In accordance with 30 CFR 1227.101(b)(1), the States request that ONRR delegate the royalty management functions of conducting audits and investigations. The States request delegation of these functions for producing Federal oil and gas leases within the State boundaries, as applicable. This is for producing Federal oil and gas leases in the Outer Continental Shelf, subject to revenue sharing under 8(g) of the Outer

related to oil and gas revenues owed to the United States and shared with the State, which are attributable to leased Federal onshore property within the State.

The States have asked ONRR to renew the delegations within the time required by 30 CFR 1227.110(b). The States of Alaska, California, and Utah request 100-percent funding of the delegated functions for a 3-year period beginning July 1, 2016, with the opportunity to extend for an additional 3-year period. The States of Colorado, North Dakota, Texas, and Wyoming request 100-

SUPPLEMENTARY INFORMATION:

OMB Control Number: 1010–0176.

Title: 30 CFR 585, Renewable Energy and Alternate Uses of Existing Facilities on the Outer Continental Shelf.

Forms: BOEM–0002, BOEM–0003, BOEM–0004, BOEM–0005, BOEM–0006.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to issue leases, easements, or rights-of-way on the OCS for activities that produce or support production, transportation, or transmission of energy from sources other than oil and gas (renewable energy). Specifically, subsection 8(p) of the OCS Lands Act, as amended (43 U.S.C. 1337(p)), directs the Secretary of the Interior to issue any necessary regulations to carry out the OCS renewable energy program. The Secretary delegated this authority to BOEM. BOEM has issued regulations for OCS renewable energy activities at 30 CFR part 585; this notice concerns the reporting and recordkeeping elements required by these regulations.

Respondents operate commercial and noncommercial technology projects that include installation, construction, operation and maintenance, and decommissioning of offshore facilities, as well as possible onshore support facilities. BOEM must ensure that these activities and operations on the OCS are performed in a safe manner which do not cause damage to the environment or endanger life or health, do not interfere with the rights of other users on the OCS, and balance the protection and development of OCS resources. Therefore, BOEM needs information concerning the proposed activities, facilities, safety equipment, inspections and tests, and natural and manmade hazards near the site, as well as assurance of fiscal responsibility.

BOEM uses forms to collect some information to ensure proper and efficient administration of OCS renewable energy leases and grants and to document the financial responsibility of lessees and grantees. Forms BOEM–0002, BOEM–0003, BOEM–0004, and BOEM–0006 are used by renewable energy entities on the OCS to assign a lease interest, designate an operator, and to assign or relinquish a lease or grant. Form BOEM–0005 was designed to guarantee the performance of sureties with respect to bonds issued on behalf of OCS renewable energy lessees, grantees, and operators. BOEM maintains the submitted forms as official lease and grant records pertaining to operating responsibilities, ownership, and financial responsibility.
