

Executive Order 13132, “Federalism”

It has been determined that this Privacy Act rule for the Department of Defense does not have federalism implications. This rule does not have substantial direct effects on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, no Federalism assessment is required.

List of Subjects in 32 CFR Part 311

Privacy.

Accordingly, 32 CFR part 311 is amended as follows:

PART 311—OFFICE OF THE SECRETARY OF DEFENSE AND JOINT STAFF PRIVACY PROGRAM

■ 1. The authority citation for 32 CFR part 311 continues to read as follows:

Authority: 5 U.S.C. 552a.

■ 2. Section 311.8 is amended by adding paragraph (c)(27) to read as follows:

§ 311.8 Procedures for exemptions.

* * * * *

(c) * * *

(27) *System identifier and name:* DMDC 24 DoD, Defense Information System for Security (DISS).

(i) *Exemption:* Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment, military service, Federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5), but only to the extent that such material would reveal the identity of a confidential source.

(ii) *Authority:* 5 U.S.C. 552a(k)(5).

(iii) *Reasons:* (A) from subsections (c)(3) and (d) when access to accounting disclosure and access to or amendment of records would cause the identity of a confidential source to be revealed. Disclosure of the source's identity not only will result in the Department breaching the promise of confidentiality made to the source but it will impair the Department's future ability to compile investigatory material for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment, Federal contracts, or access to classified information. Unless sources can be assured that a promise of confidentiality will be honored, they will be less likely to provide information considered essential to the Department in making the required determinations.

(B) From subsection (e)(1) because in the collection of information for

investigatory purposes, it is not always possible to determine the relevance and necessity of particular information in the early stages of the investigation. It is only after the information is evaluated in light of other information that its relevance and necessity becomes clear. Such information permits more informed decision-making by the Department when making required suitability, eligibility, and qualification determinations.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Green Bank Bridge (Green Bank Road/CR563) across the Mullica River, mile 18.0, at Green Bank, NJ. The deviation is necessary to perform bridge repairs. This deviation allows the bridge to remain in the closed-to-navigation position.

DATES: This deviation is effective from 7:30 a.m. on June 20, 2016, through 3:30 p.m. on June 23, 2016.

ADDRESSES: The docket for this deviation, [USCG–2016–0497] is available at <http://www.regulations.gov>. Type the docket number in the “SEARCH” box and click “SEARCH”. Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Hal R. Pitts, Bridge Administration Branch Fifth District, Coast Guard, telephone 757–398–6222, email Hal.R.Pitts@uscg.mil.

SUPPLEMENTARY INFORMATION: Atlantic County, NJ, that owns and operates the Green Bank Bridge (Green Bank Road/CR563), has requested a temporary deviation from the current operating regulations to perform urgent repairs to the bridge operating machinery. The bridge is a bascule draw bridge and has a vertical clearance in the closed position of 5 feet above mean high water.

The current operating schedule is set out in 33 CFR 117.731(b). Under this temporary deviation, the bridge will remain in the closed-to-navigation position from 7:30 a.m. on June 20, 2016, through 3:30 p.m. on June 23, 2016. At all other times the bridge will operate per 33 CFR 117.731(b).

The Mullica River is used by a variety of vessels including small U.S. government vessels, small commercial vessels, and recreational vessels. The Coast Guard has carefully considered the nature and volume of vessel traffic on the waterway in publishing this temporary deviation.

Vessels able to pass through the bridge in the closed position may do so. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transit to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

I. Introduction

On April 6, 2016, the Postal Regulatory Commission (Commission) issued a Notice of Proposed Rulemaking Concerning Product Lists and the Mail Classification Schedule, April 6, 2016.¹ The Commission proposed rules to fulfill its responsibilities under the Postal Accountability and Enhancement Act (PAEA), Public Law 109–435, 120 Stat. 3198 (2006). The rulemaking proposes to replace existing 39 CFR part 3020, subpart A in its entirety, and make conforming changes to 39 CFR part 3020, subparts B, C, and D.

The rulemaking proposes to amend existing rules concerning the Mail Classification Schedule (MCS) and the associated market dominant and competitive product lists to conform to the current practice of publishing the MCS on the Commission’s Web site at www.prc.gov, noticing changes to the market dominant and competitive product lists in the **Federal Register**, and publishing the market dominant and competitive product lists in the Code of Federal Regulations (CFR).

¹ Notice of Proposed Rulemaking Concerning Product Lists and the Mail Classification Schedule, April 6, 2016 (Order No. 3213); *see also* 81 FR 21506 (April 12, 2016).

The Public Representative and the Postal Service filed comments in response to Order No. 3213.² The commenters were generally supportive of the proposed rules. The commenters also included suggestions for improvements and sought minor clarification on various aspects of the proposed rules.

The Commission adopts the proposed rules as final rules with one minor clarification added to proposed § 3020.5(a).

II. Comments and Discussion

A. Public Representative Comments

The Public Representative generally supports adoption of the proposed rules and presents several suggestions for improvement.

The Public Representative states it appears that the Commission’s intent is to publish updates to the product lists in the CFR on a quarterly basis. PR Comments at 2. He bases this assumption on the following:

The current practice of the Commission is to accumulate all final orders involving changes to product lists and to file a product list update with the **Federal Register** on a quarterly basis.

Order No. 3213 at 7. Regardless, he notes that proposed § 3020.3(b) does not expressly state that updates will occur on a quarterly basis. He suggests the addition of the word “quarterly” to the proposed rule such that it reads: “Notice shall be submitted ‘quarterly’ to the **Federal Register** for publication within 6 months of the issue date of the applicable final order that affects the change.” PR Comments at 2.

The Commission intends to publish updates to the product lists appearing in the CFR on a quarterly basis. A further goal is to publish updates within one week of the close of each fiscal quarter. However, the Commission chooses not to make quarterly publication a rigid requirement, as would be the case if the word “quarterly” was added to the rule. Experience has shown that the press of more important business occasionally takes precedence over producing the quarterly updates. Although the quarterly updates are an important recordkeeping function that provides visibility into current Postal Service product offerings, publication does not directly affect the substantive rights of
