

Additionally, Members may opt to disfavor the Exchange's pricing if they believe that alternatives offer them better value.

With respect to the proposed tiered pricing changes, the Exchange has structured the proposed fees and rebates to attract additional volume to the Exchange. Particularly, the Exchange is proposing various changes to tiers that will result in increased rebates provided or reduced fees charged or that will make certain tiers more easily attainable for more Members. In order to offset such changes, the Exchange is also eliminating certain other pricing incentives currently offered by the Exchange. Accordingly, the Exchange does not believe that the proposed changes to the Exchange's tiered pricing structure burdens competition, but instead, enhances competition as such changes are all intended to increase the competitiveness of the Exchange. Also, the Exchange believes that the price changes contribute to, rather than burden competition, as such changes are broadly intended to incentivize participants to increase their participation on the Exchange, which will increase the liquidity and market quality on the Exchange, which will then further enhance the Exchange's ability to compete with other exchanges.

With respect to the proposed changes to the routing fee structure, the Exchange believes that the proposed fees are competitive in that they will continue to provide a simple approach to routing pricing that some Members may favor. Additionally, Members may opt to disfavor the Exchange's pricing, including pricing for transactions on the Exchange as well as routing fees, if they believe that alternatives offer them better value. In particular, with respect to routing services, such services are available to Members from other broker-dealers as well as other options exchanges. The Exchange also notes that Members may choose to mark their orders as ineligible for routing to avoid incurring routing fees.¹⁹

Based on the foregoing, the Exchange does not believe that any of the proposed changes will impair the ability of Members or competing venues to maintain their competitive standing in the financial markets.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to section 19(b)(3)(A) of the Act²⁰ and paragraph (f) of Rule 19b-4 thereunder.²¹ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

I. Self-Regulatory Organization's Statement of the Terms of the Substance of the Proposed Rule Change

The Exchange proposes to amend the NYSE Arca Equities Schedule of Fees and Charges for Exchange Services (the "Fee Schedule") to provide a second way to qualify for Tier 2 fees and credits for orders executed on the Exchange. The Exchange proposes to implement the fee change effective June 1, 2016. The proposed rule change is available on the Exchange's Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the Fee Schedule to provide a second way to qualify for Tier 2 fees and credits for orders executed on the Exchange.⁴ The Exchange proposes to implement the fee change effective June 1, 2016.

Currently, ETP Holders and Market Makers qualify for Tier 2 fees and credits by providing liquidity an average daily share volume per month of 0.30% or more, but less than 0.70% of United States consolidated average daily volume ("US CADV").⁵

⁴ The Tier 2 fees and credits are available for round lots and odd lots with a per share price [sic] \$1.00 or above.

⁵ The Exchange proposes to use the same definition [sic] US CADV for purposes of the proposed alternative to qualifying for Tier 2. Specifically, US CADV would mean the United States Consolidated Average Daily Volume for transactions reported to the Consolidated Tape, excluding odd lots through January 31, 2014 (except for purposes of Lead Market Maker pricing), and excludes volume on days when the market closes early and on the date of the annual reconstitution of the Russell Investments Indexes. Transactions that are not reported to the Consolidated Tape are not included in US CADV. See Fee Schedule, footnote 3.

The Exchange proposes to permit ETP Holders and Market Makers to alternatively qualify for Tier 2 fees and credits if they provide liquidity of 0.10% or more of the US CADV per month, and are affiliated with an OTP Holder or OTP Firm that provides an ADV of electronic posted Customer and Professional Customer executions in all issues on NYSE Arca Options (excluding mini options) of at least 1.50% of total Customer equity and ETF option ADV as reported by The Options Clearing Corporation ("OCC").⁶ The Exchange is not proposing to change the level of fees and credits applicable to Tier 2. The purpose of the proposed rule change is to adopt an alternative method for ETP Holders and Market Makers to qualify for Tier 2 fees and credits. The Exchange believes that the proposal would create an added incentive for ETP Holders and Market Makers to bring additional order flow to a public market while also providing an alternative method for ETP Holders and Market Makers to qualify for Tier 2 fees and credits. The Exchange notes that Bats BZX Exchange ("BZX") also provides pricing that combines a participant's equities and options trading on that exchange.⁷

The proposed changes are not otherwise intended to address any other problem, and the Exchange is not aware of any significant problem that the affected market participants would have in complying with the proposed changes.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with section 6(b) of the Act,⁸ in general, and furthers the objectives of sections 6(b)(4) and 6(b)(5) of the Act,⁹ in particular, because it provides for the equitable allocation of reasonable dues, fees, and other charges among its members, issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers.

