SUPPLEMENTARY INFORMATION:

Agenda

The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Data Workshop agenda are as follows:

1. An assessment data set and associated documentation will be developed.
 2. Participants will evaluate all available data and select appropriate sources for providing information on life history characteristics, catch statistics, discard estimates, length and age composition, and fishery dependent and fishery independent measures of stock abundance, as specified in the Terms of Reference for the workshop.
- Although non-emergency issues not contained in this agenda may come

before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

DEPARTMENT OF DEFENSE

Defense Acquisition Regulations System

[Docket No. DARS-2016-0013]

Negotiation of a Reciprocal Defense Procurement Memorandum of Understanding With the Ministry of Defense of Latvia

AGENCY: Department of Defense (DoD).

ACTION: Notice.

SUMMARY: On behalf of the U.S. Government, DoD is contemplating negotiating and concluding a Reciprocal Defense Procurement (RDP) Memorandum of Understanding (MOU) with the Ministry of Defense of Latvia. DoD is requesting industry feedback regarding its experience in public defense procurements conducted by or on behalf of the Latvian Ministry of Defense or Armed Forces.

DATES: Comments must be received by May 13, 2016.

ADDRESSES: Submit comments to Defense Procurement and Acquisition Policy, Attn: Lt Col Judy Anderson, 3060 Defense Pentagon, Room 5E621, Washington, DC 20301-3060; or by email to judy.p.anderson1.mil@mail.mil.

FOR FURTHER INFORMATION CONTACT: Lt Col Judy Anderson, Senior Analyst, Office of the Under Secretary of Defense for Acquisition, Technology and Logistics (OUSD (AT&L)), Defense Procurement and Acquisition Policy, Contract Policy and International Contracting, Room 5E621, 3060 Defense Pentagon, Washington, DC 20301-3060; telephone 703-695-7197.

SUPPLEMENTARY INFORMATION: DoD has concluded RDP MOUs with 23

qualifying countries, as defined in the Defense Federal Acquisition Regulation Supplement (DFARS) 225.003, at the level of the Secretary of Defense and his counterpart. The purpose of an RDP MOU is to promote rationalization, standardization, and interoperability of conventional defense equipment with allies and other friendly governments. These MOUs provide a framework for ongoing communication regarding market access and procurement matters that enhance effective defense cooperation.

RDP MOUs generally include language by which the Parties agree that their defense procurements will be conducted in accordance with certain implementing procedures. These procedures relate to—

- Publication of notices of proposed purchases;
- The content and availability of solicitations for proposed purchases;
- Notification to each unsuccessful offeror;
- Feedback, upon request, to unsuccessful offerors concerning the reasons they were not allowed to participate in a procurement or were not awarded a contract; and
- Provision for the hearing and review of complaints arising in connection with any phase of the procurement process to ensure that, to the extent possible, complaints are equitably and expeditiously resolved.

Based on the MOU, each country affords the other country certain benefits on a reciprocal basis consistent with national laws and regulations. The benefits that the United States accords to the products of qualifying countries include—

- Offers of qualifying country end products are evaluated without applying the price differentials otherwise required by the Buy American statute and the Balance of Payments Program;
- The chemical warfare protection clothing restrictions in 10 U.S.C. 2533a and the specialty metals restriction in 10 U.S.C. 2533b(a)(1) do not apply to products manufactured in a qualifying country; and
- Customs, taxes, and duties are waived for qualifying country end products and components of defense procurements.

If DoD (for the U.S. Government) concludes an RDP MOU with the Ministry of Defense of Latvia, then Latvia would be listed as one of the qualifying countries in the definition of qualifying country at DFARS 225.003, and offers of products of Latvia or that contain components from Latvia would be afforded the benefits available to all qualifying countries. This also means
