

Responses to the collection of information are mandatory (see 40 CFR part 790). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 8.5 and 243 hours per response, not including CDX registration, and 0.53 hours per CDX registration. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are manufacturers, processors, importers, users, distributors or disposers of one or more specified chemical substances.

Estimated total number of potential respondents: 15.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 5.6.

Estimated total annual burden hours: 3,055 hours.

Estimated total annual costs: \$27,089,112. This includes an estimated burden cost of \$58,917 and an estimated cost of \$27,030,195 for capital investment or maintenance and operational costs (namely laboratory test costs).

III. Are there changes in the estimates from the last approval?

There is a decrease of 626,838 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease mainly reflects corrections to the previous renewal of this collection, plus reduced levels of activity in test rules, methodological corrections and updates, and requirements for electronic reporting of information. This change is both a program change (electronic reporting) and an adjustment (all other).

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the

submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Proposal To Approve Under OMB Delegated Authority the Extension for Three Years, Without Revision, of the Following Reports

1. *Report title:* Funding and Liquidity Risk Management Guidance.

Agency form number: FR 4198.

OMB control number: 7100-0326.

Frequency: On occasion and monthly.

Reporters: Bank holding companies, savings and loan holding companies, state member banks, state-licensed branches and agencies of foreign banks (other than insured branches), and corporations organized or operating under sections 25 or 25A of the Federal Reserve Act (agreement corporations and Edge corporations).

Estimated annual burden hours:

Section 14 strategic planning and budgeting process: Large institutions: 20,160 hours; mid-sized institutions: 17,520 hours; small institutions: 428,080 hours. Section 20 liquidity risk reporters: 261,696 hours.

Estimated average hours per response:

Section 14 strategic planning and budgeting process: Large institutions: 720 hours; mid-sized institutions: 240 hours; small institutions: 80 hours. Section 20 liquidity risk reporters: 4 hours.

Number of respondents: Section 14 strategic planning and budgeting process: Large institutions: 28; mid-sized institutions: 73; small institutions: 5,351. Section 20 liquidity risk reporters: 5,452.

General description of report: The Board's Legal Division has determined that this information collection is mandatory based on the following relevant statutory provisions.

- Section 9(6) of the Federal Reserve Act (12 U.S.C. 324) requires state member banks to make reports of condition to their supervising Reserve Bank in such form and containing such information as the Board may require.

- Section 5(c) of the Bank Holding Company Act (12 U.S.C. 1844(c)) authorizes the Board to require a BHC and any subsidiary to submit reports to keep the Board informed as to its

financial condition, [and] systems for monitoring and controlling financial and operating risk.

- Section 7(c)(2) of the International Banking Act of 1978 (12 U.S.C. 3105(c)(2)) requires branches and agencies of foreign banking organizations to file reports of condition with the Federal Reserve to the same extent and in the same manner as if the branch or agency were a state member bank.

- Section 25A of the Federal Reserve Act (12 U.S.C. 625) requires Edge and agreement corporations to make reports to the Board at such time and in such form as it may require.

- Section 10(b) of the Home Owners' Loan Act requires an SLHC to file reports on the operation of the SLHC and any subsidiary as the Board may require and in such form and for such periods as the Board may require.

Because the records required by the Guidance are maintained at the institution, issues of confidentiality are not expected to arise. Should the documents be obtained by the Federal Reserve System during the course of an examination, they would be exempt from disclosure under exemption 8 of FOIA, 5 U.S.C. 552(b)(8). In addition, some or all of the information may be "commercial or financial" information protected from disclosure under exemption 4 of FOIA, under the standards set forth in *National Parks & Conservation Ass'n v. Morton*, 498 F.2d 765 (D.C. Cir. 1974).

Abstract: On March 22, 2010, the Office of the Comptroller of the Currency (OCC), the Office of Thrift Supervision (OTS), the Federal Reserve, and the Federal Deposit Insurance Corporation (FDIC), and the National Credit Union Administration (NCUA) (the agencies) published a joint final notice in the **Federal Register** implementing guidance titled "Interagency Policy Statement on Funding and Liquidity Risk Management" (the "Guidance"), effective May 21, 2010.¹

The Guidance summarizes the principles of sound liquidity risk management that the agencies have issued in the past and, where appropriate, brings them into conformance with the "Principles for Sound Liquidity Risk Management and Supervision" issued by the Basel Committee on Banking Supervision (BCBS) in September 2008. While the BCBS liquidity principles primarily focuses on large internationally active financial institutions, the Guidance emphasizes supervisory expectations for

¹ 75 FR 13656 (March 22, 2010).

all domestic financial institutions including banks, thrifts and credit unions.

