The submitted rules update Illinois' ambient air quality standards to include the 2012 primary National Ambient Air Quality Standard (NAAQS) for fine particulate matter (PM_{2.5}), add EPA-promulgated monitoring methods, and address the "sunset provisions" in our regulation, finding that the 1971 NAAQS for sulfur dioxide no longer applies to the Lemont and Pekin areas in Illinois. In addition, the revised rules contain the timing requirements for the "flagging of exceptional events" and the submitting of documentation supporting the determination of exceptional events for the 2012 primary annual averaged PM_{2.5} standard.**DATES:** Comments must be received on or before July 11, 2016.**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA–R05–OAR–2015–0009 or EPA–R05–OAR–2015–0314 at <http://www.regulations.gov> or via email to Aburano.Douglas@epa.gov. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that, if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.
