II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Nasdaq is proposing to increase the fees assessed members under Rule 7015(h) for use of VTE terminals. A VTE terminal is a basic front-end user interface used by Nasdaq members to connect to, and enter orders in, The Nasdaq Market Center. Members using VTE terminals pay the exchanges and market centers separately for data feeds and services provided by Nasdaq, other exchanges or market centers through VTE. Such fees are filed with the SEC and separately assessed by the exchanges and market centers at the same rate irrespective of the method of accessing the data feeds.

These data feeds provide information that is necessary for users to enter orders through VTE. The two fees assessed under Rule 7015(h) relate to optional web access and commissions.

Rule 7015(h) currently assesses monthly a minimum commission fee of \$250 per ID for users executing orders totaling less than 100,000 shares per month, and a web access fee of \$250 per ID. Nasdaq last increased fees assessed under Rule 7015(h) in 2013 when it raised the fee for access to the terminal via the web from \$125 monthly to \$250 monthly, and raised the minimum commission fee for users executing orders totaling less than 100,000 shares per month from \$125 monthly to \$250 monthly.³ In light of increasing costs, Nasdaq is proposing to increase the fee for access to the terminal via the web

from \$250 monthly to \$500 monthly, and increase the minimum commission fee for users executing orders totaling less than 100,000 shares per month from \$250 monthly to \$500 monthly.

Nasdaq notes that web connectivity is one option available to Nasdaq users for accessing the VTE terminal. Another option is access through extranet connectivity, where a user contracts directly with a third-party extranet provider and pays fees to that provider. With respect to minimum commission fees, members that execute total orders above the 100,000 share threshold will continue to not be assessed a commission fee.

Based on Nasdaq operation of the VTE since it was acquired from INET, Nasdaq believes that the pricing changes are warranted in order to appropriately balance the decreasing demand for the product with increasing platform, overhead, and technology infrastructure costs. Given that VTE is based on outdated technology and that members have other options for connecting to, and entering orders in, The Nasdaq Market Center, Nasdaq plans to phase out the service in its entirety on or before January 31, 2017.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁴ in general, and furthers the objectives of Sections 6(b)(4) of the Act,⁵ in particular. The Exchange believes it is consistent with Section 6(b)(4) of the Act because it provides for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls. All similarly situated members are subject to the same fee structure, and access to this Nasdaq service is offered on fair and non-discriminatory terms.

Nasdaq has not increased the fees assessed under Rule 7015(h) since 2013 despite incurring a substantial decrease in subscribership, resulting in higher per-subscription costs as fixed costs are spread among fewer users. Moreover, during this time Nasdaq has also experienced increased costs associated with ongoing support of the VTE platform, which include platform, overhead and technology infrastructure costs. In order to continue to offer this service, Nasdaq must increase the subscriber fees as proposed to cover the overall general increase in cost to support the service, and to cover the

increased cost resulting from a smaller subscriber base.

The proposed fees realign the balance of the costs discussed above to the fees received for the service so that it is similar to the ratio at the time of the last fee increase. Nasdaq notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive. Use of VTE terminals is entirely optional and members can avail themselves of numerous other means of accessing The Nasdaq Market Center. Members are not obligated to subscribe to VTE terminals and may cancel an existing subscription at any time, with the obligation to pay only for full the monthly fee for the month canceled. As noted above, Nasdaq plans to ultimately phase out the service in 2017 in light of declining subscribership, the age of the technology, and because members have other options for connecting to, and entering orders in, The Nasdaq Market Center. As such, the Exchange believes that the proposed fees are reasonable.

B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended. The proposed fees merely allow Nasdaq to recapture the increasing platform, overhead and technology infrastructure costs it incurs in support of the service, which are magnified on a per subscription basis given a declining subscriber base. The fees are applied uniformly among subscribing member firms, which are not compelled to subscribe to the service and may access the information provided through other means. For these reasons, any burden arising from the fees is necessary in the interest of promoting the equitable allocation of a reasonable fee.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.⁶ At any time within 60 days of the filing of the proposed rule change, the Commission

summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

[File No. 500-1]

In the Matter of Advanced Life Sciences Holdings, Inc., Anoterros, Inc., Emperial Americas, Inc., Nord Resources Corporation, and UNR Holdings, Inc.; Order of Suspension of Trading

June 15, 2016.

It appears to the Securities and Exchange Commission ("Commission") that there is a lack of current and accurate information concerning the securities of Advanced Life Sciences Holdings, Inc. ("ADLS") (CIK No. 1322734), a void Delaware corporation located in Woodridge, Illinois with a class of securities registered with the Commission pursuant to Securities Exchange Act of 1934 ("Exchange Act") Section 12(g) because it is delinquent in its periodic filings with the Commission, having not filed any periodic reports since it filed a Form 10-K for the period ended December 31, 2010. On March 3, 2014, the Commission's Division of Corporation Finance ("Corporation Finance") sent a delinquency letter to ADLS requesting compliance with its periodic filing requirements but ADLS did not receive the delinquency letter due to its failure to maintain a valid address on file with the Commission as required by Commission rules (Rule 301 of Regulation S-T, 17 CFR 232.301 and Section 5.4 of EDGAR Filer Manual) ("Commission Issuer Address Rules"). As of June 8, 2016, the common stock of ADLS was quoted on OTC Link operated by OTC Markets Group Inc. (formerly "Pink Sheets") ("OTC Link"), had six market makers, and was eligible for the "piggyback" exception of Exchange Act Rule 15c2-11(f)(3).

It appears to the Commission that there is a lack of current and accurate information concerning the securities of Anoterros, Inc. ("ANOS") (CIK No. 1390292), a revoked Nevada corporation located in Rolling Hills, California with a class of securities registered with the Commission pursuant to Exchange Act
