

*Estimated Total Annual Burden Hours:* 3,652.

**Abstract:** Regulation I applies to all depository institutions lacking Federal deposit insurance. It requires the disclosure of certain insurance-related information in periodic statements, account records, locations where deposits are normally received, and advertising. This part also requires such depository institutions to obtain a written acknowledgment from depositors regarding the institution's lack of Federal deposit insurance. On December 16, 2011, the Bureau published an interim final rule (IFR) republishing Regulation I and making technical and conforming changes to reflect the transfer of authority and certain other changes made by the Dodd-Frank Act (76 FR 78126/RIN 3170-AA06). The IFR did not impose any new substantive obligations on persons subject to the existing regulations. As the Bureau added no new recordkeeping or reporting requirements, it adopted the PRA analysis from the original regulation. Upon further review, the Bureau has determined that the disclosures required by 12 CFR 1009.3 and 1009.4 and the signed acknowledgement required by § 1009.5 are subject to the PRA and require OMB approval thereunder. The Bureau has determined that it cannot reasonably comply with the standard approval timelines because the use of normal clearance procedures is reasonably likely to prevent the collection of information and result in public harm. See 5 CFR 1320.13(a)(2); 44 U.S.C. 3507(j).

Contemporaneously with this request for emergency processing, the Bureau is also initiating standard clearance procedures by allowing the public 60 days to comment on this collection of information. Accordingly, this request will also be resubmitted to OMB under standard clearance procedures.

**Request for Comments:** Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information will have practical utility; (b) The accuracy of the Bureau's estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be

summarized and/or included in the request for OMB approval. All comments will become a matter of public record.

Dated: March 17, 2016.

## DEPARTMENT OF DEFENSE

### Department of the Air Force

#### Notice of Intent To Prepare an Environmental Impact Statement for the KC-46A Third Main Operating Base (MOB 3) Beddown

**AGENCY:** Air Force Reserve Command, United States Air Force, DoD.

**ACTION:** Notice of intent.

**SUMMARY:** The United States Air Force (USAF) is issuing this notice to advise the public of the intent to prepare an Environmental Impact Statement (EIS) for the KC-46A Third Main Operating Base (MOB 3) Beddown. The EIS will assess the potential environmental consequences of various alternatives of the beddown of KC-46A tanker aircraft, associated infrastructure and personnel in support of the MOB 3 mission at existing installations where the Air Force Reserve Command (AFRC) leads a Mobility Air Force mission.

**DATES:** The USAF intends to hold scoping meetings from 5 p.m. to 8 p.m. in the following communities on the following dates:

1. Westover ARB—12 April 2016, at the Castle of Knights, 1599 Memorial Dr., Chicopee, MA 01020
2. Seymour Johnson AFB—14 April 2016, at the Herman Park Center, 701 East Ash St., Goldsboro, NC 27530
3. Grissom ARB—19 April 2016, at the Milestone Event Center, 1458 North Liberator Rd., Peru, IN 46970
4. Tinker AFB—21 April 2016, at the Sheraton Midwest City Hotel and Reed Conference Center, 57050 Will Rodgers Rd., Midwest City, OK 73110

**ADDRESSES:** The project Web site ([www.kc-46a-beddown.com](http://www.kc-46a-beddown.com)) provides more information on the EIS and can be used to submit scoping comments. Scoping comments may also be submitted to Mr. Hamid Kamalpour, U.S. Air Force, AFCEC/CZN, 2261 Hughes Ave., Ste 155, Lackland AFB, Texas 78236-9853.

As a convenience for comments submitted by mail, a comment form is available for download on the Web site. Comments will be accepted at any time during the environmental impact analysis process. However, to ensure the USAF has sufficient time to consider public input in the preparation of the Draft EIS, scoping comments should be submitted to the Web site or the address listed below by 25 April 2016.

**SUPPLEMENTARY INFORMATION:** The MOB 3 mission includes 12 KC-46A aircraft in one squadron. The KC-46A aircraft will replace the aging tanker fleet and would continue supporting the mission of providing worldwide refueling, cargo, and aeromedical evacuation support. The proposed basing alternatives for MOB 3 mission include: Seymour Johnson Air Force Base (AFB), Grissom Air Reserve Base (ARB), Tinker AFB, and Westover ARB. Along with the No Action Alternative, all four bases will be evaluated as alternatives in the EIS.

**Scoping and Agency Coordination:** To effectively define the full range of issues to be evaluated in the EIS, the USAF will determine the scope of the analysis by soliciting comments from interested local, state and federal elected officials and agencies, as well as interested members of the public and others. Implementation of the KC-46A MOB 3 mission at Tinker AFB in Oklahoma would have the potential to affect floodplains and/or wetlands. Consistent with the requirements and objectives of Executive Order (EO) 11990, "Protection of Wetlands," state and federal regulatory agencies with special expertise in wetlands and floodplains will be contacted to request comment. Consistent with EO 11988 and EO 11990, this NOI initiates early public review of the alternatives, including implementation of the KC-46A MOB 3 mission at Tinker AFB in Oklahoma which has the potential to affect wetlands and/or floodplains. Scoping meetings will be held in the local communities near the alternative basing locations. The scheduled dates, times, locations, and addresses for the scoping meetings will also be published in local media a minimum of 15 days prior to the scoping meetings.
