

the corresponding number of head of cattle. Carcass weight is the principle factor in calculating live animal equivalents.

Prior to publishing the proposed rule, USDA received information from the Board regarding imported veal assessments on April 7, 2015. The Board requested to expand the number of HTS codes for imported veal and veal products in order to capture product that is not currently being assessed and to update the live animal equivalency rate on imported veal to reflect the same assessment as domestic veal and veal products. The Board also suggested that AMS update the dressed veal weight to better reflect current dressed veal weights. The Board recommends using an average dressed veal weight from 2010 to the most current data. The Board states that “establishing an average over this period of time takes into account short term highs and lows due to the cattle cycle, weather effects, and feed prices.” This average would be 154 pounds.

Indiana; Ohio; Wisconsin; Disapproval of Interstate Transport Requirements for the 2008 Ozone NAAQS

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to disapprove elements of State Implementation Plan (SIP) submissions from Indiana and Ohio regarding the infrastructure requirements of section 110 of the Clean Air Act (CAA) for the 2008 ozone National Ambient Air Quality Standards (NAAQS), and to partially approve and partially disapprove elements of the SIP submission from Wisconsin addressing the same requirements. The infrastructure requirements are designed to ensure that the structural components of each state's air quality management program are adequate to meet the state's responsibilities under the CAA. This action pertains specifically to infrastructure requirements concerning interstate transport provisions. Ohio, Indiana, and Wisconsin made SIP submissions that, among other things, certified that their existing SIPs were sufficient to meet the interstate transport infrastructure SIP requirements for the 2008 ozone NAAQS. EPA is proposing to disapprove portions of submissions from Indiana and Ohio, and to partially approve and partially disapprove a portion of Wisconsin's submission addressing these requirements.

DATES: Comments on this proposed rule must be received on or before April 15, 2016.
