

confidential information. All the other completed model trust certificates and model trust documents (except for any trust provisions that relate to the testamentary disposition of trust assets) are retained and made publicly available based upon a proper request under EIGA (by filling out an OGE Form 201 access form) until the periods for retention of all other reports (usually the OGE Form 278 Public Financial Disclosure Reports) of the individual establishing the trust have lapsed (generally six years after the filing of the last other report). See 5 CFR 2634.603(g)(2) of OGE's executive branch financial disclosure regulation.

The U.S. Office of Government Ethics administers the qualified trust program for the executive branch. At the present time, there are no active filers using the trust model certificates and documents. However, OGE intends to submit to OMB a request for extension of approval for two reasons. First, under OMB's implementing regulations for the Paperwork Reduction Act, at 5 CFR 1320.3(c)(4)(i), any recordkeeping, reporting or disclosure requirement contained in a sponsoring agency rule of general applicability is deemed to meet the minimum threshold of ten or more persons. Second, OGE does anticipate possible limited use of these forms during the forthcoming three-year period 2016–2019. Therefore, the estimated burden figures, representing branchwide implementation of the forms, will remain the same as previously reported by OGE in its prior first and second round paperwork renewal notice for the trust forms (77 FR 76293–76294 (December 27, 2012) and 78 FR 40144–40146 (July 3, 2013)). The estimate is based on the amount of time imposed on a trust administrator or private representative.

i. Trust Certificates:

A. Certificate of Independence: Total filers (executive branch): 5; private citizen filers (100%): 5; private citizen burden hours (20 minutes/certificate): 2.

B. Certificate of Compliance: Total filers (executive branch): 10; private citizen filers (100%): 10; private citizen burden hours (20 minutes/certificate): 3; and

ii. Model Qualified Trust Documents:

A. Blind Trust Communications: Total users (executive branch): 5; private citizen users (100%): 5; communications documents (private citizens): 25 (based on an average of five communications per user, per year); private citizen burden hours (20 minutes/communication): 8.

B. Model Qualified Blind Trust: Total users (executive branch): 2; private

citizen users (100%): 2; private citizen burden hours (100 hours/model): 200.

C. Model Qualified Diversified Trust: Total users (executive branch): 1; private citizen users (100%): 1; private citizen burden hours (100 hours/model): 100.

D.–H. Of the five remaining model qualified trust documents: Total users (executive branch): 2; private citizen users (100%): 2; private citizen burden hours (100 hours/model): 200.

I.–J. Of the two model confidentiality agreements: Total users (executive branch): 1; private citizen users (100%): 1; private citizen burden hours (50 hours/agreement): 50.

However, the total annual reporting hour burden on filers themselves is zero and not the 563 hours estimated above because OGE's estimating methodology reflects the fact that all respondents hire private trust administrators or other private representatives to set up and maintain the qualified blind and diversified trusts. Respondents themselves, typically incoming private citizen Presidential nominees, therefore incur no hour burden. The estimated total annual cost burden to respondents resulting from the collection of information is \$1,000,000. Those who use the model documents for guidance are private trust administrators or other private representatives hired to set up and maintain the qualified blind and diversified trusts of executive branch officials who seek to establish such qualified trusts. The cost burden figure is based primarily on OGE's knowledge of the typical trust administrator fee structure (an average of 1 percent of total assets) and OGE's experience with administration of the qualified trust program. The \$1,000,000 annual cost figure is based on OGE's estimate of an average of five possible active trusts anticipated to be under administration for each of the next three years with combined total assets of \$100,000,000. However, OGE notes that the \$1,000,000 figure is a cost estimate for the overall administration of the trusts, only a portion of which relates to information collection and reporting. For want of a precise way to break out the costs directly associated with information collection, OGE is continuing to report to OMB the full \$1,000,000 estimate for paperwork clearance purposes.

On March 4, 2016, OGE published a first round notice of its intent to request paperwork clearance for the proposed unmodified qualified trust certificates and modified model trust documents. See 81 FR 11566–11567. OGE did not receive any responses to that notice.

In this second notice, public comment is again invited on the model qualified

trust certificates and model trust documents, and underlying regulatory provisions, as set forth in this notice, including specific views on the need for and practical utility of this set of collections of information, the accuracy of OGE's burden estimate, the potential for enhancement of quality, utility and clarity of the information collected, and the minimization of burden (including the use of information technology).

Comments received in response to this notice will be summarized for, and may be included with, the OGE request for extension of the OMB paperwork approval for the set of the various existing qualified trust model certificates, the model communications package, and the model trust documents. The comments will also become a matter of public record.

Approved: May 27, 2016.
