

Size (belt profile)	Outside diameter (inches)	Top width range of each groove (inches)	Maximum height (inches)	Angle
MA/AK (A, 3L, 4L)	≤5.45	0.484–0.499	0.531	34°
MA/AK (A, 3L, 4L)	>5.45 but ≤18.75	0.499–0.509	0.531	38°
MB/BK (A, B, 4L, 5L)	≤7.40	0.607–0.618	0.632	34°
MB/BK (A, B, 4L, 5L)	>7.40 but ≤18.75	0.620–0.631	0.635	38°

In addition to the above characteristics, excludable LDFPN sheaves must also have a maximum weight (pounds-per-piece) as follows: For excludable LDFPN sheaves with one groove and an outside diameter of greater than 4.0 inches but less than or equal to 8.0 inches, the maximum weight is 4.7 pounds; for excludable LDFPN sheaves with two grooves and an outside diameter of greater than 4.0 inches but less than or equal to 8.0 inches, the maximum weight is 8.5 pounds; for excludable LDFPN sheaves with one groove and an outside diameter of greater than 8.0 inches but less than or equal to 12.0 inches, the maximum weight is 8.5 pounds; for excludable LDFPN sheaves with two grooves and an outside diameter of greater than 8.0 inches but less than or equal to 12.0 inches, the maximum weight is 15.0 pounds; for excludable LDFPN sheaves with one groove and an outside diameter of greater than 12.0 inches but less than or equal to 15.0 inches, the maximum weight is 13.3 pounds; for excludable LDFPN sheaves with two grooves and an outside diameter of greater than 12.0 inches but less than or equal to 15.0 inches, the maximum weight is 17.5 pounds; for excludable LDFPN sheaves with one groove and an outside diameter of greater than 15.0 inches but less than or equal to 18.75 inches, the maximum weight is 16.5 pounds; and for excludable LDFPN sheaves with two grooves and an outside diameter of greater than 15.0 inches but less than or equal to 18.75 inches, the maximum weight is 26.5 pounds.

The scope also excludes light-duty, variable-pitch, non-synchronous sheaves with each of the following characteristics: Made from grey iron designated as ASTM (North American specification) Grade 30 or lower, GB/T (Chinese specification) Grade HT200 or lower, DIN (German specification) GG 20 or lower, or EN (European specification) EN–GJL 200 or lower; having no more than 2 grooves; having a maximum overall width of less than 2.25 inches with a single groove, or of 3.25 inches or less with two grooves; having a maximum outside diameter of not more than 7.5 inches; having a maximum bore size of 1.625 inches; having either one or two identical, internally-threaded (*i.e.*, with threads on the inside diameter), adjustable (rotating) flange(s) on an externally-threaded hub (*i.e.*, with threads on the outside diameter) that enable(s) the width (opening) of the groove to be changed; and having no teeth on the outside or datum diameter.

The scope also excludes certain IMTDC bushings. An IMTDC bushing is excluded only if it has a tapered angle of greater than or equal to 10 degrees, where the angle is measured between one outside tapered

surface and the directly opposing outside tapered surface.

The merchandise covered by this investigation is currently classifiable under Harmonized Tariff Schedule of the United States (“HTSUS”) subheadings 8483.30.8090, 8483.50.6000, 8483.50.9040, 8483.50.9080, 8483.90.3000, 8483.90.8080. Covered merchandise may also enter under the following HTSUS subheadings: 7325.10.0080, 7325.99.1000, 7326.19.0010, 7326.19.0080, 8431.31.0040, 8431.31.0060, 8431.39.0010, 8431.39.0050, 8431.39.0070, 8431.39.0080, and 8483.50.4000. These HTSUS subheadings are provided for convenience and customs purposes. The written description of the scope of the investigation is dispositive.

Circular Welded Carbon-Quality Steel Pipe From the United Arab Emirates: Affirmative Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Department) preliminarily determines that circular welded carbon-quality steel pipe (CWP) from the United Arab Emirates (UAE) is being, or is likely to be, sold in the United States at less than fair value (LTFV), as provided in section 733(b) of the Tariff Act of 1930, as amended (the Act). The period of investigation (POI) is October 1, 2014, through September 30, 2015. The estimated weighted-average dumping margins of sales at LTFV are shown in the “Preliminary Determination” section of this notice. Interested parties are invited to comment on this preliminary determination.

