reduced price school lunches to qualified students through subsidies to schools. Section 10 of the Child Nutrition Act of 1966 (42 U.S.C. 1779) requires the Secretary of Agriculture to prescribe such regulations as deemed necessary to carry out this Act and the NSLA (42 U.S.C. 1751 *et seq.*). Pursuant to that provision, the Secretary has issued 7 CFR part 210, which sets forth policies and procedures for the administration and operation of the NSLP. The United States Department of Agriculture (USDA) provides States with general and special cash assistance and donations of foods to assist schools in serving nutritious lunches to children each school day. Participating State agencies must conduct administrative reviews to monitor compliance with Program requirements. FNS collects

Program data from State agencies on FNS forms that have been approved by OMB. The FNS-640 form collects information from these administrative reviews conducted by the State agency. The FNS-640 Coordinated Review Effort (CRE) Data Report is currently approved as part of this information collection. The title of the FNS-640 form is being changed to "Administrative Review Data Report" and FNS is proposing revisions to reflect changes to the administrative review process and revisions to incorporate the form into an electronic report for the Food Program Reporting System (FPRS). Upon approval of the proposed revisions by OMB, the reporting burden for this form will be merged into the FPRS information collection, OMB control # 0584-0594, expiration date 06/30/2017. The reporting and recordkeeping burden hours associated with this revision are not changing.

This information collection is required to administer and operate this program in accordance with the NSLA. All of the reporting and recordkeeping requirements associated with the NSLP are currently approved by the Office of Management and Budget and are in force. This is a revision of the currently approved information collection.

SUPPLEMENTARY INFORMATION:
Title: Study of WIC Food Package Costs and Cost Containment.
Form Number: N/A.
OMB Number: Not Yet Assigned.
Expiration Date: Not Yet Determined.
Type of Request: New collection.

Abstract: The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) provides supplemental foods to safeguard the

health of low-income pregnant and postpartum women, infants, and children up to 5 years of age who are at nutritional risk. In an effort to ensure the best use of available funds and to provide for participation by eligible individuals, WIC State agencies (SAs) are responsible for implementing food package and other cost containment measures. FNS has funded this study to gather information on the types of cost-containment practices used by the 90 WIC SAs, assess the effectiveness of various practices, and identify those practices that constrain the cost of WIC foods with minimal increases to administrative costs and no adverse effects on WIC program outcomes such as participant satisfaction, retention, and consumption of WIC foods. The findings will be used by FNS to share with WIC SAs food item cost containment practices that are effective at reducing WIC food costs.

The information collection subject to this notice includes the following:

1. Telephone interviews with WIC directors in all 90 WIC SAs: Needed to obtain information on cost containment measures, reasons for implementing certain cost containment strategies and not others, opinions on effects on program outcomes, and challenges of implementing and maintaining measures.

2. Collection of administrative costs of practices, administrative WIC data, and electronic benefit transfer (EBT) data in 12 WIC SAs: Administrative data are needed to assess administrative costs and examine participant characteristics, food package prescriptions, indicators of health, and income; EBT data are
