

Additional Permitted Cover is substantially similar to existing forms of Permitted Cover, will be subject to the same valuation haircuts as currently applied to currently accepted bonds of the same issuer and within the same maturity bucket, and will be subject to both absolute limits and relative limits, consistent with the existing issuer limits for Permitted Cover and the Collateral and Haircut Policy. The Commission believes that the proposed rule change is intended to allow Clearing Members more flexibility in meeting their margin and guaranty fund requirements without compromising ICE Clear Europe's risk management function.

The Commission therefore finds that the proposed rule change is designed to promote the prompt and accurate clearance and settlement of securities transactions and, to the extent applicable, derivative agreements, contracts, and transactions, and to assure the safeguarding of securities and funds which are in the custody or control of the clearing agency or for which it is responsible and, in general, to protect investors and the public interest.

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposal is consistent with the requirements of the Act and in particular with the requirements of Section 17A of the Act⁹ and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁰ that the proposed rule change (File No. SR-ICEEU-2016-004) as amended by Amendment No. 1, be, and hereby is, approved.¹¹

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹²

Robert W. Errett,

Deputy Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-77938; File No. SR-OCC-2016-007]

Self-Regulatory Organizations; The Options Clearing Corporation; Notice of Filing of Proposed Rule Change Related to The Options Clearing Corporation's Membership Approval Process

May 27, 2016.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 16, 2016, The Options Clearing Corporation ("OCC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared primarily by OCC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Clearing Agency's Statement of the Terms of Substance of the Proposed Rule Change

The purpose of this proposed rule change is to: (i) Vest the authority to approve or disapprove new membership applications with OCC's Risk Committee,³ and (ii) delegate authority to the Executive Chairman or President of OCC to approve new membership applications provided that: (a) It is not recommended that the Risk Committee impose additional membership criteria upon the applicant pursuant to Section 1, Interpretation and Policy .06 of Article V of OCC's By-Laws, and (b) the Risk Committee is given not less than five business days to determine that the application should be reviewed at a meeting of the Risk Committee and the Risk Committee has not requested that the application be reviewed at a meeting of the Risk Committee within such five day period.

II. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, OCC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified

in Item IV below. OCC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.

(A) Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(1) Purpose

The purpose of this proposed rule change is to streamline OCC's membership approval process by: (i) Allowing OCC's Executive Chairman or President to approve pro forma applications for clearing membership, and (ii) to vest ultimate authority with OCC's Risk Committee, not its Board, to approve or disapprove applications for clearing membership that are not approved by either OCC's Executive Chairman or President. To this end, OCC is proposing to: (i) Vest the authority to approve or disapprove new membership applications with OCC's Risk Committee, and (ii) delegate authority to the Executive Chairman or President of OCC to approve new membership applications provided that: (a) It is not recommended by the Risk Committee's designated delegates or agents that the Risk Committee impose additional membership criteria upon the applicant pursuant to Section 1, Interpretation and Policy .06 of Article V of OCC's By-Laws, and (b) the Risk Committee is given not less than five business days to determine that the application should be reviewed at a meeting of the Risk Committee and the Risk Committee has not requested that the application be reviewed at a meeting of the Risk Committee within such five day period. The practical effect of the proposed rule change is that either OCC's Executive Chairman or President would be approving most applications for clearing membership at OCC since most applicants for clearing membership choose to have their application presented for approval only when such approval is pro forma in nature (*i.e.*, the applicant meets all of the clearing membership requirements at OCC and there is no need to impose additional membership requirements). OCC believes that the proposed rule change would better allocate the time and resources of the Board and Risk Committee and ensure applications for clearing membership are considered in a timely manner.

Background

OCC believes that its membership criteria are objective standards that are designed not to unfairly discriminate in

⁹ 15 U.S.C. 78q-1.

