SUPPLEMENTARY INFORMATION: ONMS serves as the trustee for a network of underwater parks encompassing more than 170,000 square miles of marine and Great Lakes waters from Washington state to the Florida Keys, and from Lake Huron to American Samoa. The network includes a system of 13 national marine sanctuaries and Papahānaumokuākea and Rose Atoll marine national monuments. National marine sanctuaries protect our nation's most vital coastal and marine natural and cultural resources, and through active research, management, and public engagement, sustain healthy environments that are the foundation for thriving communities and stable economies. One of the many ways ONMS ensures public participation in the designation and management of national marine sanctuaries is through the formation of advisory councils. National marine sanctuary advisory councils are community-based advisory groups established to provide advice and recommendations to the superintendents of the national marine sanctuaries and Papahānaumokuākea Marine National Monument on issues including management, science, service, and stewardship; and to serve as liaisons between their constituents in the community and the sanctuary. Additional information on ONMS and its advisory councils can be found at <http://sanctuaries.noaa.gov>. Materials related to the purpose, policies, and operational requirements for advisory councils can be found in the charter for a particular advisory council (http://sanctuaries.noaa.gov/management/ac/council_charters.html) and the *National Marine Sanctuary Advisory Council Implementation Handbook* (<http://sanctuaries.noaa.gov/management/ac/acref.html>).

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2009-0044]

Agency Information Collection Activities; Submission for OMB Review; Comment Request—Safety Standard for Cigarette Lighters

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In accordance with the requirements of the Paperwork Reduction Act ("PRA") of 1995 (44 U.S.C. chapter 35), the Consumer Product Safety Commission ("Commission" or "CPSC") announces that the Commission has submitted to the Office of Management and Budget ("OMB") a request for extension of approval of a collection of information from manufacturers and importers of disposable and novelty cigarette lighters under the CPSC's regulations implementing the Safety Standard for Cigarette Lighters (16 CFR part 1210). In the **Federal Register** of February 22, 2016 (81 FR 8696), the CPSC published a notice to announce the agency's intention to seek extension of approval of the collection of information. The Commission received no comments. Therefore, by publication of this notice, the Commission announces that CPSC has submitted to the OMB a request for extension of approval of that collection of information, without change.

DATES: Written comments on this request for extension of approval of information collection requirements should be submitted by June 1, 2016.

ADDRESSES: Submit comments about this request by email: OIRA_submission@omb.eop.gov or fax: 202-395-6881. Comments by mail should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the CPSC, Office of Management and Budget, Room 10235, 725 17th Street NW., Washington, DC 20503. SUPPLEMENTARY INFORMATION: CPSC has submitted the following currently approved collection of information to OMB for extension:

Title: Safety Standard for Cigarette Lighters.

OMB Number: 3041-0116.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of cigarette lighters.

Estimated Number of Respondents: In 2015, 42 firms submitted information to the CPSC on 307 lighter models. There were 4 new models and 303 lighters that were comparable to previously tested models ("comparison lighters").

Estimated Time per Response: Recordkeeping is composed of two separate components: Recordkeeping for new models and recordkeeping for comparison lighters. The time burden for recordkeeping for new models is estimated at 20 hours per model. The total time for recordkeeping of new models is estimated to be 80 hours (20 hours × 4 models). For each new model, product testing for each firm would take approximately 90 hours per model, for a total of 360 hours (90 hours × 4 models).

Firms may also submit comparison lighters to demonstrate compliance with the standard. In 2015, 303 comparison lighters were reported to the CPSC. While firms bear no testing costs for comparison lighters, the burden hours for recordkeeping has been estimated at 3 hours per model. Thus, an estimated 909 hours (303 models × 3 hours) is estimated for recordkeeping for comparison lighters.

Reporting requirements for submitting forms to CPSC are estimated at one hour per model, for a total annual reporting burden on 307 hours (307 models × 1 hour).

Total Estimated Annual Burden: The total number of responses is approximately 307 per year (4 new models + 303 comparison lighters). The number of hours estimated for testing and recordkeeping is 1,349 hours per year, including new-product tests (360 hours if done in house), new product recordkeeping (4 new models × 20 hours = 80 hours), and recordkeeping for comparison lighters (303 comparison
