Transportation Security Administration

Intent To Request Renewal From OMB of One Current Public Collection of Information: Pipeline Corporate Security Review Program

AGENCY: Transportation Security Administration, DHS.

ACTION: 60-day notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently-approved Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652-0056, abstracted below that we will submit to OMB for renewal in compliance with the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. The collection allows TSA to assess the current security practices in the pipeline industry through TSA's Pipeline Corporate Security Review (PCSR) program. The PCSR program is part of the larger domain awareness, prevention, and protection program supporting TSA's and the Department of Homeland Security's missions.

DATES: Send your comments by July 1, 2016.

ADDRESSES: Comments may be emailed to TSAPRA@tsa.dhs.gov or delivered to the TSA PRA Officer, Office of Information Technology (OIT), TSA-11, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598-6011.

FOR FURTHER INFORMATION CONTACT: Christina A. Walsh at the above address, or by telephone (571) 227-2062.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at <http://www.reginfo.gov>. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control Number 1652-0056; Pipeline Corporate Security Review (PCSR) Program. Under the Aviation and Transportation Security Act (ATSA)¹ and delegated authority from the Secretary of Homeland Security, TSA has broad responsibility and authority for “security in all modes of transportation . . . including security responsibilities . . . over modes of transportation that are exercised by the Department of Transportation.”² TSA is specifically empowered to develop policies, strategies, and plans for dealing with threats to transportation,³ oversee the implementation and adequacy of security measures at transportation facilities,⁴ and carry out other appropriate duties relating to transportation security.⁵ TSA has developed the PCSR program to assess the current security practices in the pipeline industry.

The purpose of the PCSR program is to develop first-hand knowledge of a pipeline owner/operator's corporate security policies and procedures, establish and maintain working relationships with key pipeline security personnel, and identify and share smart security practices observed at individual facilities to help enhance and improve the security of the pipeline industry. To this end, the PCSR Program provides TSA with a method to discuss security-related matters with pipeline owners/operators.
