

3,000 finance companies has been drawn for the FR 3033s. The survey will be sent on March 21, 2016, and will collect detailed information, as of December 31, 2015, from both assets and liability sides of the respondents' balance sheets, along with income and expenses, the number of accounts and offices, and the small-business credit they extend, if any. The data collected from this voluntary survey will be used for two purposes: to benchmark the consumer and business finance series collected on the monthly Domestic Finance Company Report of Consolidated Assets and Liabilities (FR 2248; OMB No. 7100-0005) and to increase the Board's understanding of an important part of the financial system.

Current Actions: On January 12, 2016, the Federal Reserve published a notice in the **Federal Register** (81 FR 1421) requesting public comment for 60 days on the proposal to extend the FR 3033s for three years and to revise the survey by adding a section to solicit information from the finance companies on income and expenses, number of accounts and offices, and small business credit they extend. The comment period for the notice expired on March 14, 2016. The Federal Reserve did not receive any comments, and the information collection will be revised as proposed.

Board of Governors of the Federal Reserve System, March 16, 2016.

Robert deV. Frierson,
Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

[Docket No. ATSDR-2016-0004]

Proposed Substances To Be Evaluated for Set 30 Toxicological Profiles

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Department of Health and Human Services (HHS).

ACTION: Request for comments on the proposed substances to be evaluated for Set 30 toxicological profiles.

SUMMARY: ATSDR is initiating the development of its 30th set of toxicological profiles (CERCLA Set 30). This notice announces the list of proposed substances that will be evaluated for CERCLA Set 30 toxicological profile development. ATSDR's Division of Toxicology and Human Health Sciences is soliciting public nominations from the list of proposed substances to be evaluated for toxicological profile development. ATSDR also will consider the nomination of any additional, non-CERCLA substances that may have public health implications, on the basis of ATSDR's authority to prepare toxicological profiles for substances not found at sites on the National Priorities List. The agency will do so in order to ". . . establish and maintain inventory

of literature, research, and studies on the health effects of toxic substances” under CERCLA Section 104(i)(1)(B), to respond to requests for consultation under section 104(i)(4), and to support the site-specific response actions conducted by ATSDR, as otherwise necessary.

DATES: Nominations from the Substance Priority List and/or additional substances must be submitted within 30 days of the publication of this notice.

ADDRESSES: You may submit nominations, identified by Docket No. ATSDR–2016–0004, by any of the following methods:

**Internet:* Access the Federal eRulemaking portal at <http://www.regulations.gov>. Follow the instructions for submitting comments.

**Mail:* Division of Toxicology and Human Health Sciences, 1600 Clifton Rd. NE., MS F–57, Atlanta, GA 30333

Instructions: All submissions must include the agency name and docket number for this notice. All relevant comments will be posted without change. This means that no confidential business information or other confidential information should be submitted in response to this notice. Refer to the section *Submission of Nominations* (below) for the specific information required.

FOR FURTHER INFORMATION CONTACT: For further information, please contact Commander Jessilyn B. Taylor, Division of Toxicology and Human Health Sciences, 1600 Clifton Rd. NE., MS F–57, Atlanta, GA 30333, Email: jxt1@cdc.gov; phone: 770.488.3313.

SUPPLEMENTARY INFORMATION: The Superfund Amendments and Reauthorization Act of 1986 (SARA) [42 U.S.C. 9601 *et seq.*] amended the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA or Superfund) [42 U.S.C. 9601 *et seq.*] by establishing certain requirements for ATSDR and the U.S. Environmental Protection Agency (EPA) with regard to hazardous substances most commonly found at facilities on the CERCLA National Priorities List (NPL). Among these statutory requirements is a mandate for the Administrator of ATSDR to prepare toxicological profiles for each substance included on the Priority List of Hazardous Substances. This list identifies 275 hazardous substances that ATSDR and EPA have determined pose the most significant current potential threat to human health.

Substances To Be Evaluated for Set 30 Toxicological Profiles

Each year, ATSDR develops a list of substances to be considered for toxicological profile development. The Set 30 nomination process includes consideration of all substances on ATSDR’s Priority List of Hazardous Substances, also known as the Substance Priority List (SPL), as well as other substances nominated by the public. The 275 substances on the SPL, as well as other substances nominated by the public, will be considered for Set 30 Toxicological Profile development. This list may be found at the following Web site: www.atsdr.cdc.gov/SPL.

Submission of Nominations for the Evaluation of Set 30 Proposed Substances: Today’s notice invites voluntary public nominations for substances included on the SPL and for substances not listed on the SPL. All nominations should include the full name of the nominator, affiliation, and email address. When nominating a non-SPL substance, please include the rationale for the nomination. Please note that email addresses will not be posted on regulations.gov.

ATSDR will evaluate all data and information associated with nominated substances and will determine the final list of substances to be chosen for toxicological profile development. Substances will be chosen according to ATSDR’s specific guidelines for selection. These guidelines can be found in the *Selection Criteria* announced in the **Federal Register** on May 7, 1993 (58FR27286–27287). A hard copy of the Selection Criteria is available upon request or may be accessed at: http://www.atsdr.cdc.gov/toxprofiles/guidance/criteria_for_selecting_tp_support.pdf.

Please ensure that your comments are submitted within the specified nomination period. Nominations received after the closing date will be marked as late and may be considered only if time and resources permit.

Dated: March 15, 2016.

Pamela Protzel Berman,

Acting Associate Director, Office of Policy, Planning and Evaluation, National Center for Environmental Health/Agency for Toxic Substances and Disease Registry.
