

future unsolicited facsimile advertisements from the sender; (2) Established Business Relationship Recordkeeping whereas the Junk Fax Prevention Act provides that the sender, *e.g.*, a person, business, or a nonprofit/institution, is prohibited from faxing an unsolicited advertisement to a facsimile machine unless the sender has an “established business relationship” (EBR) with the recipient; (3) Facsimile Number Recordkeeping in which the Junk Fax Prevention Act provides that an EBR alone does not entitle a sender to fax an advertisement to an individual or business. The fax number must also be provided voluntarily by the recipient; and (4) Express Invitation or Permission Recordkeeping where in the absence of an EBR, the sender must obtain the prior express invitation or permission from the consumer before sending the facsimile advertisement.

On October 14, 2008, the Commission released an Order on Reconsideration, FCC 08–239, addressing certain issues raised in petitions for reconsideration and/or clarification filed in response to the Commission’s Report and Order and Third Order on Reconsideration (Junk Fax Order), FCC 06–42. In document FCC 08–239, the Commission clarified that: (1) Facsimile numbers compiled by third parties on behalf of the facsimile sender will be presumed to have been made voluntarily available for public distribution so long as they are obtained from the intended recipient’s own directory, advertisement, or Internet site; (2) reasonable steps to verify that a recipient has agreed to make available a facsimile number for public distribution may include methods other than direct contact with the recipient; and (3) a description of the facsimile sender’s opt-out mechanism on the first Web page to which recipients are directed in the opt-out notice satisfies the requirement that such a description appear on the first page of the Web site.

The Commission believes these clarifications will assist senders of facsimile advertisements in complying with the Commission’s rules in a manner that minimizes regulatory compliance costs while maintaining the protections afforded consumers under the Telephone Consumer Protection Act (TCPA).

In particular, the information collection requires that, beginning December 12, 2016, at the time a small cable system utilizing the HD carriage exemption offers any programming in HD, the system must give notice that it is offering HD programming to all broadcast stations in its market that are carried on its system. Cable operators must also keep records of such notification. This information collection requirement allows affected broadcast stations to monitor compliance with the requirement that cable operators transmit high definition broadcast signals in HD.

This document contains final rules and policies for a digital-to-digital replacement digital replacement translator to permit full power television stations to continue to provide service to viewers that may have otherwise lost service as a result of the station being “repacked” in the Commission's incentive auction process.

47 CFR 74.787(a)(5)(v) states that an application for a digital to digital replacement translator may be filed by a full power television station that can demonstrate that a portion of its digital service area will not be served by its full, post-incentive auction digital facilities. The service area of the replacement translator shall be limited to only a demonstrated loss area.

However, an applicant for a replacement digital television translator may propose a de minimis expansion of its full power pre-transition analog service area upon demonstrating that it is necessary to replace its post-incentive auction digital loss area.
