

351.224(e) provides that the Department “will analyze any comments received and, if appropriate, correct any significant ministerial error by amending the preliminary determination.” A significant ministerial error is defined as a ministerial error, the correction of which, singly or in combination with other errors, would result in: (1) A change of at least five absolute percentage points in, but not less than 25 percent of, the weighted-average dumping margin calculated in the original (erroneous) preliminary determination; or (2) a difference between a weighted-average dumping margin of zero or *de minimis* and a weighted-average dumping margin of greater than *de minimis* or vice versa.²

Ministerial Error Allegation

Productos Laminados de Monterrey S.A. de C.V. (Prolamsa) argues that the Department in its margin calculations incorrectly referenced the variable name for the production quantity reported in Prolamsa’s cost of production database as “QUANTITY,” rather than “PRODQTY.”³ As a result of this error, Prolamsa points out that the Department failed to weight average Prolamsa’s reported costs by production quantity, but instead calculated a simple average of Prolamsa’s costs.

We agree with Prolamsa. Moreover, pursuant to 19 CFR 351.224(g)(2), this error is significant because the correction of the error results in a change of at least five absolute percentage points in, but not less than 25 percent of, the weighted-average dumping margin originally calculated for Prolamsa. Therefore, we are correcting the error alleged by Prolamsa and we are amending our preliminary determination accordingly.

The collection of cash deposits and suspension of liquidation will be revised accordingly in accordance with sections 733(d) and (f) of the Act and 19 CFR 351.224. Because the correction of the error for Prolamsa results in a reduced cash deposit rate, the revised rates calculated for Prolamsa and the companies covered by the “all others” rate will be effective retroactively to March 1, 2016, the date of publication of the *Preliminary Determination*.

Amended Preliminary Determination

We are amending the preliminary determination of sales at LTFV for HWR pipes and tubes from Mexico to reflect

the correction of a ministerial error made in the margin calculation of that determination for Prolamsa. As a result of the correction of the ministerial error, the revised weighted-average dumping margins are as follows:

Exporter/manufacturer	Weighted-average dumping margin (percent)
Productos Laminados de Monterrey S.A. de C.V.	5.17
All Others	4.92

International Trade Commission (ITC) Notification

In accordance with section 733(f) of the Act, we are notifying the International Trade Commission (ITC) of our amended preliminary determination of sales at LTFV. If our final determination is affirmative, the ITC will determine before the later of 120 days after the date of this preliminary determination or 45 days after our final determination whether these imports are materially injuring, or threaten material injury to, the U.S. industry.⁵

Notification to Interested Parties

The Department intends to disclose calculations performed in connection with this amended preliminary determination within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b).

This determination is issued and published in accordance with sections 733(f) and 777(i) of the Act and 19 CFR 351.224(e).

Dated: March 9, 2016.

⁴ In this investigation, we based our calculation of the all-others rate on the weighted-average of the margins calculated for Maquilacero S.A. de C.V. and Prolamsa using publicly-ranged data. Because we cannot apply our normal methodology of calculating a weighted-average margin due to requests to protect business-proprietary information, we find this rate to be the best proxy of the actual weighted-average margin determined for these respondents. For further discussion of this calculation, see the memorandum entitled “Less-Than-Fair-Value Investigation of Heavy Walled Rectangular Welded Carbon Steel Pipes and Tubes from Mexico: Calculation of the All-Others Rate for the Amended Preliminary Determination,” dated concurrently with this notice.

³ For a full description of the scope of the order, see the memorandum from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Enforcement and Compliance, entitled "Decision Memorandum for Preliminary Results of the 2014–2015 Antidumping Duty Administrative Review: Brass Sheet and Strip from France," dated November 17, 2015.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Certain Steel Nails From the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2013–2014

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the "Department") published the *Preliminary Results* of the sixth administrative review of the antidumping duty order on certain steel nails from the People's Republic of China ("PRC") on September 4, 2015.¹ We gave interested parties an opportunity to comment on the *Preliminary Results*. Based upon our analysis of the comments and information received, we made changes to the margin calculation for these final results regarding one of the mandatory respondents, Stanley.² We also continue to find that the other mandatory respondent, Shandong Oriental Cherry Hardware Group Co., Ltd. ("Shandong Oriental Cherry"), withheld requested information, significantly impeded this administrative review, and did not cooperate to the best of its ability. Accordingly, pursuant to sections 776(a) and (b) of the Tariff Act of 1930, as amended ("the Act"), we continue to apply total adverse facts available ("AFA") to Shandong Oriental Cherry and find that it is not eligible for separate rate status and, thus, is part of the PRC-wide entity. The final dumping margins are listed below in the "Final Results of Administrative Review" section of this notice. The period of
