Agricultural Research Service

Title: ARS Animal Health National Program Assessment Survey Form.

OMB Control Number: 0518–0042.

Summary of Collection: The Agricultural Research Service (ARS) covers the span of nutrition, food safety and quality, animal and plant production and protection, and natural resources and sustainable agricultural systems and it organized into seventeen National Programs addressing specific areas of this research. Research in the Agency is conducted through coordinated National Programs on a five year cycle. The cycle ensures that ARS research meets OMB's Research and Development Investment Criteria and other external requirements, including the Research Title of the Farm Bill, and the Government Performance and Results Act of 1993 (GPRA). These National Programs serve to bring coordination, communication, and empowerment to approximately 750 research projects carried out by ARS and focus on the relevance, impact, and quality of ARS research. The requested voluntary electronic evaluation survey will give the beneficiaries of ARS research the opportunity to provide input on the impact of several ARS National Programs.

Need and Use of the Information: The purpose of the survey is to assess the impact of the research in the current National Program cycle and ensure relevance for the next cycle. Failure to collect input from our customers on the impact of our research program would significantly inhibit the relevance and credibility of the research conducted at ARS.

Description of Respondents: Individuals or households; Business or other for-profit; Not-for-profit institutions; State, Local or Tribal Government.

Number of Respondents: 800.

Frequency of Responses: Reporting: Other (5 years).

Total Burden Hours: 131.
