

The amounts of NUSA allowances may be increased in certain circumstances as set forth in §§ 97.412(a)(2), 97.512(a)(2), 97.612(a)(2), and 97.712(a)(2).

The amounts of first-round allocations to eligible units from each NUSA are calculated according to the procedures set forth in §§ 97.412(a)(3)–(7) and (12), 97.512(a)(3)–(7) and (12), 97.612(a)(3)–(7) and (12), and 97.712(a)(3)–(7) and (12). Generally, the procedures call for each eligible unit to receive a first-round 2016 NUSA allocation equal to its 2015 emissions as reported under 40 CFR part 75 unless the total of such allocations to all eligible units would exceed the amount of allowances in the NUSA, in which case the allocations are reduced on a pro-rata basis.⁵

EPA notes that an allocation or lack of allocation of allowances to a given EGU does not constitute a determination that CSAPR does or does not apply to the EGU. EPA also notes that allocations are subject to potential correction.

The detailed unit-by-unit data and preliminary allowance allocation calculations are set forth in Excel spreadsheets titled “CSAPR_NUSA_2016_NO_x_Annual_1st_Round_Prelim_Data”, “CSAPR_NUSA_2016_NO_x_OS_1st_Round_Prelim_Data”, and “CSAPR_NUSA_2016_SO₂_1st_Round_Prelim_Data,” available on EPA’s Web site at <http://www3.epa.gov/crossstaterule/actions.html>. The three spreadsheets show EPA’s initial determinations of 2016 NUSA allocations for new units subject to the CSAPR NO_x Annual, NO_x Ozone Season, and SO₂ (Group 1 and Group 2) trading programs, respectively. Each of the spreadsheets contains a separate worksheet for each state covered by that program showing, for each unit identified as eligible for a first-round NUSA allocation, (1) the

unit’s emissions in the 2015 control period (annual or ozone season as applicable), (2) the maximum first-round 2016 NUSA allowance allocation for which the unit is eligible (typically the unit’s emissions in the 2015 control period), (3) various adjustments to the unit’s maximum allocation, many of which are necessary only if the NUSA pool is oversubscribed, and (4) the preliminary calculation of the unit’s first-round 2016 NUSA allowance allocation.

Each state worksheet also contains a summary showing (1) the quantity of allowances initially available in that state’s 2016 NUSA, (2) the sum of the first-round 2016 NUSA allowance allocations that will be made to new units in that state, assuming there are no corrections to the data, and (3) the quantity of allowances that would remain in the 2016 NUSA for use in second-round allocations to new units (or ultimately for allocation to existing units), again assuming there are no corrections to the data.

Objections should be strictly limited to the data and calculations upon which the NUSA allowance allocations are based and should be emailed to the address identified in **ADDRESSES**. Objections must include: (1) Precise identification of the specific data and or calculations the commenter believes are inaccurate, (2) new proposed data and or calculations upon which the commenter believes EPA should rely instead to determine allowance allocations, and (3) the reasons why EPA should rely on the commenter’s proposed data and or calculations and not the data referenced in this notice.

[Docket No. 16–06]

RIN 3072–AC34

Update of Existing and Addition of New User Fees

AGENCY: Federal Maritime Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Maritime Commission (Commission) proposes amending its current user fees and invites public comment on whether the Commission should amend its user fees. Specifically, the Commission proposes increasing fees for: Filing complaints and certain petitions; records searches, document copying, and admissions to practice; paper filing of ocean transportation intermediary (OTI) applications; filing applications for special permission; and filing agreements.

The Commission also proposes lowering fees for: Reviewing Freedom of Information Act (FOIA) requests; revising clerical errors on service contracts; Revising clerical errors on non-vessel-operating common carrier (NVOCC) service agreements; and Commission services to passenger vessel operators (PVOs).

In addition, the Commission proposes repealing four existing fees for: Adding interested parties to a specific docket mailing list; the Regulated Persons Index database; database reports on Effective Carrier Agreements; and filing petitions for rulemaking. The Commission also proposes adding a new fee for requests for expedited review of an agreement filing.

DATES: Comments are due on or before June 27, 2016.

ADDRESSES: You may submit comments, identified by the docket number in the heading of this document, by any of the following methods:

SUPPLEMENTARY INFORMATION: The Commission’s current user fees are based on an assessment of fiscal year 2004 costs and have not been updated

97.710(a) because of rounding in the spreadsheet of CSAPR FIP allowance allocations to existing units.

