Title: Swine Contract Library.

OMB Control Number: 0580-0021.

Summary of Collection: The Swine Packer Marketing Contracts, subtitle of the Livestock Mandatory Reporting Act of 1999, amended the Packers and Stockyards Act (P&S Act) to mandate the establishment of a library of swine packer marketing contracts (swine contract library), and a monthly report of types of contracts in existence and available and commitments under such contracts. On February 17, 2016, a final rule was published re-establishing regulatory authority for the Swine

Contract Library's regulations (9 CFR part 206) by amending the regulations' authority citation to include Subtitle B of Title II of the P&S Act (7 U.S.C. 198–198b). Need and Use of the Information: Information is required from packers for processing plants that meet certain criteria, including size as measured by annual slaughter. This information is collected using forms P&SP–341, 342 and 343. GIPSA is responsible for implementing and enforcing the P&S Act, including the swine contract library. National Institute of Food and Agriculture

Title: Veterinary Medicine Loan Repayment Program (VMLRP).

OMB Control Number: 0524–NEW.

Summary of Collection: In January 2003, the National Veterinary Medical Service Act (NVMSA) was passed into law adding section 1415A to the National Agricultural Research, Extension, and Teaching Policy Act of 1997. This law established a new Veterinary Medicine Loan Repayment Program (VMLRP) (7 U.S.C. 3151a) authorizing the Secretary of Agriculture to carry out a program of entering into agreements with veterinarians under which they agree to provide veterinary services in veterinarian shortage situations. The purpose of the program is to assure an adequate supply of trained food animal veterinarians in shortage situations and provide USDA with a pool of veterinary specialists to assist in the control and eradication of animal disease outbreaks. The National Institute of Food and Agriculture (NIFA) will designate geographic and practice areas that have a shortage of food supply veterinarians in order to carry out the VMLRP goals of strengthening the nation's animal health infrastructure and supplementing the Federal response during animal health emergencies. NIFA will carry out NVMSA by entering into

educational loan repayment agreements with veterinarians who agree to provide veterinary services in veterinarian shortage situation for a determined period of time. NIFA will collect information using the Shortage Situation Nomination Form, Application Form, Records and Reports, and Surveys.

Need and Use of the Information: The information collected allows the National Institute of Food and Agriculture to request from VMLRP applicants' information related to eligibility, qualification, career interests, and recommendations necessary to evaluate their applications for repayment of educational indebtedness in return for agreeing to provide veterinary services in veterinarian shortage situations. The information will also be used to determine an applicant's eligibility for participation in the program. The information also allows the VMLRP to assess program processes and impact, make program improvements based on process feedback, and provide feedback to State Animal Health Officials on veterinarian shortage situations, which can aide them during the nomination process.

Description of Respondents: Individuals or households; Business or other for-profit.

Number of Respondents: 1,190.

Frequency of Responses: Reporting: Biennially.

Total Burden Hours: 11,979.