³ OCC's Risk Committee is a committee of OCC's Board of Directors. See OCC's By-Laws Article III, Section 9.

the admission of participants to OCC,⁴ as well as to provide for fair and open access to OCC.⁵ Currently, the authority to approve or disapprove new applications for clearing membership resides with the Board.⁶ Under Article V, Section 2 of OCC's By-Laws, OCC's Risk Committee, including its designated delegates or agents, is responsible for reviewing applications for clearing membership, and the Risk Committee is responsible for making a recommendation of approval or disapproval to the Board (in part, relying on OCC's Management's review and recommendation).⁷ OCC's management ("Management") performs the substantive review of applications for clearing membership on behalf of the Risk Committee. Management reviews a given application against OCC's membership criteria, which are set forth in Article V of OCC's By-Laws as well as Chapters 2 and 3 of OCC's Rules. Based on its review, Management, as the subject matter expert on OCC's membership criteria, either recommends an application for approval without conditions, recommends an application for approval with conditions (in accordance with OCC's By-Laws, Article V, Section 1, Interpretation and Policy .06), or does not recommend an application for approval. The Risk Committee, based on Management's review of the application, recommends a course of action to OCC's Board. OCC's Board then approves or disapproves applications for clearing membership based on the Risk Committee's recommendation.

Moreover, since the rules of the Commission and the Commodity Futures Trading Commission require OCC to have rules that do not unfairly discriminate in the admission of participants and provide fair and open access,⁸ OCC believes that, under its rules, it is required to admit applicants for clearing membership that clearly meet OCC's membership criteria, and therefore, the Board's ultimate approval of an application for clearing membership for which Management does not recommend approval with conditions or disapproval is pro forma. From a timing perspective, applications

for clearing membership often do not track the Risk Committee or Board's regular meeting schedule and, on occasion, the Board has had to convene a special meeting for the sole purpose of considering an application for clearing membership or otherwise seek *[sic]* approval via unanimous written consent, which is an inefficient use of the Board's time and resources. In an effort to better allocate the time and resources of OCC's Board and Risk Committee as well as streamline its clearing membership approval process, OCC is proposing the amendments to Articles V and VIII of its By-Laws as well as the Board and Risk Committee Charters described below. The effect of such amendments is that either OCC's Executive Chairman or President would approve most applications for clearing membership, thereby allowing the Board and the Risk Committee to better allocate their time and resources.

Changes To Vest Authority of New Applicant Approvals With the Risk Committee

OCC is proposing to amend Article V, Section 2 of its By-Laws to vest the authority to approve or disapprove new applicants for clearing membership with the Risk Committee. OCC believes that the members of the Board comprising the Risk Committee are capable of appropriately acting on membership applications. The Risk Committee is currently delegated the authority to (1) review applications for clearing membership and recommend approval or disapproval thereof to the Board, (2) conduct hearings if requested by applicants whose applications are proposed to be disapproved, and (3) review and approve or disapprove requests by clearing members to expand clearing activities.⁹ Therefore, OCC believes that requiring the Board to approve or disapprove an application for clearing membership that has already been reviewed by, and received a recommendation for approval or disapproval from, the Risk Committee is redundant and represents an inefficient use of the Board's time. Accordingly, OCC believes that the Risk Committee is the appropriate governing body in which to vest ultimate authority to approve or disapprove applications for clearing membership.¹⁰ Should the Risk

Committee propose to disapprove an application for clearing membership, the Risk Committee must first provide the applicant an opportunity to be heard and present evidence on its own behalf (as is currently the case today with respect to the Board's decision to disapprove an application for clearing membership).¹¹

In order to effect the foregoing, and in addition to proposed changes to Article V, Section 2 of the By-Laws, OCC is proposing conforming changes to Article V, Sections 1 and 3 of the By-Laws as well as the Board and Risk Committee Charters.¹² Such conforming changes would identify that the Risk Committee, and not the Board, would approve applications for clearing membership. Additionally, OCC is proposing changes to Article VIII, Section 2 of the By-Laws (as well as the Board and Risk Committee Charters) to identify that the Risk Committee, and not the Board, would set initial clearing fund requirements in connection with the approval of an application for clearing membership.

