

that U.S. products would be exempt from any analogous “Buy Latvia” and “Buy European Union” laws or policies applicable to procurements by the Latvian Ministry of Defense or Armed Forces.

While DoD is evaluating Latvia’s laws and regulations in this area, DoD would benefit from U.S. industry’s experience in participating in Latvia’s public defense procurements. DoD is, therefore, asking U.S. firms that have participated or attempted to participate in procurements by or on behalf of Latvia’s Ministry of Defense or Armed Forces to let us know if the procurements were conducted with transparency, integrity, fairness, and due process in accordance with published procedures, and if not, the nature of the problems encountered.

DoD is also interested in comments relating to the degree of reciprocity that exists between the United States and Latvia when it comes to the openness of defense procurements to offers of products from the other country.