The agencies² have identified two sections of the Guidance that fall under the definition of an information collection. Section 14 states that institutions should consider liquidity costs, benefits, and risks in strategic planning and budgeting processes. Section 20 requires that liquidity risk reports provide aggregate information with sufficient supporting detail to enable management to assess the sensitivity of the institution to changes in market conditions, its own financial performance, and other important risk factors.

Current Actions: The Federal Reserve proposes to extend, without revision, the FR 4198 information collection.

2. *Report title:* Recordkeeping Provisions Associated with Guidance on Leveraged Lending.

Agency form number: FR 4203.

OMB control number: 7100-0354.

Frequency: On occasion.

Reporters: All institutions that originate or participate in leverage lending.

Estimated annual burden hours: 29,422 hours.

Estimated average hours per response: 754.4 hours.

Number of respondents: 39.

General description of report: The Board's Legal Division has determined that all financial institutions supervised by the Board and substantively engaged in leveraged lending activities are subject to the FR 4203:

- Regarding state member banks, the information collection is authorized by Section 11(a)(2) of the Federal Reserve Act, 12 U.S.C. 248(a)(2), which authorizes the Board to require any depository institution to make such reports of its assets and liabilities as the Board may determine to be necessary or desirable to enable the Board to discharge its responsibilities to monitor and control monetary and credit aggregates.

- With respect to bank holding companies, Section 5(c) of the Bank Holding Company Act, 12 U.S.C. 1844(c), authorizes the Board to require a bank holding company and any subsidiary "to keep the Board informed as to—(i) its financial condition, [and] systems for monitoring and controlling financial and operating risks. . . ."

- With respect to savings and loan holding companies, 12 U.S.C.

1467a(b)(3), authorizes the Board to "maintain such books and records as may be prescribed by the Board."

- Regarding branches and agencies of foreign banking organizations, Section 7(c)(2) of the International Banking Act of 1978, 12 U.S.C. 3105(c)(2), subjects such entities to the requirements of section 11(a) of the Federal Reserve Act (12 U.S.C. 248(a)) "to the same extent and in the same manner as if the branch or agency were a state member bank."

- Under Section 25 of the Federal Reserve Act, 12 U.S.C. 602, member banks are required to furnish to the Board "information concerning the condition of" Edge and Agreement Corporations in which they invest. More generally with respect to Edge and Agreement Corporations, under Section 25A of the Federal Reserve Act, 12 U.S.C. 611a, the Federal Reserve may "issue rules and regulations" governing such entities "consistent with and in furtherance of the purposes" of that subchapter.

Because the information collection is called for in guidance and not in a statute or regulation, it is considered voluntary.

Because the information collected by the Proposed Guidance is maintained at the institutions, issues of confidentiality would not normally arise. Should the information be obtained by the Board in the course of an examination, it would be exempt from disclosure under exemption 8 of Freedom of Information Act (FOIA), 5 U.S.C. 552(b)(8). In addition, some or all of the information may be confidential commercial or financial information protected from disclosure under exemption 4 of FOIA, under the standards set forth in *National Parks & Conservation Ass'n v. Morton*, 498 F.2d 765 (D.C. Cir. 1974).

Abstract: The interagency guidance outlines high-level principles related to safe and sound leveraged lending activities, including underwriting considerations, assessing and documenting enterprise value, risk management expectations for credits awaiting distribution, stress testing expectations and portfolio management, and risk management expectations. This guidance applies to all financial institutions substantively engaged in leveraged lending activities supervised by the Federal Reserve, FDIC, and OCC (the Agencies).

The Agencies identified certain aspects of the proposed guidance that may constitute a collection of information. In particular, these aspects are the provisions that state a banking organization should (a) have underwriting policies for leveraged lending, including stress testing

procedures for leveraged credits; (b) have risk management policies, including stress testing procedures for pipeline exposures; and (c) have policies and procedures for incorporating the results of leveraged credit and pipeline stress tests into the firm's overall stress testing framework.

Although the guidance is applicable to all institutions that originate or participate in leverage lending, due to the large exposures created by these types of loans, these credits are most likely originated primarily by larger institutions.

Current Actions: The Federal Reserve proposes to extend, without revision, the FR 4203 information collection.

Secretary of the Board.
