

Proposed Rules

Federal Register

Vol. 81, No. 50

Tuesday, March 15, 2016

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF ENERGY

10 CFR Parts 430

[Docket Number EERE–2013–BT–STD–0051]

RIN 1904–AD09

Energy Conservation Program: Energy Conservation Standards for General Service Lamps

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of a public webinar.

SUMMARY: This document announces a public webinar to review the shipments model used in the analysis of the General Service Lamp notice of proposed rulemaking.

DATES: The teleconference will be held on March 23, 2016 at 1 p.m. EST until 3 p.m. EST.

ADDRESSES: Webinar information is posted on the General Service Lamps Web site https://www1.eere.energy.gov/buildings/appliance_standards/standards.aspx?productid=4.

FOR FURTHER INFORMATION CONTACT:

Ms. Lucy deButts, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Building Technologies Office, EE–5B, 1000 Independence Avenue SW., Washington, DC 20585–0121. Telephone: (202) 287–1604. Email: gsl@ee.doe.gov.

Ms. Celia Sher, U.S. Department of Energy, Office of the General Counsel, GC–33, 1000 Independence Avenue SW., Washington, DC 20585–0121. Telephone: (202) 287–6122. Email: celia.sher@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The U.S. Department of Energy (DOE) will examine the shipments model used in the analysis of the General Service Lamp notice of proposed rulemaking. Key equations used in the shipments model will be presented, and their implementation in the modeling software will be discussed. The webinar

will also include a few demonstrations of calculations conducted by the shipments software. Members of the public are welcome to participate in the webinar and comment on the use of DOE's analytical tools. Register for the webinar at <https://attendee.gotowebinar.com/register/5166265762915808259>. Participants are responsible for ensuring their systems are compatible with the webinar software.

Docket: The docket is available for review at www.regulations.gov, including **Federal Register** notices, public meeting attendee lists and transcripts, comments, and other supporting documents/materials. All documents in the docket are listed in the www.regulations.gov index. However, not all documents listed in the index may be publicly available, such as information that is exempt from public disclosure.

Issued in Washington, DC, on March 10, 2016.

Kathleen B. Hogan,

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

RIN 1904–AD28

Energy Efficiency Program for Consumer Products: Energy Conservation Standards for Ceiling Fans: Availability of the Preliminary Technical Support Document

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Extension of public comment period.

SUMMARY: On January 13, 2016, the U.S. Department of Energy (DOE) published a notice of proposed rulemaking (NOPR) for ceiling fans energy conservation standards in the **Federal Register**. This document announces an extension of the public comment period for submitting comments on NOPR or any other aspect of the rulemaking for

ceiling fans. The comment period is extended to April 14, 2016.

DATES: The comment period for the proposed rule published January 13, 2016 (81 FR 1687), is extended. DOE will accept comments, data, and information regarding this rulemaking received no later than April 14, 2016.

ADDRESSES: Interested persons may submit comments, identified by docket number EERE–2011–BT–STD–0045 and/or Regulation Identification Number (RIN) 1904–AD28, by any of the following methods:

- **Federal eRulemaking Portal:** www.regulations.gov. Follow the instructions for submitting comments.
- **Email:** CeilingFan2012STD0045@ee.doe.gov. Include the docket number EERE–2011–BT–STD–0045 and/or RIN 1904–AD28 in the subject line of the message.
- **Mail:** Ms. Brenda Edwards, U.S. Department of Energy, Building Technologies Program, Mailstop EE–5B, 1000 Independence Avenue SW., Washington, DC 20585–0121. If possible, please submit all items on a compact disc (CD), in which case it is not necessary to include printed copies. [Please note that comments and CDs sent by mail are often delayed and may be damaged by mail screening processes.]

- **Hand Delivery/Courier:** Ms. Brenda Edwards, U.S. Department of Energy, Building Technologies Program, 950 L'Enfant Plaza SW., Suite 600, Washington, DC 20024. Telephone (202) 586–2945. If possible, please submit all items on CD, in which case it is not necessary to include printed copies.

Docket: The docket is available for review at www.regulations.gov, including **Federal Register** notices, framework documents, public meeting attendee lists and transcripts, comments, and other supporting documents/materials. All documents in the docket are listed in the www.regulations.gov index. However, not all documents listed in the index may be publicly available, such as information that is exempt from public disclosure.

The rulemaking Web page can be found at: https://www1.eere.energy.gov/buildings/appliance_standards/standards.aspx?productid=5. This Web page contains a link to the docket for this notice on the regulation.gov site. The www.regulations.gov Web page

contains instructions on how to access all documents in the docket, including public comments.

