

services. Including this information in MSIX would help State grantees quickly verify a student's eligibility to receive services under the program.

- *Graduation/HSE Indicator and Graduation/HSE Date:* These two elements would indicate whether a student has graduated from high school or received an HSE diploma, and the date when that event occurred. Grantees use the MSIX system to determine proper enrollment, placement, and credit accrual for migratory students. Including this information in MSIX would help ensure that LOA and local educational agency staff have timely and accurate information about whether and when a migratory student has graduated from high school or received an HSE diploma, thereby allowing much faster determinations about who may continue to receive MEP educational services because they have not graduated or received an HSE diploma, and who may not receive these services because they already have done so.

- *Algebra I Flag:* This element would reflect whether the student has received full credit in Algebra I or an equivalent mathematics course. As reported in National Migrant Education Secondary Credit Accrual Workshops and Focus Groups throughout the years, many States use different course names to reference this mathematics course, and completing the material is essential for both enrollment in higher-level mathematics courses and high school graduation. The Algebra I flag would quickly communicate whether a student has obtained credit for this gatekeeper course, which would enable counselors and other school staff to more quickly enroll and place migratory students in the appropriate mathematics course.

SUPPLEMENTARY INFORMATION:

The Biomass Research and
Development Act of 2000 (Biomass Act)
[Pub. L. 106-224] requires cooperation
and coordination in biomass research
and development (R&D) between the
U.S. Department of Agriculture (USDA)
and U.S. Department of Energy (DOE).
The Biomass Act was repealed in June
2008 by section 9008 of the Food,
Conservation and Energy Act of 2008
(FCEA) [Pub. L. 110-246, 122 Stat. 1651,
enacted June 18, 2008, H.R. 6124]. The
Biomass Act was re-authorized in the
Agricultural Act of 2014.

FCEA section 9008(d) established the
Biomass Research and Development
Technical Advisory Committee and lays
forth its meetings, coordination, duties,
terms, and membership types.

Committee members are paid travel and
per diem for each meeting. The
Committee must meet quarterly and
should not duplicate the efforts of other
Federal advisory committees. Meetings
are typically two days in duration.
Three meetings are held in the
Washington DC area and the fourth is
held at a site to be determined each
year. The Committee advises DOE and
USDA points of contact with respect to
the Biomass R&D Initiative (Initiative)
and priority technical biomass R&D
needs and makes written
recommendations to the Biomass R&D
Board (Board). Those recommendations
regard whether: (A) Initiative funds are
distributed and used consistent with
Initiative objectives; (B) solicitations are
open and competitive with awards
made annually; (C) objectives and
evaluation criteria of the solicitations
are clear; and (D) the points of contact
are funding proposals selected on the
basis of merit, and determined by an
independent panel of qualified peers.

The committee members may serve
two, three-year terms and committee
membership must include: (A) An
individual affiliated with the biofuels
industry; (B) an individual affiliated
with the biobased industrial and
commercial products industry; (C) an
individual affiliated with an institution
of higher education that has expertise in
biofuels and biobased products; (D) two
prominent engineers or scientists from
government (non-federal) or academia
that have expertise in biofuels and
biobased products; (E) an individual
affiliated with a commodity trade
association; (F) two individuals
affiliated with environmental or
conservation organizations; (G) an
individual associated with state
government who has expertise in
biofuels and biobased products; (H) an
individual with expertise in energy and
environmental analysis; (I) an
individual with expertise in the
economics of biofuels and biobased
products; (J) an individual with
expertise in agricultural economics; (K)
an individual with expertise in plant
biology and biomass feedstock
development; (L) an individual with
expertise in agronomy, crop science, or
soil science; and (M) at the option of the
points of contact, other members (REF:
FCEA 2008 section 9008(d)(2)(A)). All
nominees will be carefully reviewed for
their expertise, leadership, and
relevance to an expertise. Appointments
