DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

Automated Commercial Environment (ACE); Announcement of National Customs Automation Program Test of the In-Transit Manifest Pilot Program

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: General notice.

SUMMARY: This document announces that U.S. Customs and Border Protection (CBP) plans to conduct a National Customs Automation Program (NCAP) test relating to truck shipments of commercial goods that transit from a point of origination in Canada through the United States to a point of destination in Canada. Under the NCAP test, CBP will use a new filing code to identify shipments as being part of the In-Transit Manifest Pilot Program in CBP's Automated Commercial Environmental (ACE) Truck Manifest System. Test participants will submit electronically an in-transit manifest with a relaxed validation for the value data element and they will not have to provide the Harmonized Tariff Schedule (HTS) number. This notice provides a description of the NCAP test and specifies the duration and locations of the test. It also invites public comment on any aspect of the test.

DATES: The test will commence no earlier than May 27, 2016 and will run for approximately six months at the following ports: Port Huron, Michigan; Pembina, North Dakota; and Blaine,

Washington. Comments concerning this notice and all aspects of the announced test may be submitted at any time during the test period.

ADDRESSES: Written comments concerning program, policy and technical issues should be submitted to Manuel Garza, Director, Manifest and Conveyance Security Division, U.S. Customs and Border Protection, via email at manuel.a.garza@cbp.dhs.gov.

SUPPLEMENTARY INFORMATION:

I. Background

A. CBP Regulations

Under CBP regulations, a truck with merchandise that transits the United States during a trip that originates and terminates in Canada must present a paper manifest form, the United States-Canada Transit Manifest, known as Customs Form 7512-B Canada 8½, to CBP when it crosses the border at the U.S. ports of arrival and exit. The procedures for these in-transit shipments are addressed in 19 CFR 123.42 (Truck shipments transiting the United States). Among other things, the regulation provides that trucks transiting the United States must be sealed at the U.S. port of arrival. The regulation also provides that merchandise transported in trucks shall be forwarded in accordance with the general provisions for transportation in-bond (19 CFR 18.1–18.8).

In addition to the requirement to present a paper manifest when a truck crosses the border, CBP also requires electronic filing of certain information regarding the cargo carried by a truck in advance of the truck's arrival at the border. Under 19 CFR 123.92(a), with a few exceptions, for any inbound truck required to report its arrival under 19 CFR 123.1(b) that will have commercial cargo aboard, CBP must electronically receive certain information regarding the cargo to a CBP-approved EDI system¹ no later than either 30 minutes² or one hour prior to the

¹ In a notice published in the **Federal Register** on October 27, 2006 (71 FR 62922), CBP designated the ACE Truck Manifest System as the approved EDI for the transmission of required data and announced that the requirement to transmit advance electronic cargo information through ACE would be phased in by groups of ports-of-entry. Through a series of **Federal Register** notices published from the October 27, 2006 notice and concluding with a November 13, 2007 notice (72 FR 63805), CBP mandated the use of ACE for the transmission of advance electronic truck cargo information at all land border ports-of-entry.

² As explained in the preamble of the final rule implementing section 123.92, published in the **Federal Register** on December 5, 2003 (68 FR 68140), the 30 minute timeframe applies to truck carriers arriving with shipments qualified for
