**Background**

The Middle Class Tax Relief and Job Creation Act of 2012 (Pub. L. 112–96, Title VI, 126 Stat. 156 (codified at 47 U.S.C. 1401 *et seq.*)) (the “Act”) created and authorized FirstNet to take all actions necessary to ensure the building, deployment, and operation of an interoperable, nationwide public safety broadband network (“NPSBN”) based on a single, national network architecture. The Act meets a longstanding and critical national infrastructure need, to create a single, nationwide network that will, for the first time, allow police officers, fire fighters, emergency medical service professionals, and other public safety entities to effectively communicate with each other across agencies and jurisdictions. The NPSBN is intended to enhance the ability of the public safety community to perform more reliably, effectively, and safely; increase situational awareness during an emergency; and improve the ability of the public safety community to effectively engage in those critical activities.

The National Environmental Policy Act of 1969 (42 U.S.C. 4321–4347) (“NEPA”) requires federal agencies to undertake an assessment of environmental effects of their proposed actions prior to making a final decision and implementing the action. NEPA requirements apply to any federal project, decision, or action that may have a significant impact on the quality of the human environment. NEPA also establishes the Council on Environmental Quality (“CEQ”), which issued regulations implementing the procedural provisions of NEPA (see 40 CFR parts 1500–1508). Among other considerations, CEQ regulations at 40 CFR 1508.28 recommend the use of *tiering* from a “broader environmental impact statement (such as a national program or policy statements) with subsequent narrower statements or environmental analysis (such as regional or basin wide statements or ultimately site-specific statements) incorporating by reference the general discussions and concentrating solely on the issues specific to the statement subsequently prepared.”

Due to the geographic scope of FirstNet (all 50 states, the District of Columbia, and five territories) and the diversity of ecosystems potentially traversed by the project, FirstNet has

elected to prepare five regional PEISs. The five PEISs will be divided into the East, Central, West, South, and Non-Contiguous Regions. The East Region consists of Connecticut, Delaware, the District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia. The Draft PEIS analyzes potential impacts of the deployment and operation of the NPSBN on the natural and human environment in the East Region, in accordance with FirstNet’s responsibilities under NEPA.

**Next Steps**

All comments received by the public and any interested stakeholders will be evaluated and considered by FirstNet during the preparation of the Final PEIS. Once a PEIS is completed and a Record of Decision (ROD) is signed, FirstNet will evaluate site-specific documentation, as network design is developed, to determine if the proposed project has been adequately evaluated in the PEIS or warrants a Categorical Exclusion, an Environmental Assessment, or an Environmental Impact Statement.

**Foreign-Trade Zones Board**

[B–27–2016]

**Foreign-Trade Zone 103—Grand Forks, North Dakota; Application for Reorganization Under Alternative Site Framework**

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by the Grand Forks Regional Airport Authority, grantee of FTZ 103, requesting authority to reorganize the zone under the alternative site framework (ASF) adopted by the FTZ Board (15 CFR 400.2(c)). The ASF is an option for grantees for the establishment or reorganization of zones and can permit significantly greater flexibility in the designation of new subzones or “usage-driven” FTZ sites for operators/users located within a grantee’s “service area” in the context of the FTZ Board’s standard 2,000-acre activation limit for a zone. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR

part 400). It was formally docketed on May 2, 2016.

FTZ 103 was approved by the FTZ Board on April 27, 1984 (Board Order 253, 49 FR 19541, May 8, 1984). The grant of authority was reissued to the Grand Forks Regional Airport Authority on July 5, 1995 (Board Order 752, 60 FR 36104–36105, July 13, 1995).

The current zone includes the following sites in Grand Forks: *Site 1* (6 acres)—Grand Forks International Airport, 2301 Airport Drive; *Site 2* (2 acres)—Grand Forks Industrial Park, 830 South 48th Street; and, *Site 3* (24 acres)—Ag Depot, 1168 12th Street NE.

The grantee's proposed service area under the ASF would include all of Grand Forks County, North Dakota, as described in the application. If approved, the grantee would be able to serve sites throughout the service area based on companies' needs for FTZ designation. The application indicates that the proposed service area is within and adjacent to the Grand Forks, North Dakota U.S. Customs and Border Protection port of entry.

The applicant is requesting authority to reorganize its existing zone under the ASF without including any of the existing sites in the reorganized zone. No new magnet sites or subzones/usage-driven sites are being requested at this time. The application would have no impact on FTZ 103's previously authorized subzone.

In accordance with the FTZ Board's regulations, Christopher Kemp of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the FTZ Board.

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board's Executive Secretary at the address below. The closing period for their receipt is July 5, 2016. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to July 20, 2016.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230–0002, and in the "Reading Room" section of the FTZ Board's Web site, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz). For further information, contact Christopher Kemp at [Christopher.Kemp@trade.gov](mailto:Christopher.Kemp@trade.gov) or (202) 482–0862.