⁵ Subsequent allocations of any allowances remaining in any 2016 NUSA after first-round allocations will be addressed in future notices. Any such allocations will be made according to the procedures set forth in §§ 97.412(a)(9), (10) and (12), 97.512(a)(9), (10) and (12), 97.612(a)(9), (10) and (12), and 97.712(a)(9), (10) and (12). Generally, new units that commenced commercial operations in 2015 or 2016 will receive second-round 2016 NUSA allocations sufficient to bring the totals of their first- and second-round allocations up to their 2016 emissions as reported under 40 CFR part 75 unless the total of such second-round allocations for all eligible units would exceed the remaining amount of allowances in the NUSA, in which case the second-round allocations will be reduced on a pro-rata basis. Any allowances remaining in any NUSA after second-round allocations to new units—along with any allowances remaining in any corresponding Indian country NUSA—will be allocated to the state’s existing units in proportion to their respective 2016 CSAPR FIP allocations of non-NUSA allowances.

since 2005.¹ Consequently, many of the current user fees no longer represent the Commission's actual costs for providing services. The Commission is seeking comments on possible adjustments to its user fees based on fiscal year 2015 costs assessed through a new methodology for calculating costs for services provided by the Commission.

The Independent Offices Appropriation Act of 1952 (IOAA), 31 U.S.C. 9701, authorizes agencies to establish charges (user fees) for services and benefits that it provides to specific recipients. Under the IOAA, charges must be fair and based on the costs to the Government, the value of the service or thing to the recipient, the public policy or interest served, and other relevant facts. The IOAA also provides that regulations implementing user fees are subject to policies prescribed by the President, which are currently set forth in OMB Circular A-25, *User Charges* (revised July 8, 1993).

OMB Circular A-25 requires agencies to conduct a periodic reassessment of costs and, if necessary, adjust or establish new fees. Under OMB Circular A-25, fees should be established for Government-provided services that confer benefits on identifiable recipients over and above those benefits received by the general public. OMB Circular A-25 also provides that agencies should determine or estimate costs based on the best available records in the agency, and that cost computations must cover the direct and indirect costs to the agency providing the activity.

Fee Assessment Methodology

Applying the guidance for assessing fees provided in OMB Circular A-25, the Commission has revised its methodology for computing fees to determine the full costs of providing services.² A detailed description of the methodology, as established by the Commission's Office of Budget and Finance, is available in the docket to this rulemaking.

The Commission has developed data on the time and cost involved in providing particular services to arrive at the updated direct and indirect labor costs for those services. As part of its assessment, the Commission utilized salaries of Full Time Equivalents (FTEs) assigned to fee-generating activities to identify the various direct and indirect costs associated with providing services.

¹ The Commission established the fee for filing or updating OTI license applications electronically in 2007.

² The revised methodology also satisfies the recommendations set forth in the Commission's Office of Inspector General's report, *Review of FMC's User Fee Calculations* (May 27, 2010).

Direct labor costs include clerical and professional time expended on an activity. Indirect labor costs include labor provided by bureaus and offices that provide direct support to the fee-generating offices in their efforts to provide services, and include managerial and supervisory costs associated with providing a particular service. Other indirect costs include Government overhead costs, such as fringe benefits and other wage-related Government contributions contained in OMB Circular A-76, *Performance of Commercial Activities* (revised May 29, 2003) and office general and administrative expenses.³ The sum of these indirect cost components gives an indirect cost factor that is added to the direct labor costs of an activity to arrive at the fully distributed cost.

Proposed Fee Adjustments

The adjustments the Commission proposes will allow some user fees to remain unchanged; increase, reduce, or delete other fees; and add one new fee. The Commission proposes making upward adjustments of fees to reflect increases in salary and indirect (overhead) costs. For some services, an increase in processing or review time may account for all or part of increase in the amount of the proposed fees. For other services, fees may be lower than current fees due to an overall reduced cost to provide those services.

The Commission assesses nominal processing fees for services related to the filing of complaints and certain petitions; various public information services, such as records searches, document copying, and admissions to practice; and filing applications for special permission. Due to an increase in the processing cost of these services, the Commission is proposing adjusting upward these administrative fees based on an assessment of fiscal year 2015 costs. Similarly, the Commission proposes adjusting upward the user fees associated with agreements filed under 46 CFR part 535 because of the increase in reviewing and analyzing the agreement filings.

