[Docket No. FAA-2016-4429; Airspace  
Docket No. 16-ASW-8]

**Proposed Amendment of Class E  
Airspace for the Following Louisiana  
Towns; De Quincy, LA; Minden, LA;  
Slidell, LA; and Revocation of Class E  
Airspace; Homer, LA**

**AGENCY:** Federal Aviation  
Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking  
(NPRM).

**SUMMARY:** This action proposes to modify Class E airspace extending upward from 700 feet above the surface at De Quincy Industrial Airpark, De Quincy, LA; Minden-Webster Airport, Minden, LA; and Slidell, Airport, Slidell, LA. Decommissioning of non-directional radio beacon (NDB), cancellation of NDB approaches, and implementation of area navigation (RNAV) procedures have made this action necessary for the safety and management of Instrument Flight Rules (IFR) operations at the above airports. This action also proposes to remove Class E airspace extending upward from 700 feet above the surface at Homer Municipal Airport, Homer, LA, as controlled airspace is no longer needed. Additionally, the geographic coordinates at De Quincy Industrial Airpark, Minden-Webster Airport, and Slidell Airport would be adjusted to coincide with the FAA's aeronautical database.

**DATES:** Comments must be received on or before May 31, 2016.

**ADDRESSES:** Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone (202) 366-9826. You must identify FAA Docket No. FAA-2016-4429; Airspace Docket No. 16-ASW-8, at the beginning of your comments. You may also submit comments through the Internet at <http://www.regulations.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9:00 a.m. and 5:00 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1-800-647-5527), is on the ground floor of the building at the above address.

**SUPPLEMENTARY INFORMATION:****Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class E airspace at De Quincy Industrial Airpark, De Quincy, LA; Homer Municipal Airport, Homer, LA; Minden-Webster Airport, Minden, LA; and Slidell, Airport, Slidell, LA.

**Comments Invited**

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in

triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2016-4429/Airspace Docket No. 16-ASW-8." The postcard will be date/time stamped and returned to the commenter.

**Availability of NPRMs**

An electronic copy of this document may be downloaded through the Internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's Web page at [http://www.faa.gov/airports\\_airtraffic/air\\_traffic/publications/airspace\\_amendments/](http://www.faa.gov/airports_airtraffic/air_traffic/publications/airspace_amendments/).

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Persons interested in being placed on a mailing list for future NPRMs should contact the FAA's Office of Rulemaking, (202) 267-9677, for a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

**Availability and Summary of Documents Proposed for Incorporation by Reference**

This document would amend FAA Order 7400.9Z, Airspace Designations and Reporting Points, dated August 6, 2015, and effective September 15, 2015. FAA Order 7400.9Z is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.9Z lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

**The Proposal**

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by modifying Class E airspace extending upward from 700 feet above the surface within a 7.5-mile radius of De Quincy Industrial Airpark, De Quincy, LA; within a 6.5-mile radius of Minden-Webster Airport, Minden, LA; and within a 6.5-mile radius of

Slidell Airport, Slidell, LA, with segments extending from the 6.5-mile radius to 9.2 miles north, and 9 miles south of the airport. Airspace reconfiguration is necessary due to the decommissioning of NDBs, cancellation of NDB approaches, and implementation of RNAV procedures at the above airports. The Class E airspace area extending upward from 700 feet above the surface within a 6.8-mile radius of Homer Municipal Airport, Homer, LA, would be removed as controlled airspace is no longer needed. Controlled airspace is necessary for the safety and management of the standard instrument approach procedures for IFR operations at the airports.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9Z, dated August 6, 2015, and effective September 15, 2015, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

### Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

### CONSUMER PRODUCT SAFETY COMMISSION

#### 16 CFR Part 1025

[CPSC Docket No. 2016–0006]

#### Rules of Practice for Adjudicative Proceedings

**AGENCY:** Consumer Product Safety Commission.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** The United States Consumer Product Safety Commission (“Commission,” “CPSC,” or “we”) is issuing this notice of proposed rulemaking (“NPR”) to update the Commission’s Rules of Practice for Adjudicative Proceedings, (“Rules of Practice” or “Rules”). We are proposing to modernize the Rules of Practice to reflect changes in civil and administrative litigation since adoption of the Rules in 1980. Specifically, we propose changes to the Rules pertaining to discovery, electronic filing, the use of electronically stored information (“ESI”), and updates to the Federal Rules of Civil Procedure (“Federal Rules”), upon which our Rules are based. We also propose to update requirements for pleadings, motions, and motions for summary decisions, clarifications on the computation of time, and clarification on when amendments or supplemental pleadings require Commission approval. Additionally, we propose allowing a Presiding Officer to exercise discretion to avoid unnecessary delay or wasteful discovery and to consolidate cases in their entirety, or partially, for any purpose that serves the ends of justice. We also propose to set deadlines for the issuance of an Initial or Recommended Decision. Finally, we propose to remove outdated references to the Equal Access to Justice Act. We believe the proposed Rules will increase the efficiency of discovery, minimize the potential for delay in adjudicative proceedings, and ensure that, to the extent possible, Commission adjudicative proceedings address and resolve crucial issues of consumer product safety in a fair and impartial manner. This NPR seeks comments on the proposed changes to the Rules.

**DATES:** Submit comments by June 13, 2016.

**ADDRESSES:** You may submit comments, identified by Docket No. CPSC 2016–0006, electronically or in writing, by any of the following methods:

*Electronic Submissions:* Submit electronic comments to the Federal eRulemaking Portal at: <http://>
