

exchanges at the same time, the Exchange believes the proposal to open only after receiving an uncrossed NBBO from OPRA would eliminate any ambiguity as to the source of the information for each series and should lead to more accurate prices on the Exchange.

Similarly, the Exchange believes the conforming change to Rule 6.64(c), which strikes reference to quote bids and quote offers in the OX Book for purposes of determining an opening price, likewise would promote just and equitable principles of trade as it would add transparency and internal consistency to Exchange rules, which would make them easier for market participants to navigate.

Finally, the Exchange believes the proposal to permit the Exchange to open options trading when such opening is in the interests of a fair and orderly market (even if the conditions set forth in the rule are not met), is consistent with the protection of investors and the public interest because the proposed changes would allow the Exchange to open trading in options contracts in a fair and orderly manner. Specifically, the Exchange believes that the proposed changes would reduce potential delays in opening an option series that may prevent the Exchange from displaying and/or routing orders on its Consolidated Book and may also prevent the Exchange from disseminating a protected quote that draws trading interest from other options markets. Thus, the Exchange believes that the proposed changes would allow the Exchange to open options series faster and more efficiently, thereby reducing any delay in execution of orders on the Exchange that may be unnecessary and harmful to market participants. The Exchange also notes that this proposed rule change is based on the rules of other options exchanges.²⁰

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed change is not designed to address any competitive issue but rather to add specificity and transparency to Exchange rules, thereby reducing confusion and making the Exchange's rules easier to understand and navigate. The Exchange believes that the proposed rule change would serve to promote regulatory clarity and

consistency, thereby reducing burdens on the marketplace and facilitating investor protection.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.
