

inadvertently mistyped the final ratio of poly(oxyethylene) ratio as 16–30 moles instead of 16–60 moles.

The preamble for FR Doc. 2016–04599 published in the Federal Register issue of Wednesday, March 2, 2016 (81 FR 10776) (FRL–9942–48) is corrected as follows:

1. On page 10776, second column, under the heading Summary, paragraph one, line 9 and line 23, correct 16–30 to read 16–60.

2. On page 10777, first column, paragraph 6, line 17 is corrected to read: 16–60 moles.

3. On page 10778, second column, paragraph two, line 7 is corrected to read: 16–60 moles.

III. Why is this correction issued as a final rule?

Section 553 of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)(3)(B)) provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary, or contrary to the public interest, the agency may issue a final rule without providing notice and an

opportunity for public comment. EPA has determined that there is good cause for making this technical correction final without prior proposal and opportunity for comment, because it does not affect or change the Agency’s original regulatory decision nor does it adversely affect human or environmental health. EPA finds that this constitutes good cause under 5 U.S.C. 553(b)(3)(B).

IV. Do any of the statutory and executive order reviews apply to this action?

No. For a detailed discussion concerning the statutory and executive order review, refer to Unit X of the March 2, 2016 final rule.

V. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 et seq.), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal

Register. This action is not a “major rule” as defined by 5 U.S.C. 804(2).