With respect to OTI license applications, the Commission offers

³ OMB Circular A-76 lists the following indirect labor costs: Leave and holidays, retirement, worker's compensation, awards, health and life insurance, and Medicare. General and administrative costs are expressed as a percentage of basic pay. These include all salaries and overhead such as rent, utilities, supplies, and equipment allocated to Commission offices that provide direct support to fee-generating offices such as the Office of the Managing Director, Office of Information Technology, Office of Human Resources, Office of Budget and Finance, and the Office of Management Services.

lower fees for electronic filing of license applications through its FMC-18 automated filing system. The Commission first adopted lower fees in 2007 to promote the use of the electronic filing option by the public and to facilitate the transfer of OTI records from a paper-based format to a more convenient and accessible digital format.⁴ As intended, the majority of OTI applicants are using the automated system and paying the reduced fees. In fiscal year 2015, the total number of OTI applicants using the automated filing system at the reduced fees was 619, and the total number of OTI applicants filing their applications in paper format at the higher fees was 44. This program has been successful and the Commission proposes continuing to offer the lower fees for electronic filing at the current fee amounts.⁵

The Commission proposes decreasing fees for the Commission's services to passenger vessel operators (PVOs) under 46 CFR part 540. These services include reviewing and processing the application for certification on performance; the supplemental application on performance for the addition or substitution of a vessel; the application for certification on casualty, and the supplemental application on casualty for the addition or substitution of a vessel.

For reviews of requests filed under FOIA, the Commission proposes lowering the fees due to the change in grade level of the professional staff that review FOIA requests. For revisions of clerical errors on service contracts, the Commission proposes lowering the fee due to the reduction in processing time.

The Commission proposes repealing the user fee for obtaining a copy of the Regulated Persons Index given that it is currently available on the Commission's Web site. The Commission also proposes repealing the current fee assessed for adding an interested party to a specific docket mailing list under § 503.50(d), and the fee assessed under § 535.401(h) for obtaining a Commission agreement database report.

In addition, the Commission proposes repealing the user fee for filing petitions for rulemaking found in § 503.51(a).

⁴ FMC Docket No. 07-08, *Optional Method of Filing Form FMC-18, Application for a License as an Ocean Transportation Intermediary*, 72 FR 44976, 44977 (Aug. 10, 2007).

⁵ While the automated filing system allows users to file their applications electronically, the automated system for processing the applications is still under development. The fees for the electronic filing of OTI applications will be addressed by the Commission when the entire FMC-18 automated system is complete and operational, and the costs of the system and its impact on the review of OTI applications can be quantified.

This would align the Commission with the practice of other agencies, the vast majority of which do not impose a fee to file petitions for rulemaking. Repealing this user fee would also enhance access to the rulemaking process, thereby making it fairer and more open.

The Commission also proposes adding a new fee for processing requests for expedited review of an agreement under § 535.605, which allows filing parties to request that the 45-day waiting period be shortened to meet an operational urgency. The Commission believes that a fee for processing such requests is necessary to recoup the cost of publishing a separate **Federal Register** notice for expedited review. This new fee would be assessed in addition to the underlying agreement filing fee required by § 535.401(g).

The Commission welcomes comments on its new fee calculation methodology and possible fee adjustments.

Regulatory Analysis and Notices

Regulatory Flexibility Act

The Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, requires an agency to review regulations to assess their impact on small entities and prepare an initial regulatory flexibility analysis (IRFA), unless the agency head determines that the regulatory action will not have a significant impact on a substantial number of small entities. The proposed adjusted user fees reflect the costs of specific Commission services for identifiable recipients. The economic impact of user fees on a small entity results from the entity requesting a particular service that requires payment of a fee for that service. The dollar amount of each user fee proposed in this rule is not substantial enough to have a significant economic impact on any entity subject to the user fee. The proposed increases in user fees is below the rise in inflation and employment cost from the last assessment in fiscal year 2004. Furthermore, the Commission's regulations provide for a waiver or reduction of any fee in extraordinary situations. 46 CFR 503.42. The Chairman of the Commission, therefore, certifies that the proposed rule, if promulgated, will not have a significant economic impact on a substantial number of small entities.⁶

⁶In extraordinary situations, the Commission will accept requests for waivers or fee reductions. Such request must demonstrate that the waiver or reduction of a fee is in the best interest of the public, or that payment of a fee would impose an undue hardship.

Paperwork Reduction Act

The Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3521) requires an agency to seek and receive approval from the Office of Management and Budget (OMB) before making most requests for information if the agency is requesting information from more than ten persons. 44 U.S.C. 3507. The agency must submit collections of information in proposed rules to OMB in conjunction with the publication of the proposed rulemaking. 5 CFR 1320.11. The Commission is not proposing any collections of information, as defined by 44 U.S.C. 3502(3) and 5 CFR 1320.3(c), as part of this proposed rule.

Regulation Identifier Number

The Commission assigns a regulation identifier number (RIN) to each regulatory action listed in the Unified Agenda of Federal Regulatory and Deregulatory Actions (Unified Agenda). The Regulatory Information Service Center publishes the Unified Agenda in April and October of each year. You may use the RIN contained in the heading at the beginning of this document to find this action in the Unified Agenda, available at <http://www.reginfo.gov/public/do/eAgendaMain>.