FOR FURTHER INFORMATION CONTACT:

Ms. Lucy deButts, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Building Technologies, EE-5B, 1000 Independence Avenue SW., Washington, DC 20585-0121. Telephone: (202)-287-1604. Email: ceiling_fans@ee.doe.gov.

In the Office of the General Counsel, contact Ms. Elizabeth Kohl, U.S. Department of Energy, Office of the General Counsel, GC-33, 1000 Independence Avenue SW., Washington, DC 20585-0121. Telephone: (202) 586-7796. Email: Elizabeth.Kohl@hq.doe.gov.

SUPPLEMENTARY INFORMATION: On January 13, 2016, the U.S. Department of Energy (DOE) published a notice of proposed rulemaking (NPR) for ceiling fans energy conservation standards in the **Federal Register** to make available and invite comments on the analysis for ceiling fans energy conservation standards. 81 FR 1687. The notice provided for the written submission of comments by March 14, 2016, and oral comments were also accepted at a public meeting held on February 3, 2016. At the public meeting, various stakeholders have requested an extension of the comment period to consider the NPR, technical support documents and public meeting presentation, and to prepare and submit comments accordingly. On March 2, American Lighting Association sent a written request for 30-day comment period extension due additional testing manufacturers have to conduct to review their existing products against the ceiling fan test procedures SNOPR, published in the **Federal Register** on June 3, 2015, and the conservation standards NPR.

DOE has determined that an extension of the public comment period is appropriate based on the foregoing reason. DOE will consider any comments received by midnight of April 14, 2016, and deems any comments received by that time to be timely submitted.

Issued in Washington, DC, on March 10, 2016.

Kathleen B. Hogan,

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

RIN 2120-AA64

Airworthiness Directives; Honeywell International Inc. Turboprop and Turboshift Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for certain Honeywell International Inc. (Honeywell) TPE331 model turboprop engines and TSE331-3U model turboshift engines. This proposed AD was prompted by the discovery of cracks in a 2nd stage compressor impeller during a routine shop visit. This proposed AD would require removal of the 2nd stage compressor impeller. We are proposing this AD to prevent failure of the compressor impeller, uncontained part release, damage to the engine, and damage to the airplane.

DATES: We must receive comments on this proposed AD by May 16, 2016.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590.
- *Hand Delivery:* Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Examining the AD Docket

You may examine the AD docket on the Internet at <http://www.regulations.gov> by searching for and locating Docket No. FAA-2015-4866; or in person at the Docket Management Facility between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this proposed AD, the regulatory evaluation, any comments received, and other information. The street address for the Docket Office (phone: 800-647-5527) is in the

ADDRESSES section. Comments will be available in the AD docket shortly after receipt.

FOR FURTHER INFORMATION CONTACT:

Joseph Costa, Aerospace Engineer, Los Angeles Aircraft Certification Office, FAA, Transport Airplane Directorate, 3960 Paramount Blvd., Lakewood, CA 90712-4137; phone: 562-627-5246; fax: 562-627-5210; email: joseph.costa@faa.gov.

SUPPLEMENTARY INFORMATION:

Comments Invited

We invite you to send any written relevant data, views, or arguments about this NPRM. Send your comments to an address listed under the **ADDRESSES** section. Include "Docket No. FAA-2015-4866; Directorate Identifier 2015-NE-33-AD" at the beginning of your comments. We specifically invite comments on the overall regulatory, economic, environmental, and energy aspects of this NPRM. We will consider all comments received by the closing date and may amend this NPRM because of those comments.

We will post all comments we receive, without change, to <http://www.regulations.gov>, including any personal information you provide. We will also post a report summarizing each substantive verbal contact we receive about this NPRM.

Discussion

Several 2nd stage compressor impellers were found cracked in the aft curvic root radius when inspected during a routine shop visit. This condition, if not corrected, could result in failure of the compressor impeller, uncontained part release, damage to the engine, and damage to the airplane.

FAA's Determination

We are proposing this NPRM because we evaluated all the relevant information and determined the unsafe condition described previously is likely to exist or develop in other products of the same type design.

Proposed AD Requirements

This NPRM would require accomplishing the actions specified in the service information described previously.

Costs of Compliance

We estimate that this proposed AD would affect 4,000 engines installed on airplanes of U.S. registry. We estimate that it would take 0 hours per engine to comply with this proposed AD. The average labor rate is \$85 per hour. We also estimate that required parts would cost about \$1,513.25 per engine. Based
