SUPPLEMENTARY INFORMATION: On April 26, 2016, the Secretary approved for the Physical Activity Guidelines Advisory Committee and the Secretary's Advisory Committee on National Health Promotion and Disease Prevention Objectives to be re-established. Both committees have been re-established to accomplish single, time-limited tasks.

The Physical Activity Guidelines Advisory Committee was first established in February 2007 to assist the Department in development of the first edition of the *Physical Activity Guidelines for Americans* (PAG). The Department plans to develop a second edition of the PAG, and it was recommended that the same process be used to develop this document. The new committee will examine the current edition of the PAG, take into consideration new scientific evidence and current resource documents, and then develop a scientific advisory report that will be submitted to the Secretary. The title for the new committee is the 2018 Physical Activity Guidelines Advisory Committee (2018 PAGAC; the Committee).

Objectives and Scope of Activities. The 2018 PAGAC will provide independent advice and recommendations based on current scientific evidence for use by the federal government in the development of the second edition of the PAG. The PAG provides a foundation for federal recommendations and education for physical activity programs for Americans, including those at risk for chronic disease.

Description of Duties. The work of the 2018 PAGAC is solely advisory in nature. The Committee will be established for the single, time-limited task of reviewing the current edition of the PAG and conducting an evidence-based systematic literature review of physical activity and health for use in developing physical activity recommendations to promote health and reduce chronic disease risk.

Membership and Designation. The 2018 PAGAC will be composed of 11 to 17 members. One or more members will be selected to serve as the Chair, Vice Chair, and/or Co-Chairs. The Committee will consist of respected published experts in designated fields and specific specialty areas. Individuals appointed to serve on the Committee will have demonstrated expert knowledge of current science in the field of human physical activity and health promotion or the prevention of chronic disease. Members will be appointed to the Committee by the Secretary of HHS and invited to serve for the duration of the Committee. All appointed members of the Committee will be classified as special government employees (SGEs).

Administrative Management and Support. The 2018 PAGAC will provide advice to the Secretary of Health and Human Services, through the Assistant Secretary for Health (ASH). The Committee will provide a report to the Secretary, outlining their recommendations and rationale for the second edition of the PAG.

Management and support services for the Committee will be provided within the Office of the Assistant Secretary for Health (OASH) by the Office of Disease Prevention and Health Promotion (ODPHP). The ODPHP is a program staff office within OASH; OASH is a staff division in the HHS Office of the Secretary.

ODPHP will collaborate with the Centers for Disease Control and Prevention (CDC), the National Institutes of Health (NIH), and the OASH program staff office for the President's Council on Fitness, Sports, and Nutrition (PCFSN). The ASH will appoint seven Co-Executive Secretaries to support the Committee, two each from the ODPHP, CDC, and NIH, and one from the OASH staff office for the PCFSN. The two ODPHP Co-Executive Secretaries will be appointed to serve as the DFO and Alternate DFO for the Committee.

The Department established the *Healthy People* initiative in 1979. The initiative was established to develop a framework for improving the health of all people in the United States. *Healthy People* provides evidence-based, ten-