DATES: Effective June 8, 2016.

FOR FURTHER INFORMATION CONTACT:

Whitley Herndon or Dennis McClure, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th

Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–6274 or (202) 482–5973, respectively.

SUPPLEMENTARY INFORMATION:

Background

The Department initiated this investigation on November 17, 2015.¹ For a complete description of the events that followed the initiation of this investigation, *see* the memorandum that is dated concurrently with this determination and hereby adopted by this notice.² There are two mandatory respondents participating in this investigation, Ajmal Steel Tubes & Pipes Ind. L.L.C. (Ajmal Steel) and Universal Tube and Plastic Industries, LLC—Jebel Ali Branch, Universal Tube and Pipe Industries, and KHK Scaffolding and Framework LLC (collectively, Universal). The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>, and to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be found at <http://enforcement.trade.gov/frn/>. The signed Preliminary Decision Memorandum and the electronic version of the Preliminary Decision Memorandum are identical in content.

Scope of the Investigation

The product covered by this investigation is CWP from the UAE.

¹ *See Circular Welded Carbon-Quality Steel Pipe from the Sultanate of Oman, Pakistan, the Philippines, the United Arab Emirates, and the Socialist Republic of Vietnam: Initiation of Less-Than-Fair-Value Investigations*, 80 FR 73708 (November 25, 2015).

² *See Memorandum from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Enforcement and Compliance, entitled “Decision Memorandum for the Preliminary Determination in the Antidumping Duty Investigation of Circular Welded Carbon-Quality Steel Pipe From the United Arab Emirates” (Preliminary Decision Memorandum), dated concurrently with this notice.*

Interested parties filed comments regarding the scope of the investigation, which resulted in one clarification to the scope language and are addressed, in detail, in the Department's Preliminary Scope Decision Memorandum.³ For a full description of the scope of this investigation, see the "Scope of the Investigation," in Appendix I of this notice.

Methodology

The Department is conducting this investigation in accordance with section 731 of the Act. Export price and, where appropriate, constructed export price are calculated in accordance with section 772 of the Act and normal value (NV) is calculated in accordance with section 773 of the Act. For a full description of the methodology underlying our preliminary conclusions, see the Preliminary Decision Memorandum.

All-Others Rate

Consistent with sections 733(d)(1)(A)(ii) and 735(c)(5) of the Act, the Department also calculated an estimated all-others rate. Section 735(c)(5)(A) of the Act provides that the estimated all-others rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero and *de minimis* margins, and any margins determined entirely under section 776 of the Act.

In this investigation, we based our calculation of the all-others rate on the weighted-average of the margins calculated for Ajmal and Universal using publicly ranged data. We cannot calculate a weighted-average margin based on the actual data reported by the respondents because doing so may potentially reveal their business proprietary information. Accordingly, we find this rate, which is based on publicly ranged data that respondents reported to be the best proxy of the weighted-average margin based on these respondents' actual data. For further discussion of this calculation, see the memorandum entitled "Circular Welded Carbon-Quality Steel Pipe from the United Arab Emirates: Calculation of the Preliminary Margin for All Other

³ See Department Memorandum, "Antidumping Duty Investigations of Circular Welded Carbon-Quality Steel Pipe from the Sultanate of Oman, Pakistan, the United Arab Emirates, and the Socialist Republic of Vietnam and Countervailing Duty Investigation of Circular Welded Carbon-Quality Steel Pipe from Pakistan; Scope Comments Decision Memorandum for the Preliminary Determination," April 1, 2016 (Preliminary Scope Decision Memorandum).

Companies," dated concurrently with this notice.

Preliminary Determination⁴

The Department preliminarily determines that the following weighted-average dumping margins exist:

Exporter/ manufacturer	Weighted- average dumping margin (percent)
Ajmal Steel Tubes & Pipes Ind. L.L.C	6.10
Universal Tube and Plastic Industries, LLC—Jebel Ali Branch, Universal Tube and Pipe Industries, and KHK Scaffolding and Framework LLC	9.25
All Others	7.86

Suspension of Liquidation

In accordance with section 733(d)(2) of the Act, we will direct U.S. Customs and Border Protection (CBP) to suspend liquidation of all entries of subject merchandise from the UAE, as described in Appendix I of this notice, for all companies, which are entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**.