Delegation of Authority To Approve Applications for Membership to the Executive Chairman or President of OCC

In order to better streamline OCC's membership application approval process, and allow the Board and the Risk Committee to more efficiently allocate their time, OCC is proposing additional amendments to Article V, Section 2 of its By-Laws to allow OCC's Executive Chairman or its President to approve certain applications for clearing membership. As described above: (i) OCC believes that, based on the applicable rules of the Commission and the Commodity Futures Trading Commission, applications for clearing membership that clearly meet OCC's membership criteria must be approved,¹³ and (ii) applications for clearing members do not necessarily track the Risk Committee or Board's regular meeting schedule and, on occasion, the Board has had to convene in a special meeting for the sole purpose of considering a clearing member

applications for clearing membership pursuant to proposed Article V, Section 2(c) of the By-Laws.

¹¹ See OCC's By-Laws Article V, Section 2. Typically, however, if OCC's due diligence review reveals issues that would prevent the Board or the Risk Committee from approving an application for clearing membership, the applicant voluntarily remediates such issues prior to the presentation of the application for clearing membership to the Risk Committee.

¹² Marked versions of the Board and Risk Committee Charters are attached as Exhibits 5A and 5B.

¹³ See 15 U.S.C. 78q-1(b)(3)(F) and 7 U.S.C. 7a-1(c)(2)(C).

⁴ See 15 U.S.C. 78q-1(b)(3)(F).

⁵ See 7 U.S.C. 7a-1(c)(2)(C)(iii)(III).

⁶ See OCC's By-Laws Article V, Section 2.

⁷ See OCC's By-Laws Article V, Section 2. The Risk Committee, from a practical perspective, has designated OCC's management as its agent to review applications for clearing membership. OCC's management reviews applications for clearing membership and makes a recommendation to the Risk Committee concerning the applicant's satisfaction of OCC's membership criteria.

⁸ See 15 U.S.C. 78q-1(b)(3)(F) and 7 U.S.C. 7a-1(c)(2)(C).

⁹ See Section IV of the Risk Committee Charter attached hereto as Exhibit 5B.

¹⁰ The Board would continue to oversee OCC's membership criteria and ongoing membership standards through its authority to approve changes to OCC's By-Laws and Rules (and specifically those By-Laws and Rules that concern membership). The Risk Committee would inform the Board, at the Board's next regularly scheduled meeting, of

application or otherwise seek approval via unanimous written consent, which is not a good use of either the Board or the Risk Committee's time and resources. Therefore, OCC is proposing to amend Article V, Section 2 of its By-Laws to delegate the authority to approve applications for clearing membership to the Executive Chairman or President of OCC provided that: (i) It is not recommended that the Risk Committee impose additional membership criteria upon the applicant pursuant to Section 1, Interpretation and Policy .06 of Article V of OCC's By-Laws, and (ii) the Risk Committee is given not less than five business days from the date it is notified by its designated delegates or agents that the Executive Chairman or President intends to approve a given application to determine that such application should be reviewed at a meeting of the Risk Committee and the Risk Committee has not requested that the application be reviewed at a meeting of the Risk Committee within such five day period. If five business days pass and no member of the Risk Committee notifies Management that a given application for clearing membership should be reviewed at a meeting of the Risk Committee, then the Executive Chairman and President shall have the authority to approve the application for clearing membership. This proposed change would have the effect of allowing either OCC's Executive Chairman or the President to approve most applications for clearing membership received by OCC. Neither the Executive Chairman nor the President would be allowed to disapprove an application for clearing membership. Instead, if either the Executive Chairman or President determined he could not approve an application for clearing membership, the application would be considered by the Risk Committee for approval or disapproval at its next regularly scheduled meeting. OCC believes that allowing the Executive Chairman or President to approve applications for clearing membership that clearly meet OCC's membership criteria would allow the Board and the Risk Committee to allocate their time to more efficiently and effectively.

