AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing

effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before May 13, 2016.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Amy Sloan, NOAA Fisheries Office of Protected Resources, 1315 East-West Highway, Silver Spring, MD 20910 ((301) 427-84010), Amy.Sloan@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a revision and extension of a currently approved information collection.

The Marine Mammal Protection Act (16 U.S.C. 1361 *et seq.*; MMPA), Fur Seal Act (16 U.S.C. 1151 *et seq.*; FSA), and Endangered Species Act (16 U.S.C. 1531 *et seq.*; ESA) prohibit certain activities affecting marine mammals and endangered and threatened species, with exceptions. Pursuant to section 104 of the MMPA and Section 10(a)(1)(A) of the ESA, special exception permits may be obtained for scientific research and enhancing the survival or recovery of a species or stock of marine mammals or threatened or endangered species. Section 104 of the MMPA also includes permits for commercial and educational photography of marine mammals; import and capture of marine mammals for public display; and, Letters of Confirmation under the General Authorization for scientific research that involves minimal disturbance to marine mammals. The regulations implementing permits and reporting requirements under the MMPA and FSA are at 50 CFR part 216; the regulations for permit requirements under the ESA are at 50 CFR part 222. The required information in this collection is used to make the determinations required by the MMPA, ESA and their implementing regulations prior to issuing a permit; to establish appropriate permit conditions; and to evaluate the impacts of the proposed activity on protected species. Inventory reporting pertaining to marine

mammals in public display facilities is required by the MMPA.

This information collection applies to certain protected species for which NMFS is responsible, including cetaceans (whales, dolphins and porpoises), pinnipeds (seals and sea lions), sawfish (largetooth and smalltooth), sea turtles (in water), and sturgeon (Atlantic and shortnose). The information collection may be used for future listed species.

The currently approved application and reporting requirements will be revised to (1) create separate sections for marine mammals versus non-mammal species where doing so will result in less burden to the applicant (*e.g.*, for scientific methods); (2) clarify to applicants why the information is required and what level of detail is needed for our analyses; (3) create 'enhanced help' features (*e.g.*, pop-up windows) in the online application system, Authorizations and Permits for Protected Species (APPS; <https://apps.nmfs.noaa.gov/>) to make the instructions more accessible; (4) create a streamlined application and online module in APPS for scientific research permits involving only import, export, or receipt of biological samples (*i.e.*, where no animals in the wild are affected); (5) make photography permit applications accessible via APPS.

II. Method of Collection

Permit applications, permit reports, and inventory reports are available in paper or electronic versions (online or via email). Respondents may submit all applications and forms by email, facsimile, or mail. Respondents may also submit scientific research and enhancement permit applications and Letters of Intent under the General Authorization online via APPS.

III. Data

OMB Control Number: 0648-0084.

Form Number(s): None.

Type of Review: Regular (revision and extension of a currently approved collection).

Affected Public: Individuals; business or other for-profit organizations; not-for-profit institutions; state, local, or tribal government; Federal government.

permit reports, 12 hours; public display permit reports, 2 hours; photography permit reports, 2 hours; General Authorization reports, 8 hours; public display inventory reporting, 2 hours; and record keeping, 2 hours per permit or authorization type (including permits for scientific research, public display, photography, General Authorization; and retention or transfer of rehabilitated animals).

Estimated Total Annual Burden Hours: 7,455.

Estimated Total Annual Cost to Public: \$1,000 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