Pursuant to section 733(d) of the Act and 19 CFR 351.205(d), we will instruct CBP to require cash deposits⁵ equal to the weighted-average amount by which the NV exceeds U.S. price, as indicated in the chart above, as follows: (1) The rate for the mandatory respondents listed above will be the respondent-specific rates we determined in this preliminary determination; (2) if the exporter is not a mandatory respondent identified above, but the producer is, the rate will be the specific rate established for the producer of the subject merchandise; and (3) the rate for all other producers or exporters will be the all-others rate. These suspension of liquidation instructions will remain in effect until further notice.

Disclosure

We will disclose the calculations performed to interested parties in this

⁴ On March 14, 2016, the Department postponed the preliminary determination in this investigation until May 31, 2016; see *Circular Welded Carbon-Quality Steel Pipe from the United Arab Emirates, Pakistan, the United Arab Emirates, and the Socialist Republic of Vietnam: Postponement of Preliminary Determinations of Antidumping Duty Investigations*, 81 FR 15039 (March 21, 2016).

⁵ See *Modification of Regulations Regarding the Practice of Accepting Bonds During the Provisional Measures Period in Antidumping and Countervailing Duty Investigations*, 76 FR 61042 (October 3, 2011).

proceeding within five days of the announcement of this preliminary determination in accordance with 19 CFR 351.224(b).

Verification

As provided in section 782(i) of the Act, we intend to verify information relied upon in making our final determination.

Public Comment

Interested parties are invited to comment on this preliminary determination. Case briefs or other written comments concerning scope issues may be submitted to the Assistant Secretary for Enforcement and Compliance no later than 30 days from the publication of this notice, and rebuttal briefs, limited to scope issues raised in the case briefs, may be submitted no later than five days after the deadline date for case briefs. Scope-related briefs/comments must be filed on the record of this investigation and the concurrent antidumping and countervailing duty CWP investigations. Case briefs or other written comments on non-scope issues may be submitted to the Assistant Secretary for Enforcement and Compliance no later than seven days after the date on which the final verification report is issued in this proceeding, and rebuttal briefs, limited to non-scope issues raised in the case briefs, may be submitted no later than five days after the deadline date for case briefs.⁶ Pursuant to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in this proceeding are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce. All documents must be filed electronically using ACCESS. An electronically-filed request must be received successfully in its entirety by ACCESS by 5:00 p.m. Eastern Time, within 30 days after the date of publication of this notice. Requests should contain the party's name, address, and telephone number, the number of participants, and a list of the issues to be discussed. If a request for a hearing is made, the Department intends to hold the hearing at the U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230, at a time and

⁶ See 19 CFR 351.309.

date to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

Postponement of Final Determination and Extension of Provisional Measures

Section 735(a)(2) of the Act provides that a final determination may be postponed until not later than 135 days after the date of the publication of the preliminary determination if, in the event of an affirmative preliminary determination, a request for such postponement is made by exporters who account for a significant proportion of exports of the subject merchandise. 19 CFR 351.210(e)(2) requires that requests by respondents for postponement of a final determination be accompanied by a request for extension of provisional measures from a four-month period to a period not more than six months in duration.

Ajmal and Universal, the respondents, requested that, in the event of an affirmative preliminary determination in this investigation, the Department postpone its final determination by 60 days (*i.e.*, to 135 days after publication of the preliminary determination), and agreed to extend the application of the provisional measures prescribed under section 733(d) of the Act and 19 CFR 351.210(e)(2), from a four-month period to a period not to exceed six months.^{7 8}

In accordance with sections 735(a)(2)(A) and 733(d) of the Act and 19 CFR 351.210(b)(2)(ii) and (e)(2), because (1) our preliminary determination is affirmative; (2) the requesting exporters account for a significant proportion of exports of the subject merchandise; (3) the requesting exporters have requested extension of provisional measures to a period not more than six months; and (4) no compelling reasons for denial exist, we are postponing the final determination until no later than 135 days after the publication of this notice in the **Federal Register** and extending the provisional measures from a four-month period to a period not greater than six months. Accordingly, we will issue our final determination no later than 135 days after the date of publication of this

preliminary determination, pursuant to section 735(a)(2) of the Act.⁹

International Trade Commission (ITC) Notification

In accordance with section 733(f) of the Act, we will notify the ITC of our affirmative preliminary determination of sales at LTFV. If our final determination is affirmative, the ITC will determine before the later of 120 days after the date of this preliminary determination or 45 days after our final determination whether these imports are materially injuring, or threaten material injury to, the U.S. industry.