(2) Statutory Basis

OCC believes that the proposed rule change is consistent with Section 17A(b)(3)(F)¹⁴ of the Act because it is designed to remove impediments to a national system for the prompt and accurate clearance and settlement of

securities transactions by streamlining OCC's membership approval process. By vesting the authority to approve or disapprove applications for clearing membership with the Risk Committee and by delegating authority to the Executive Chairman or the President to approve new applications provided that: (i) It is not recommended that the Risk Committee impose additional membership criteria upon the applicant pursuant to Section 1, Interpretation and Policy .06 of Article V of OCC's By-Laws, and (ii) the Risk Committee is given not less than five business days to determine that the application should be reviewed at a meeting of the Risk Committee and the Risk Committee has not requested that the application be reviewed at a meeting of the Risk Committee within such five day period, OCC will not subject applicants for clearing membership to the regular meeting cycle of the Board or the Risk Committee, particularly when the approval of an application for clearing membership is pro forma in nature. Additionally, by streamlining OCC's membership approval process in this manner, OCC's Board and Risk Committee will be able to deploy their time and resources in a more efficient manner and allow the Board and Risk Committee more time to focus on other matters of significance to OCC and its role as a systemically important financial market utility. As a result, OCC believes the proposed rule change is also reasonably designed to provide for governance arrangements that are clear and transparent to fulfill the public interest requirements in Section 17A of the Act¹⁵ applicable to clearing agencies and support the objectives of owners and participants in accordance with Rule 17Ad-22(d)(8).¹⁶ The proposed rule change is not inconsistent with any rules of OCC, including those rules proposed to be amended.

(B) Clearing Agency's Statement on Burden on Competition

OCC does not believe that the proposed rule change would impact or impose a burden on competition.¹⁷ OCC believes that the proposed rule change would not disadvantage or favor any particular user of OCC's services in relationship to another user because it would apply equally to all potential users of OCC, and would not impact current users of OCC. For the foregoing reasons, OCC does not believe that the proposed rule change would have any

impact or impose a burden on competition.

(C) Clearing Agency's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments on the proposed rule change were not and are not intended to be solicited with respect to the proposed rule change and none have been received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve or disapprove the proposed rule change or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-OCC-2016-007 on the subject line.

Paper Comments

- Send paper comments in triplicate to Brent J. Fields, Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090.

All submissions should refer to File Number SR-OCC-2016-007. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the

¹⁴ 15 U.S.C. 78q-1(b)(3)(F).

¹⁵ 15 U.S.C. 78q-1.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–77931; File No. SR–ISEMercury–2016–07]

Self-Regulatory Organizations; ISE Mercury, LLC; Order Approving Proposed Rule Change Related to Market Wide Risk Protection

May 26, 2016.

I. Introduction

On March 29, 2016, ISE Mercury, LLC (the “Exchange” or “ISE Mercury”) filed with the Securities and Exchange Commission (“Commission”) pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b–4 thereunder,² a proposed rule change to introduce new activity-based risk protection functionality. The proposed rule change was published for comment in the **Federal Register** on April 14, 2016.³ No substantive comment letters were received in

response to this proposal.⁴ This order approves the proposed rule change.

II. Description of the Proposed Rule Change

The Exchange proposed to introduce two activity-based risk protection measures that will be mandatory for all members: (1) The “Order Entry Rate Protection,” which prevents members from *entering* orders at a rate that exceeds predefined thresholds,⁵ and (2) the “Order Execution Rate Protection,” which prevents members from *executing* orders at a rate that exceeds their predefined risk settings (together, “Market Wide Risk Protection”). The Exchange will announce the implementation date of the proposed rule in a circular to be distributed to members prior to implementation.⁶

Pursuant to proposed Rule 714(d), “Market Wide Risk Protection,” the Exchange’s trading system (the “System”) will maintain one or more counting programs on behalf of each member that will track the number of orders entered and the number of contracts traded on ISE Mercury.⁷ Members may also use multiple counting programs to separate risk protections for different groups established within the member.⁸ The counting programs will maintain separate counts, over rolling time periods specified by the member, for each count of: (1) The total number of orders entered; and (2) the total number of contracts traded.⁹

⁴ The Commission received one anonymous comment letter that read “[g]ood.” See Letter from Anonymous, dated May 3, 2016.

