

the ALJ's finding of a violation of section 337. The Commission also determined to review the August 21 ID in part. On review, the Commission determined, *inter alia*, to clarify that the authority for the ALJ to draw adverse inferences against respondent Roboscooters for its failures to act during the investigation and find Roboscooters in violation is found in Commission Rule 210.17, 19 CFR 210.17, and corrected certain apparent typographical errors in the ID. *See* 80 FR 61842–43 (Oct. 14, 2015). The Commission requested written submissions on remedy, public interest, and bonding. *See id.* at 61843. Complainants and the IA timely filed their submissions pursuant to the Commission Notice. No other parties filed any submissions in response to the Commission Notice.

Having reviewed the submissions filed in response to the Commission's Notice and the evidentiary record, the Commission has determined that the appropriate form of relief in this investigation is: (a) A GEO prohibiting the unlicensed importation of certain personal transporters covered by claims 1, 2 and 4–7 of the '048 patent; (b) an LEO prohibiting the unlicensed entry of infringing (i) personal transporters, components thereof, and manuals therefor that are covered by one or more of claims 1 and 4 of the '640 patent manufactured abroad by or on behalf of, or imported by or on behalf of, the respondents UPTECH, U.P. Technology, U.P. Robotics, FreeGo China, EcoBoomer, and Roboscooters or any of their affiliated companies, parents, subsidiaries, or other related business entities, or their successors or assigns; (ii) personal transporters, components thereof, and manuals therefor that are covered by one or more of claims 1, 3, and 7 of the '607 patent manufactured abroad by or on behalf of, or imported by or on behalf of, the respondents UPTECH, U.P. Technology, U.P. Robotics, FreeGo China, EcoBoomer, and Roboscooters or any of their affiliated companies, parents, subsidiaries, or other related business entities, or their successors or assigns; (iii) personal transporters, components thereof, and manuals therefor that are covered by the claim of the '722 design patent manufactured abroad by or on behalf of, or imported by or on behalf of, U.P. Robotics, U.P. Technology, or UPTECH, or any of their affiliated companies, parents, subsidiaries, or other related business entities, or their successors or assigns; (iv) personal transporters, components thereof, and manuals therefor that are covered by the

claim of the '592 design patent manufactured abroad by or on behalf of, or imported by or on behalf of, U.P. Robotics, U.P. Technology, UPTECH, FreeGo China, or Roboscooters, or any of their affiliated companies, parents, subsidiaries, or other related business entities, or their successors or assigns; (v) personal transporters, components thereof, and manuals therefor that are covered by the Asserted Copyright manufactured abroad by or on behalf of, or imported by or on behalf of, U.P. Robotics, U.P. Technology, or UPTECH, or any of their affiliated companies, parents, subsidiaries, or other related business entities, or their successors or assigns; and (c) a CDO directed against respondent Ecoboomer.

The Commission has further determined that the public interest factors enumerated in subsections (d)(1), (d)(2), and (f)(1) (19 U.S.C. 1337(d)(1), (d)(2), (f)(1)) do not preclude issuance of the above-referenced remedial orders. Additionally, the Commission has determined that a bond in the amount of one hundred (100) percent of the entered value is required to permit temporary importation of the articles in question during the period of Presidential review (19 U.S.C. 1337(j)). The Commission has also issued an opinion explaining the basis for the Commission's action. The investigation is terminated.

The Commission's orders and the record upon which it based its determination were delivered to the President and to the United States Trade Representative on the day of their issuance. The Commission has also notified the Secretary of the Treasury of the orders.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.  
Issued: March 10, 2016.

## DEPARTMENT OF JUSTICE

### Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On March 10, 2016, the Department of Justice lodged a proposed consent decree with the United States District

Court for the District of Maryland in the lawsuit entitled *United States v. Westvaco Corporation*, Civil Action No. 00–2602.

Until May 2005, Westvaco owned and operated an integrated pulp and paper mill in Western Maryland known as the Luke Mill. The complaint filed by the United States alleges *inter alia* that Westvaco violated the Clean Air Act's Prevention of Significant Deterioration ("PSD") regulations by making a "major modification" to the Luke Mill without first obtaining a PSD permit and without installing and operating Best Available Control Technology ("BACT") to control emissions of sulfur dioxide from the mill's No. 25 power boiler. The United States' claim for civil penalties was dismissed as time barred. The United States' claim for injunctive relief, in the form of BACT on the No. 25 power boiler, was denied because Westvaco no longer owns or operates the Luke Mill. The consent decree requires the defendant to pay \$1.6 million, split equally between the National Park Service and the U.S. Forest Service, to be used to implement projects in Shenandoah National Park and the Monongahela National Forest to mitigate the adverse effects of acidic deposition.

The publication of this notice opens a period for public comment on the consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Westvaco Corporation*, D.J. Ref. No. 90–5–2–1–06444.
