BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 7656-012]

John A. Dodson; Notice of Proposed Termination of License by Implied Surrender and Soliciting Comments, Protests and Motions To Intervene

Take notice that the following hydroelectric proceeding has been initiated by the Commission:

a. *Type of Proceeding:* Proposed Termination of License by Implied Surrender.

b. *Project No.:* 7656-012.

c. *Date Initiated:* April 14, 2016.

d. *Licensee:* John A. Dodson.

e. *Name and Location of Project:* Buttermilk Falls Hydroelectric Project located on Buttermilk Falls Brook, in Orange County, New York.

f. *Filed Pursuant to:* Standard Article 16.

g. *Licensee Contact Information:* Mr. John A. Dodson, P.O. Box 221, Highland Falls, New York 10928, Phone: (914) 446-7704.

h. *FERC Contact:* Mr. Ashish Desai, (202) 502-8370, Ashish.Desai@ferc.gov.

i. Deadline for filing comments, protests, and motions to intervene is 30 days from the issuance date of this notice by the Commission. The Commission strongly encourages electronic filing. Please file comments, protests, and motions to intervene using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888

First Street NE., Washington, DC 20426. The first page of any filing should include docket number P-7656-012.

j. *Description of Project Facilities:* (1) An 18-inch-high, 15-foot-long dam; (2) an 18-inch-diameter, 400-foot-long PVC penstock; (3) a powerhouse containing two generating units for a total installed capacity of 79 kilowatts; (4) a 300-foot-long, 480-volt transmission line; and (5) appurtenant facilities.

k. *Description of Proceeding:* The licensee is in violation of standard Article 16 of its license issued on June 24, 1986 (35 FERC ¶ 62,532). Article 16 states, in part: If the Licensee shall abandon or discontinue good faith operation of the project or refuse or neglect to comply with the terms of the license and the lawful orders of the Commission mailed to the record address of the Licensee or its agent, the Commission will deem it to be the intent of the Licensee to surrender the license.

Commission records indicate that the project has not been operated since the fall of 2012 when heavy storms flooded the powerhouse. Due to an ongoing property rights dispute involving access to and the use of lands needed for project purposes, the licensee has been reluctant to repair the project and return it to service. In addition, the licensee has not responded to several Commission requests to file a plan and schedule to restore project operation in a timely manner.

l. This notice is available for review and reproduction at the Commission in the Public Reference Room, Room 2A, 888 First Street NE., Washington, DC 20426. The notice and other project records may also be viewed on the Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the Docket number (P-7656-012) excluding the last three digits in the docket number field to access the notice. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call toll-free (866) 208-3676 or email FERCOnlineSupport@ferc.gov. For TTY, call (202) 502-8659.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, and .214. In determining the appropriate action to take, the Commission will

consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Responsive Documents:* Any filing must (1) bear in all capital letters the title "COMMENTS," "PROTEST," or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All comments, protests, or motions to intervene should relate to project works which are the subject of the implied surrender. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. If an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding in accordance with 18 CFR 4.34(b) and 385.2010.

Dated: April 15, 2016.

Kimberly D. Bose,
Secretary.

Federal Energy Regulatory Commission

[Docket No. CP16-121-000; PF15-28-000]

National Grid LNG LLC; Notice of Application

Take notice that on April 1, 2016, National Grid LNG LLC (NGLNG), having its principal place of business at 40 Sylvan Rd, Waltham, MA 02451,

filed in the above referenced docket an application pursuant to sections 7(c) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations requesting authorization to construct and operate its Fields Point Liquefaction Project (Project) located in Providence, RI, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Any questions concerning this application may be directed to Andrea Wolfman, Alston & Bird LLP, 950 F Street NW., Washington, DC 20004; by calling (202) 239-3943; by faxing (202) 239-3943; or by emailing andrea.wolfman@alston.com.

Specifically, NGLNG proposes to construct and operate one (1) new 20 million cubic feet per day (MMcf/d) gas pretreatment and liquefaction system to convert natural gas delivered by pipeline into liquefied natural gas (LNG). The liquefaction facility is designed to enable NGLNG to provide up to 20,600 dekatherms per day (Dth/day) liquefaction service at its existing LNG storage facility. NGLNG estimates the total cost of the liquefaction Project to be \$180 million. Additionally, NGLNG intends to undertake another project on its existing plant site at the same time. A storage tank containment enhancement project, called the Bund Wall Project, is planned to add a reinforced concrete bund wall around the existing tank. Both of these projects will be reviewed by the Commission in a single environment review process which has been underway per the Notice of Intent to Prepare an Environmental Document issued in Docket No. PF15-28-000 on September 25, 2015.

On July 2, 2015 the Commission granted NGLNG's request to utilize the Pre-Filing Process and assigned Docket No. PF15-28-000 to staff activities involved in the Project. Now, as of the filing of the April 1, 2016 application, the Pre-Filing Process for this Project has ended. From this time forward, this proceeding will be conducted in Docket No. CP16-121-000 as noted in the caption of this Notice.

Pursuant to section 157.9 of the Commission's rules (18 CFR 157.9),

within 90 days of this Notice, the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this

project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

Comment Date: 5:00 p.m. Eastern Time on May 6, 2016.

Dated: April 15, 2016.

Kimberly D. Bose,
Secretary.
