

SUMMARY: The U.S. Department of State (Department) is issuing this notice to advise the public that on June 10, 2016 the Department approved a Finding of No Significant Impact (FONSI) based on the Final Environmental Assessment (Final EA) for the NuStar Burgos Pipeline Projects Presidential Permit Applications Review. The Department prepared the Final EA consistent with the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321, *et seq.*), the regulations of the Council on Environmental Quality (CEQ) (40 CFR parts 1500–1508), and the Department's implementing regulations (22 CFR part 161). The Department has determined the proposed action would not have a significant effect on the environment and therefore, the preparation of an Environmental Impact Statement is not required. The FONSI is not a decision on the Presidential Permit applications. In accordance with Executive Order (E.O.) 13337, the Department will now proceed to make a determination as to whether issuance of Presidential Permits for NuStar Logistics, L.P.'s proposed cross-border pipeline facilities projects would serve the national interest. That determination process involves consideration of many factors, including foreign policy; energy security; environmental, cultural, and economic impacts; compliance with applicable law and regulations; and other issues.

DATES: The FONSI and Final EA are available as of the publication date of this notice.

ADDRESSES: Copies of the FONSI and Final EA are available at the following:

- McAllen Public Library, 4001 N. 23rd St., McAllen, TX 78504
- <http://www.state.gov/e/enr/applicant/applicants/c66757.htm>

Copies of the FONSI and Final EA may also be requested by email at NuStarBurgosReview@state.gov or by mail from: Burgos Project Manager, Office of Environmental Quality and Transboundary Issues (OES/EQT): Suite 2726, U.S. Department of State, 2201 C Street NW., Washington, DC 20520.

SUPPLEMENTARY INFORMATION: The Department evaluates Presidential permit applications under E.O. 13337 and E.O. 14432. E.O. 13337 delegates to the Secretary of State the President's authority to receive applications for permits for the construction, connection, operation, or maintenance of facilities for the exportation or importation of petroleum, petroleum products, coal, or other fuels (except for natural gas), at the borders of the United States, and to issue or deny such

Presidential Permits upon a national interest determination.

In December 2014, NuStar submitted two applications to the Department. The first application requests a new Presidential Permit to replace a 2006 Presidential Permit, that would: (1) Reflect NuStar's name change from Valero Logistics Operations, L.P. to NuStar Logistics, L.P. as the owner and operator of the 34-mile-long 8-inch outer diameter pipeline and border facilities for which NuStar was issued a Presidential Permit in 2006 (Existing Burgos Pipeline) for the import and export of light naphtha and (2) authorize the Existing Burgos Pipeline to transport a broader range of petroleum products than previously authorized, including diesel, gasoline, jet fuel, liquefied petroleum gas, and natural gas liquids. The second application requests that the Department issue a Presidential Permit for construction, connection, operation, and maintenance of a new 10-inch outer diameter pipeline and associated facilities in the same right of way as the Existing Burgos Pipeline. The second application also requests authorization for this new pipeline and associated facilities to transport the same range of products requested under the first permit application for the Existing Burgos Pipeline. Both pipelines would connect the Petroleos Mexicanos (PEMEX) Burgos Gas Plant near Reynosa, Tamaulipas, Mexico and the NuStar terminal near Edinburg, Texas in Hidalgo County, Texas at the United States-Mexico border.

Deborah Klepp,

Director, Office of Environmental Quality and Transboundary Issues, Department of State.

SURFACE TRANSPORTATION BOARD

[Docket No. AB 33 (Sub-No. 331X)]

Union Pacific Railroad Company— Discontinuance of Trackage Rights Exemption—in Pierce County, Wash.

Union Pacific Railroad Company (UP) has filed a verified notice of exemption under 49 CFR part 1152 subpart F—*Exempt Abandonments and Discontinuances of Service* to discontinue approximately 0.6 miles of overhead trackage rights over a line of railroad of BNSF Railway Company (BNSF), between “Bullfrog Junction” near BNSF’s Puyalloy River Bridge 8.78 and the point of connection with BNSF’s Seattle Division main line at River Street Interlocking, BNSF milepost 38.94X, in Tacoma, Wash. (the Line).¹ The Line traverses United States Postal Service Zip Code 98421.

¹ UP was granted trackage rights over the Line in *Union Pac. R.R.—Trackage Rights Exemption—*

UP has certified that (1) no local traffic has moved over the Line for at least two years; (2) any overhead traffic can be rerouted over other lines; (3) no formal complaint filed by a user of rail service on the Line (or by a state or local government entity acting on behalf of such user) regarding cessation of service on the Line is pending either with the Board or with any U.S. District Court or has been decided in favor of complainant within the two-year period; and (4) the requirements at 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

As a condition to this exemption, any employee adversely affected by the discontinuance shall be protected under *Oregon Short Line Railroad—Abandonment Portion Goshen Branch Between Firth & Ammon, in Bingham & Bonneville Counties, Idaho*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10502(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance (OFA) to subsidize continued rail service has been received, this exemption will be effective on July 16, 2016, unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues and formal expressions of intent to file an OFA to subsidize continued rail service under 49 CFR 1152.27(c)(2)² must be filed by June 27, 2016.³ Petitions to reopen must be filed by July 6, 2016, with the Surface Transportation Board, 395 E Street SW., Washington, DC 20423-0001.

A copy of any petition filed with the Board should be sent to UP’s representative: Jeremy M. Berman, 1400 Douglas St., #1580, Omaha, NE 68179.

If the verified notice contains false or misleading information, the exemption is void ab initio.

Board decisions and notices are available on our Web site at “WWW.STB.DOT.GOV.”

Decided: June 13, 2016.

BNSF Ry., FD 34881 (STB served June 20, 2006). UP states that BNSF terminated the trackage rights agreement effective May 30, 2016.

² Each OFA must be accompanied by the filing fee, which currently is set at \$1,600. See 49 CFR 1002.2(f)(25).

³ Because this is a discontinued proceeding and not an abandonment, interim trail use/rail banking and public use conditions are not appropriate. Because there will be an environmental review during abandonment, this discontinuance does not require an environmental review.

By the Board, Rachel D. Campbell, Director, Office of Proceedings.

Brendetta S. Jones,
Clearance Clerk.