The Exchange believes that the proposal to amend Tier 2 is reasonable because it provides ETP Holders affiliated with an NYSE Arca Options OTP Holder or OTP Firm with an additional way to qualify for Tier 2 fees

⁶ The proposed change is similar to pricing tiers currently in place on the Exchange. The Exchange's Cross Asset Tier 1 and Cross Asset Tier 2 already provide for fees and credits based on liquidity provided by an affiliated OTP Holder or OTP Firm. See Fee Schedule.

⁷ See BZX Fee Schedule at http://www.bats.com/us/equities/membership/fee_schedule/bzx/.

⁸ 15 U.S.C. 78f(b).

⁹ 15 U.S.C. 78f(b)(4) and (5).

and credits. The Exchange believes that the proposal to utilize a lower requirement of an ETP Holder or Market Maker providing liquidity of 0.10% or more of US CADV, rather than 0.30% or more of US CADV, is reasonable because to qualify for the proposed alternative an ETP Holder or Market Maker would also be required to be affiliated with an OTP Holder or OTP Firm and in addition, the ETP Holder's and Market Maker's affiliated OTP Holder or OTP Firm would be required to provide an ADV of electronic posted Customer and Professional Customer executions in all issues on NYSE Arca Options (excluding mini options) of at least 1.50% of total Customer equity and ETF option ADV as reported by OCC.

The Exchange believes that expanding the basis for Tier 2 to include Customer equity and ETF options ADV will better reflect the correlation between options trading and the underlying securities, which trade at the Exchange, including ETFs. In this respect, the Exchange notes that Equity and ETF Customer volume is a widely followed benchmark of industry volume and is indicative of industry market share. The Exchange believes that the proposal is equitable and not unfairly discriminatory because all ETP Holders and Market Makers would be subject to the same fee structure and be offered the same alternative to qualifying for Tier 2 fees and credits. Moreover, Tier 2 fees and credits would be available for all ETP Holders and Market Makers to satisfy, including those that are not affiliated with an NYSE Arca Options OTP Holder or OTP Firm. ETP Holders and Market Makers that are not affiliated with an NYSE Arca Options OTP Holder or OTP Firm would continue to be eligible for Tier 2 fees and credits subject to their meeting the current requirements.

Further, the Exchange believes that the proposal is reasonable and would create an added incentive for ETP Holders and Market Makers to execute additional orders on the Exchange. The Exchange believes that the proposed change is equitable and not unfairly discriminatory because providing incentives for orders in exchange-listed securities that are executed on a registered national securities exchange (rather than relying on certain available off-exchange execution methods) would contribute to investors' confidence in the fairness of their transactions and would benefit all investors by deepening the Exchange's liquidity pool, supporting the quality of price discovery, promoting market transparency and improving investor protection.

Volume-based rebates and fees such as the ones currently in place on the Exchange, and as proposed herein, have been widely adopted in the cash equities markets and are equitable because they are open to all ETP Holders and Market Makers on an equal basis and provide additional benefits or discounts that are reasonably related to the value to an exchange's market quality associated with higher levels of market activity, such as higher levels of liquidity provision and/or growth patterns, and introduction of higher volumes of orders into the price and volume discovery processes. Further, the Exchange believes that the proposed amendment to Tier 2 will provide such enhancements in market quality on both the Exchange's equity market and options market by incentivizing increased participation on both platforms.

The Exchange believes that it is subject to significant competitive forces, as described below in the Exchange's statement regarding the burden on competition.

For the foregoing reasons, the Exchange believes that the proposal is consistent with the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

In accordance with section 6(b)(8) of the Act,¹⁰ the Exchange believes that the proposed rule change would not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Instead, the Exchange believes that the proposal to add an additional way to qualify for Tier 2 would encourage the submission of additional liquidity to a public exchange, thereby promoting price discovery and transparency and enhancing order execution opportunities for ETP Holders and Market Makers. The Exchange believes that this could promote competition between the Exchange and other execution venues, including those that currently offer similar order types and comparable transaction pricing, by encouraging additional orders to be sent to the Exchange for execution.

Finally, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees and rebates to remain competitive

with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees and credits in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited. As a result of all of these considerations, the Exchange does not believe that the proposed changes will impair the ability of ETP Holders or competing order execution venues to maintain their competitive standing in the financial markets.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to section 19(b)(3)(A)¹¹ of the Act and subparagraph (f)(2) of Rule 19b-4¹² thereunder, because it establishes a due, fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under section 19(b)(2)(B)¹³ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments
