DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Proposed Collection: Public Comment Request

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice.

SUMMARY: In compliance with the requirement for opportunity for public comment on proposed data collection projects (Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995), the Health Resources and Services Administration (HRSA) announces plans to submit an Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to OMB, HRSA seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments on this Information Collection Request must be received no later than June 17, 2016.

ADDRESSES: Submit your comments to paperwork@hrsa.gov or mail the HRSA

Information Collection Clearance Officer, Room 14N-39, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, email paperwork@hrsa.gov or call the HRSA Information Collection Clearance Officer at (301) 443-1984.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the information request collection title for reference.

Information Collection Request Title: Black Lung Clinics Program Performance Measures

OMB No. 0915-0292—Extension.
 Abstract: The Federal Office of Rural Health Policy (FORHP), HRSA, conducts an annual data collection of user information for the Black Lung Clinics Program, which has been ongoing with OMB approval since 2004. The purpose of the Black Lung Clinics Program is to reduce the morbidity and mortality associated with occupationally related coal mine dust lung disease through the screening, diagnosis, and treatment of active, inactive, retired, and/or disabled coal miners. Collecting this data provides HRSA with information on how well each grantee is meeting the needs of these miners in their communities.

Need and Proposed Use of the Information: Data from the annual report provides quantitative information

about the clinics, specifically: (a) The characteristics of the patients they serve (gender, age, disability level, occupation type); (b) the characteristics of services provided (medical encounters, non-medical encounters, benefits counseling, and outreach); and, (c) the number of patients served. This assessment enables HRSA to provide data required by Congress under the Government Performance and Results Act of 1993. It also ensures that funds are effectively used to provide services that meet the target population needs. HRSA does not plan to make any changes to the performance measures at this time.

Likely Respondents: Black Lung Clinics Program Grantees.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this Information Collection Request are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Black Lung Clinics Program Measures	15	1	15	10	150
Total	15	1	15	10	150

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information

technology to minimize the information collection burden.

Jackie Painter,
Director, Division of the Executive Secretariat.

National Heart, Lung, and Blood Institute; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5 U.S.C.,

as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Heart, Lung, and Blood Institute Special Emphasis Panel, Household Air Pollution Health Outcomes Trial (UM1).

Date: May 10, 2016.

Time: 11:00 a.m. to 3:00 p.m.

Agenda: To review and evaluate grant applications.

Place: Courtyard by Marriott, 5520 Wisconsin Avenue, Chevy Chase, MD 20815.

Contact Person: Kristen Page, Ph.D., Scientific Review Officer, Office of Scientific Review/DERA National Heart, Lung, and Blood Institute 6701 Rockledge Drive, Room 7185, Bethesda, MD 20892, 301-496-2434, kristen.page@nih.gov.

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Monitoring of the National Suicide Prevention Lifeline (OMB No. 0930-0274) Revision

The Substance Abuse and Mental Health Services Administration (SAMHSA) Center for Mental Health Services (CMHS) is requesting approval for the revision of data collection associated with the previously-approved Monitoring of the National Suicide Prevention Lifeline (OMB No. 0930-0274; Expiration, July 31, 2016). The current request will continue previously-cleared efforts to evaluate process and impacts of follow-up services provided to suicidal individuals through the National Suicide Prevention Lifeline Crisis Center Follow-Up (NSPL Follow-Up) program.

The NSPL, or Lifeline, is SAMHSA's 24-hour crisis hotline (1-800-273-TALK [8255]) that serves as a central switchboard, seamlessly connecting callers from anywhere in the U.S. to the closest of its 165 crisis centers within the Lifeline network. Since its inception, the Lifeline has helped more than 6 million people. In 2008, SAMHSA launched the NSPL Follow-up program and began awarding cooperative agreements to crisis centers in the Lifeline network to reconnect with suicidal callers to offer emotional support and ensure they followed up with referrals to treatment. In 2013, the program was expanded to include crisis center follow-up with any suicidal individual referred from a partnering emergency department (ED) or inpatient hospital.

While previous evaluations of the NSPL demonstrated that suicidal callers experienced a reduction in hopelessness and suicidal intent after contacting the Lifeline, 43% of suicidal callers participating in follow-up assessments reported some recurrence of suicidality (e.g., ideation, plan, or attempt) since their crisis call (Gould et al., 2007). Even so, only about 35% of suicidal callers set up an appointment and even fewer had been seen by the behavioral health care system to which they were referred (Gould et al., 2007; Kalafat et al., 2007). Similarly, while several randomized, controlled trials have demonstrated that following up by telephone or letter with patients discharged from inpatient or ED settings can reduce rates of repeat suicide attempts (Vaiva et al., 2006), as well as completions (Fleischman et al., 2008; Motto & Bostrom, 2001), suicidal individuals discharged from EDs rarely link to ongoing care. As many as 70% of suicide attempters either never attend their first appointment or drop out of