⁵ The Exchange stated that it will initiate the Order Entry Rate Protection pre-open, but in a manner that allows members time to load their orders without inadvertently triggering the protection. The Exchange further noted that it will establish and communicate the precise initiation time via circular and prior to implementation. See Notice, *supra* note 3, at 22141 n.4.

⁶ See Notice, *supra* note 3, at 22141.

⁷ Unlike similar risk protection measures available on ISE Mercury’s affiliated exchanges, the Market Wide Risk Protection functionality for ISE Mercury will not apply cross-market to its affiliated exchanges. *Cf., e.g.*, Securities Exchange Act Release Nos. 77489 (Mar. 31, 2016), 81 FR 20004 (Apr. 6, 2016) (SR–ISE–2016–08) (notice describing International Securities Exchange, LLC’s Market Wide Risk Protection functionality); and 77488 (Mar. 31, 2016), 81 FR 20021 (Apr. 6, 2016) (SR–ISEGemini–2016–03) (notice describing ISE Gemini, LLC’s Market Wide Risk Protection functionality). See also Notice, *supra* note 3, at 22141 n.6.

⁸ The Exchange stated that it will explain how members can go about setting up risk protections for different groups (*e.g.*, business units) in a circular issued to members. See Notice, *supra* note 3, at 22141 n.7.

⁹ See proposed Rule 714(d). The Exchange clarified that a member’s allowable order rate for the Order Entry Rate Protection will be comprised of parameter (1), while the allowable contract execution rate for the Order Execution Rate

According to the Exchange, members will have the discretion to establish the applicable time period for each of the counts maintained under the Market Wide Risk Protection, provided that the selected period is within minimum and maximum time parameters that will be established by the Exchange and announced via circular.¹⁰ By contrast, the Exchange’s proposal does not establish minimum or maximum values for the order entry or execution parameters described in (1) and (2) above. Nevertheless, the Exchange will establish default values¹¹ for the time period, order entry, and contracts traded parameters in a circular to be distributed to members. The Exchange represented that such default values will apply only to members that do not submit their own parameters for the Market Wide Risk Protection measures.¹²

Under proposed Rule 714(d), the System will trigger the Market Wide Risk Protection when it determines that the member has either (1) entered a number of orders exceeding its designated allowable order rate for the specified time period, or (2) executed a number of contracts exceeding its designated allowable contract execution rate for the specified time period.¹³ If the member’s thresholds have been exceeded, the Market Wide Risk Protection will be triggered and the System will automatically reject all subsequent incoming orders entered by the member on ISE Mercury. In addition, if the member has opted in to this functionality, the System will automatically cancel all of the member’s existing orders.¹⁴ The Market Wide Risk Protection will remain engaged until the member manually (*e.g.*, via email)

Protection will be comprised of parameter (2). The Exchange further explained that contracts executed on the agency and contra-side of a two-sided crossing order will be counted separately for the Order Execution Rate Protection. See Notice, *supra* note 3, at 22141.

¹⁰ See Notice, *supra* note 3, at 22141. The Exchange stated that it anticipated setting these minimum and maximum time parameters at one second and a full trading day, respectively. See *id.* at n.9.

¹¹ See proposed Rule 714(d); see also Notice, *supra* note 3, at 22141.

¹² See Notice, *supra* note 3, at 22141.

¹³ *Id.*; see also proposed Rule 714(d)(1). Specifically, after a member enters or executes an order, the System will look back over the specified time period to determine whether the member has exceeded the relevant thresholds. See Notice, *supra* note 3, at 22141. In the Notice, the Exchange provided examples illustrating how the Market Wide Risk Protection functionality would work both for order entry and order execution protections. See Notice, *supra* note 3, at 22141–42.

¹⁴ Proposed Rule 714(d)(2).