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act and 19 CFR 351.205(c).

Dated: May 31, 2016.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

This investigation covers welded carbon-quality steel pipes and tube, of circular cross-section, with an outside diameter (O.D.) not more than nominal 16 inches (406.4 mm), regardless of wall thickness, surface finish (*e.g.*, black, galvanized, or painted), end finish (plain end, beveled end, grooved, threaded, or threaded and coupled), or industry specification (*e.g.*, American Society for Testing and Materials International (ASTM), proprietary, or other), generally known as standard pipe, fence pipe and tube, sprinkler pipe, and structural pipe (although subject product may also be referred to as mechanical tubing). Specifically, the term “carbon quality” includes products in which:

- (a) iron predominates, by weight, over each of the other contained elements;
- (b) the carbon content is 2 percent or less, by weight; and
- (c) none of the elements listed below exceeds the quantity, by weight, as indicated:
 - (i) 1.80 percent of manganese;
 - (ii) 2.25 percent of silicon;
 - (iii) 1.00 percent of copper;
 - (iv) 0.50 percent of aluminum;
 - (v) 1.25 percent of chromium;
 - (vi) 0.30 percent of cobalt;
 - (vii) 0.40 percent of lead;
 - (viii) 1.25 percent of nickel;
 - (ix) 0.30 percent of tungsten;
 - (x) 0.15 percent of molybdenum;
 - (xi) 0.10 percent of niobium;
 - (xii) 0.41 percent of titanium;
 - (xiii) 0.15 percent of vanadium; or
 - (xiv) 0.15 percent of zirconium.

Covered products are generally made to standard O.D. and wall thickness combinations. Pipe multi-stenciled to a standard and/or structural specification and to other specifications, such as American Petroleum Institute (API) API-5L specification, may also be covered by the scope of these investigations. In particular,

such multi-stenciled merchandise is covered when it meets the physical description set forth above, and also has one or more of the following characteristics: is 32 feet in length or less; is less than 2.0 inches (50 mm) in outside diameter; has a galvanized and/or painted (*e.g.*, polyester coated) surface finish; or has a threaded and/or coupled end finish.

Standard pipe is ordinarily made to ASTM specifications A53, A135, and A795, but can also be made to other specifications. Structural pipe is made primarily to ASTM specifications A252 and A500. Standard and structural pipe may also be produced to proprietary specifications rather than to industry specifications.

Sprinkler pipe is designed for sprinkler fire suppression systems and may be made to industry specifications such as ASTM A53 or to proprietary specifications.

Fence tubing is included in the scope regardless of certification to a specification listed in the exclusions below, and can also be made to the ASTM A513 specification. Products that meet the physical description set forth above but are made to the following nominal outside diameter and wall thickness combinations, which are recognized by the industry as typical for fence tubing, are included despite being certified to ASTM mechanical tubing specifications:

O.D. in inches (nominal)	Wall thickness in inches (nominal)	Gage
1.315	0.035	20
1.315	0.047	18
1.315	0.055	17
1.315	0.065	16
1.315	0.072	15

4.000	0.148	9
4.000	0.165	8
4.500	0.203	7

The scope of this investigation does not include:

- (a) Pipe suitable for use in boilers, superheaters, heat exchangers, refining

⁷ See Letter from Ajmal entitled, “Circular Welded Carbon-Quality Steel Pipe from the United Arab Emirates: Request to Postpone the Final Determination,” Amendment to Request to Postpone Final Determination,” dated May 5, 2016.

⁸ See Letters from Universal entitled, “Circular Welded Carbon-Quality Steel Pipe from the United Arab Emirates, Case No. A-520-807: Request to Postpone Final Determination” and “Circular Welded Carbon-Quality Steel Pipe from the United Arab Emirates, Case No. A-520-807: Amendment to Request to Postpone Final Determination,” dated May 5, 2016.

