SUPPLEMENTARY INFORMATION:

I. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the Federal Motor Carrier Safety Regulations for a 2-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” FMCSA can renew exemptions at the end of each 2-year period. The 30 individuals listed in this notice have each requested such an exemption from the vision requirement in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce. Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting an exemption will achieve the required level of safety mandated by statute.

Federal Motor Carrier Safety Administration

[FMCSA-2016-0096]

Hours of Service of Drivers: Specialized Carriers & Rigging Association; Application for Exemption

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA announces that it has received an application from the Specialized Carriers & Rigging Association (SC&RA) seeking exemption from two provisions of the Agency's hours-of-service (HOS) regulations for commercial motor vehicle (CMV) drivers. SC&RA asks that motor carriers and drivers operating mobile cranes with a rated lifting capacity of greater than 30 tons be exempted from the 30-minute break requirement and the 14-hour rule. SC&RA believes that these two HOS rules uniquely affect the operational efficiency of these crane operations and unnecessarily place the
