

assignments in advance of the displacement window.

By announcing the deadline for identifying operating LPTV stations now, well in advance of the release of the Channel Reassignment Public Notice, the Media Bureau seeks to provide LPTV and TV translator station permittees with "sufficient warning of this crucial deadline to allow them to complete construction and license permitted facilities." Permittees of digital LPTV and TV translators that are not operating on the date of release of the Channel Reassignment Public Notice will have to wait until the completion of the special displacement window for operating LPTV and TV translator stations before being able to file a displacement application and propose a channel from the smaller universe of unused television channels.

The Media Bureau also reminds LPTV and TV translator permittees that the Commission has extended the construction deadline for new digital LPTV and TV translator stations to the new digital transition date for the LPTV and TV translator service, which is 51 months after the release of the Channel Reassignment Public Notice. Thus, any construction efforts they may make between now and release of the Channel Reassignment Public Notice are completely voluntary.

This action is taken by the Chief, Media Bureau pursuant to authority delegated by 47 CFR 0.283 of the Commission's rules.

Federal Communications Commission.
