Regulatory Findings

Administrative Procedure Act

The Department is publishing this rule as a direct final rule, as an interpretative rule, general statement of policy, or rule of agency organization, procedure, or practice, in accordance with 5 U.S.C. 553(b). The effective date of this rulemaking is the date of publication, in accordance with 5 U.S.C. 553(d). The Department finds good cause for this rule to be effective immediately. Since the amendments in this rule are merely technical in nature or address the internal operating

procedures of the agency, public comment is unnecessary.

Regulatory Flexibility, Unfunded Mandates, SBREFA

The Department of State, in accordance with the Regulatory Flexibility Act (5 U.S.C. 605(b)), has reviewed this regulation and, by approving it, certifies that this rule will not have a significant economic impact on a substantial number of small entities. This determination was based on the fact that the amendments in this rule will not have any cost or administrative impact on offerors or contractors. Thus, it was concluded that the rule will not have a significant economic impact on a substantial number of small entities. This rule will not result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any year and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Act of 1995. Finally, this rule is not a major rule as defined by the Small Business Regulatory Enforcement Act of 1996 (5 U.S.C. 801 *et seq.*).

Executive Orders 12866 and 13563

The Department of State does not consider this rule to be an "economically significant" regulatory action under E. O. 12866. The Department has reviewed the regulation to ensure its consistency with the regulatory philosophy and principles set forth in Executive Orders 12866 and 13563 and finds that the benefits of updating this rule outweigh any costs, which the Department assesses to be minimal.

Executive Order 13132 and 13175

This rule will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. The Department has determined that this rulemaking will not have tribal implications, will not impose substantial direct compliance costs on Indian tribal governments, and will not pre-empt tribal law.

Paperwork Reduction Act

The rule imposes no new or revised information collections under the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35).

Endangered and Threatened Wildlife and Plants; Determination That Designation of Critical Habitat Is Not Prudent for the Northern Long-Eared Bat

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Critical habitat determination.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have reconsidered whether designating critical habitat for the northern long-eared bat (*Myotis septentrionalis*) is prudent. We have determined that such a designation is not prudent. We listed the northern long-eared bat as a threatened species under the Endangered Species Act of 1973, as amended (Act), on April 2, 2015. At the time the species was listed, we determined that designation of critical habitat was prudent, but not determinable. Since that time, information has come available that demonstrates that designating the wintering habitat as critical habitat for the bat would likely increase the threat from vandalism and disturbance, and could, potentially, increase the spread of white-nose syndrome. In addition, designating the summer habitat as critical habitat would not be beneficial to the species, because there are no areas within the summer habitat that meet the definition of critical habitat. Thus, we have determined that the designation of critical habitat is not prudent for the northern long-eared bat.

DATES: The determination announced in this document was made on April 27, 2016.