⁹ See 19 CFR 351.210(b)(2) and (e).

furnaces and feedwater heaters, whether or not cold drawn, which are defined by standards such as ASTM A178 or ASTM A192;

(b) finished electrical conduit, *i.e.*, Electrical Rigid Steel Conduit (also known as Electrical Rigid Metal Conduit and Electrical Rigid Metal Steel Conduit), Finished Electrical Metallic Tubing, and Electrical Intermediate Metal Conduit, which are defined by specifications such as American National Standard (ANSI) C80.1–2005, ANSI C80.3–2005, or ANSI C80.6–2005, and Underwriters Laboratories Inc. (UL) UL–6, UL–797, or UL–1242;

(c) finished scaffolding, *i.e.*, component parts of final, finished scaffolding that enter the United States unassembled as a “kit.” A kit is understood to mean a packaged combination of component parts that contains, at the time of importation, all of the necessary component parts to fully assemble final, finished scaffolding;

(d) tube and pipe hollows for redrawing;

(e) oil country tubular goods produced to API specifications;

(f) line pipe produced to only API specifications, such as API 5L, and not multi-stenciled; and

(g) mechanical tubing, whether or not cold-drawn, other than what is included in the above paragraphs.

The products subject to this investigation are currently classifiable in Harmonized Tariff Schedule of the United States (HTSUS) statistical reporting numbers 7306.19.1010, 7306.19.1050, 7306.19.5110, 7306.19.5150, 7306.30.1000, 7306.30.5015, 7306.30.5020, 7306.30.5025, 7306.30.5032, 7306.30.5040, 7306.30.5055, 7306.30.5085, 7306.30.5090, 7306.50.1000, 7306.50.5030, 7306.50.5050, and 7306.50.5070. The HTSUS subheadings above are provided for convenience and U.S. Customs purposes only. The written description of the scope of the investigation is dispositive.

International Trade Administration

[A–552–820]

Circular Welded Carbon-Quality Steel Pipe From the Socialist Republic of Vietnam: Affirmative Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Department) preliminarily determines that circular welded carbon-quality steel pipe (CWP) from the Socialist Republic of Vietnam (Vietnam) is being, or is likely to be, sold in the United States at less than fair value (LTFV), as provided in section 733(b) of the Tariff Act of 1930, as amended (the Act). The period of investigation (POI) is April 1, 2015, through September 30, 2015. The estimated weighted-average dumping margins of sales at LTFV are shown in the “Preliminary Determination” section of this notice. Interested parties are invited to comment on this preliminary determination.

DATES: Effective June 8, 2016.

FOR FURTHER INFORMATION CONTACT: Nancy Decker or Andrew Huston, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–0196 or (202) 482–4261, respectively.

SUPPLEMENTARY INFORMATION:

Background

The Department initiated this investigation on November 17, 2015.¹ For a complete description of the events that followed the initiation of this investigation, *see* the memorandum that is dated concurrently with this determination and hereby adopted by

¹ *See Circular Welded Carbon-Quality Steel Pipe From the Sultanate of Oman, Pakistan, the Philippines, the United Arab Emirates, and the Socialist Republic of Vietnam: Initiation of Less-Than-Fair-Value Investigations*, 80 FR 73708 (November 25, 2015) (*Initiation Notice*).

this notice.² The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>, and to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be found at <http://enforcement.trade.gov/frn/>. The signed Preliminary Decision Memorandum and the electronic version of the Preliminary Decision Memorandum are identical in content.

Scope of the Investigation

The product covered by this investigation is CWP from Vietnam. Interested parties filed comments regarding the scope of the investigation, which resulted in one clarification to the scope language and are addressed, in detail, in the Department’s Preliminary Scope Decision Memorandum.³ For a full description of the scope of this investigation, *see* the “Scope of the Investigation,” in Appendix II of this notice.

Methodology

The Department is conducting this investigation in accordance with section 731 of the Act. Constructed export prices have been calculated in accordance with section 772(b) of the Act. Because Vietnam is a non-market economy within the meaning of section 771(18) of the Act, we calculated normal value (NV) in accordance with section 773(c) of the Act. For a full description of the methodology underlying our preliminary conclusions, *see* the Preliminary Decision Memorandum.

Combination Rates

In the *Initiation Notice*, the Department stated that it would
