

In November 2013, the District submitted an application to the Department for a Presidential Permit authorizing the construction, connection, operation, and maintenance of a cross-border water pipeline facility for the proposed project, which would convey desalinated seawater from Mexico to the District's Roll Reservoir in San Diego County, which is approximately four miles northeast of the border.

The proposed Mexican desalination plant (not a part of the proposed project) is envisioned to produce 100 million gallons per day (MGD) of desalinated sea water. The District intends to initially purchase approximately 20–25 MGD of desalinated sea water, and ultimately increase the amount to 50 MGD. Due to seasonal variation in demand, the District anticipates that 10 MGD would be conveyed in the winter months, and up to 50 MGD would be conveyed during peak demand periods in the summer months. Numerous alignment routes for the pipeline were considered; however, after initial consideration of environmental and engineering opportunities and constraints, the District, together with the Department, determined three alternative alignments, and addressed those alignments in the Draft EIR/EIS. The District's preferred alternative is approximately 21,810 linear feet and extends from the border in a northwesterly direction within established right-of-ways and terminates on the east side of the Roll Reservoir.

The District will be responsible for approving the expenditure of public funds for the proposed project and the Department will be responsible for determining whether the proposed project serves the national interest pursuant to Executive Order 11423, and if so, issuing a Presidential Permit authorizing the construction, connection, operation, and maintenance of the cross-border pipeline facility.

*Availability of the Draft EIS/EIR:* Copies of the Draft EIS/EIR have been distributed to state and governmental agencies, tribal governments, and other interested parties. Printed copies of the document may be obtained by visiting the Otay Mesa-Nestor Library in San Diego, California or by contacting the Otay Project Manager at the above address.
