*Title:* Importation of Wooden Handicrafts from China.

*OMB Control Number:* 0579–0357.

*Summary of Collection:* Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests new to the United States or not known to be widely distributed throughout the United States. The regulations in “Subpart-Logs, Lumber, and Other Unmanufactured Wood Articles” (7 CFR 319.40–1 through 319.40–11, referred to as the regulations) govern the importation of various logs, lumber, and other unmanufactured wood products in the United States. APHIS' regulations provide for the importation of wooden handicrafts from China under certain conditions. Trade in these handicrafts has resumed while continuing to protect

the United States against the introduction of plant pests.

*Need and Use of the Information:*

APHIS uses the following information activities to allow for trade in Chinese wooden handicrafts while continuing to protect the United States: Merchandise tags, a fumigation certification, and an application for permit to import timber or timber products. Failure to collect this information would cause foreign countries to refuse any shipments from the United States that contained wooden handicrafts, a development that could cause a significant disruption in trade with foreign countries and result in serious economic consequences not only to U.S. exporters, but to many U.S. industries that export products to foreign countries.

*Description of Respondents:* Business or other for-profit.

*Number of Respondents:* 361.

*Frequency of Responses:* Reporting: On occasion.

*Total Burden Hours:* 5,271.
