distribution (or, a special distribution, corrective distribution, or net income distribution) will continue to provide at least three business days' advance notice (or longer advance notice as may be required by the Exchange) [16] of such an event, as currently required.[17]

With respect to the proposed changes to the Underlying Benchmarks for the AccuShares S&P® GSCI® Crude Oil Spot Fund and the AccuShares S&P® GSCI® Natural Gas Spot Fund, the Commission agrees that the excess return variant—which, in contrast to the spot variant, captures the cost or benefit of transacting out of the current or front-month expiry contract and into the next or following futures contract—is not a novel or unique index variant and is one that is employed by other types of exchange-traded products.[18] The Commission believes that the proposed changes to the Underlying Benchmarks for the AccuShares S&P® GSCI® Crude Oil Spot Fund and the AccuShares S&P® GSCI® Natural Gas Spot Fund are reasonable because the excess return variant for these Underlying Benchmarks, which contains the cost or benefit of the roll forward, is reasonably designed to permit more efficient hedging with conventional futures contracts.[19]

With respect to the proposal to reset the Share Index Factors of the VIX Fund more frequently (*i.e.,* weekly), the Commission believes that more frequent resets of the Share Index Factors for the VIX Fund are reasonably designed to benefit market participants that trade shares of the VIX Fund because the increased frequency may improve the arbitrage function of the shares by aligning the setting of the Share Index Factors with the expiry of each weekly VIX futures contract, and because the Share Index Factor will reset with a frequency closer to the daily measurements of spot VIX. The changes to the VIX Fund support the prospect of improved and simplified arbitrage and hedging of VIX Fund shares because the settlement of the shorter VIX futures will coincide with each Share Index Factor reset. In addition, the potentially improved hedgeability of the VIX Fund shares as a result of the proposed changes is expected to bring the share trading prices closer aligned with the corresponding share Class Values, which are tied directly to changes in spot VIX values.

The Commission notes that it received two comments regarding the proposed rule change: one comment supporting the proposal; and another comment addressing exchange-traded funds generally. The Commission notes that the issue raised by the latter comment does not squarely address the Paired Class Shares, which are the subject of this proposed rule change.[20]

For the foregoing reasons, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act [21] and the rules and regulations thereunder applicable to a national securities exchange.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (SR–NASDAQ–2016–034) be, and it hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[22]
